## Salvation Of Modern Man:

Radical Secularization? Stijn Latré, Walter Van Herck, Guido Vanheeswijck, 2016-06-30 What does it mean for a society to be secular Answering this question from a philosophical angle Radical Secularization delves into the philosophical presuppositions of secularization Which cultural evolutions made secularization possible International scholars from different disciplines assess the answers given by many leading philosophers such as among others L with Blumenberg and Habermas Germany Gauchet and Nancy France Taylor and Bellah North America They examine the theory that secularization cannot only be regarded as a cultural change that was forced upon religion from an external source e g science but should also be considered as a phenomenon triggered by motives internal to religion If religions are indeed capable of inner transformations the question arises whether religions can persist in the secular societies they inadvertently helped to bring about and how secular societies may accommodate religion

**Archbishop Fulton Sheen, the Contemporary Humanist** Emmanuel K. Ngwainmbi, Rev. Fr. John Berinyuy, 2023-08-30 This book is a theological reflection of Sheen's contribution to humanity and society It analyzes the modern person from the Catholic doctrinal perspective explores Fulton Sheen's perception of the contemporary individual and demonstrates that global economic religious and political crises cannot be resolved by focusing only on the mundane It further underscores some contemporary anthropological challenges and proposes a philosophy and theology of life that can enable contemporary humans to know themselves better and make life worth living The authors argue that advancements in science and technology have failed to prolong happiness people are still frustrated disillusioned cynical bored and suicidal This book enters the landscape of Sheen's controversial pause before he was sanctified and provides a lengthy liturgical extrapolation of Sheen's Christian anthropology wrestling with other thinkers and general concerns surrounding human angst in modern society Journal of Theological Studies, 1904 **Two** Roberto Esposito, 2015-09-01 The debate on political theology that ran throughout the twentieth century has reached its end but the ultimate meaning of the notion continues to evade us Despite all the attempts to resolve the issue we still speak its language we remain in its horizon The reason for this says Roberto Esposito lies in the fact that political theology is neither a concept nor an event rather it is the pivot around which the machine of Western civilization has revolved for more than 2 000 years At its heart stands the juncture between universalism and exclusion unity and separation the tendency of the Two to make itself into One by subordinating one part to the domination of the other All the philosophical and political categories that we use starting with the Roman and Christian notion of the person continue to reproduce this exclusionary dispositif To take our departure from political theology then the task of contemporary philosophy we must radically revise our conceptual lexicon Only when thought has been returned to its rightful place connected to the human species as a whole rather than to individuals will we be able to escape from the machine that has imprisoned our lives for far too long **Harper's Monthly Magazine**, 1918 Contemporary Jewish

Philosophies William E. Kaufman, 1992 Here is a systematic critique of the theological and philosophical views of the major Jewish thinkers of the 20th century The pattern of the book is one of challenge and response with the purpose of activating the mind of the reader to the vital issues of Jewish theology in our own time New forms of Jewish philosophic inquiry in response to the Holocaust the American Jewish experience and the establishment of the state of Israel makes necessary a clear and comprehensive framework in which contemporary Jewish thought may be studied Kaufman traces the effects of this new stage of philosophical thinking through the writings of such luminaries as Franz Rosenzweig Martin Buber Leo Baeck and Mordecai Kaplan as well as seeking the sources of the thought of such contemporary figures as Emil Fackenheim Jacob Agus Arthur Cohen Eugene Borowitz Richard Rubenstein and Abraham Joshua Heschel in the traditional roots of covenant salvation and transcendence

*Death in the City (repackage)* Francis A. Schaeffer, 2021-05-20 A Redesign of the Classic Work by Francis A Schaeffer Few Christians had a greater impact on the Christian response to modernism and postmodernism during the last half of the twentieth century than Francis A Schaeffer whose works offered a seemingly prophetic perspective that anticipated shifts in culture long before they happened In *Death in the City* originally written against the backdrop of the 1960s countercultural upheaval Schaeffer shows that when the intellectual and spiritual foundation of a society fails the society itself is destined to crumble The death that follows subtly suffocates truth meaning and beauty out of the culture Schaeffer offers a simple response to the rejection of biblical principles we see in our day commitment to God's word as truth This commitment is often a costly practice but it is compassion for a world that is lost and dying without the gospel *Death in the City* encourages us to respond to the changing culture not by hiding away but by living each aspect of life in supernatural communion with the Lord

Heidegger's Confrontation with Modernity Michael E. Zimmerman, 1990-05-22 Writing in a lively and refreshingly clear American English Zimmerman provides an uncompromisingly honest and judicious account of Heidegger's views on technology and his involvement with National Socialism One of the most important books on Heidegger in recent years John D Caputo superb Thomas Sheehan The New York Review of Books thorough and complex Choice excellent guide to Heidegger as eco philosopher Radical Philosophy engrossing rich in substance makes clear Heidegger's importance for the issue of technology ethics and politics Religious Studies Review The relation between Martin Heidegger's understanding of technology and his affiliation with and conception of National Socialism is the leading idea of this fascinating and revealing book Zimmerman shows that the key to the relation between Heidegger's philosophy and his politics was his concern with the nature of working and production
