Lauridsen, 2007 Part of the Danish Humanist Texts and Studies series. It examines the movements from their emergence until they respectively came in to the power apparatus Heimwehr and forbidden NSDAP. *Building a Nazi Europe* Martin R. Gutmann, 2018-12-20 A compelling account of the men who worked and fought for Nazi terror organization the SS during the Second World War. Hitler's Scandinavian Legacy Jill Stephenson, John Gilmour, 2013-06-06 The Scandinavian/Nordic countries of Denmark, Norway, Sweden and Finland experienced the effects of the German invasion in April 1940 in very different ways. Collaboration, resistance and co-belligerency were only some of the short-term consequences. Each country's historiography has undergone enormous changes in the seventy years since the invasion, and this collection by leading historians examines the immediate effects of Hitler's aggression as well as the long-term legacies for each country's self-image and national identity. The Scandinavian countries' war experience fundamentally changed how each nation functioned in the post-war world by altering political structures, the dynamics of their societies, the inter-relationships between the countries, and the popular view of the wartime political and social responses to totalitarian threats. Hitler was no respecter of the rights of the Scandinavian nations, but he and his associates dealt surprisingly differently with each of them. In the post-war period, this has caused problems of interpretation for political and cultural historians alike. Drawing on the latest research, this volume will be a welcome addition to the comparative histories of Scandinavia and the Second World War. Unlocking the Doors to the Worlds of Guaman Poma and His Nueva corónica Rolena Adorno, Ivan Boserup, 2015-12-04 Honored by UNESCO's Memory of the World designation, Felipe Guaman Poma de Ayala's *Nueva corónica y buen gobierno* (1615) rewrites Andean history in accordance with the author's goals of reforming Spanish colonial rule in the continent-spanning viceroyalty of Peru. Housed at the Royal Library of Denmark since the 1660s, brought to international attention in 1908, and first published in facsimile in 1936, the autograph manuscript has been the topic of research in Andean ethnology and related disciplines for several decades. Now on the eve of the 400th anniversary of Guaman Poma's composition of the *Nueva corónica*, a renowned group of international scholars has focused fresh attention on the work, its author, and its times. Accomplished Andeanists such as R. Tom Zuidema, Frank Salomon, Jan Szeminski, and Regina Harrison are joined by other notable and younger scholars to explore Andean institutions and ecology, Inca governance, Spanish conquest era history, the transformations of native and European sources in

Surviving Hitler and Mussolini Robert Gildea, Olivier Wieviorka, Anette Warring, 2006-06-01 *Surviving Hitler and Mussolini* examines how far everyday life was possible in a situation of total war and brutal occupation. Its theme is the social experience of occupation in German and Italian occupied Europe and in particular the strategies ordinary people developed in order to survive. Survival included meeting the challenges of shortage and hunger of having to work for the enemy of women entering into intimate relations with soldiers of the preservation of culture in a fascist universe of whether and how to resist and the reaction of local communities to measures of reprisal taken in response to resistance. What emerges is that ordinary people were less heroes, villains or victims than inventive and resourceful individuals able to maintain courage and dignity despite the conditions they faced. The book adopts a comparative approach from Denmark and the Netherlands to Poland and Greece and offers a fresh perspective on the Second World War. Higher Education in the Nordic Countries

, 2017-05-04 The Nordic countries have a lot in common. We share the same values and culture in education and vulnerable subjects face many of the same challenges across the Region. This makes it advantageous for us to work together on enhancing Nordic competencies and competitiveness and to generate Nordic added value by working together on these vulnerable subject areas. A Nordic approach will generate synergies that would not be possible to achieve at national level. Nordic work on Collaboration, Specialisation and Concentration (CSC) can help overcome the challenges faced by vulnerable study programmes all over the Region. From this starting point, the study looks at how work on CSC can help maintain sustainable high quality study programmes throughout the Nordic Region. **Fascism and Neofascism** E. Weitz, A. Fenner, 2016-09-27

The dramatic transformations of the 1990s, the end of the Cold War, the establishment of political liberties and market economies in Eastern Europe. German unification quickly led commentators to proclaim the end of all ideologies and the complete triumph of liberal capitalism. Just as quickly, however, right wing extremism began a surge in Europe that has not significantly abated to this day. *Fascism and Neofascism* is a collection of essays that is distinctive in two important ways. First, unlike most volumes which cover either historical fascism or the recent radical right, *Fascism and Neofascism* spans both periods. Secondly, this volume also aims to bring newer modes of inquiry rooted in cultural studies into dialogue with more traditional ways of viewing fascism. The editors' approach is deliberately interdisciplinary, even eclectic.

Danish Reactions to German Occupation Carsten Holbraad, 2017-02-06 For five years during World War II, Denmark was occupied by Germany. While the Danish reaction to this period of its history has been extensively discussed in Danish language publications, it has not until now received a thorough treatment in English. Set in the context of modern Danish foreign relations and tracing the country's responses to successive crises and wars in the region, *Danish Reactions to German Occupation* brings a full overview of the occupation to an English speaking audience. Holbraad carefully dissects the motivations and ideologies driving conduct during the occupation and his authoritative coverage of the preceding century

provides a crucial link to understanding the forces behind Danish foreign policy divisions. Analysing the conduct of a traumatised and strategically exposed small state bordering on an aggressive great power, the book traces a development from reluctant cooperation to active resistance. In doing so, Holbraad surveys and examines the subsequent and not yet quite finished debate among Danish historians about this contested period which takes place between those siding with the resistance and those more inclined to justify limited cooperation with the occupiers and who sometimes even condone various acts of collaboration.

The Politics of the Male Body in Global Sport Hans Bonde, 2013-10-18 Danish sport has been associated with Europe and the World not least through I P Muller and Niels Bukh and the Danish Gymnastics revolution with its emphasis on male aesthetics and hygiene in the first half of the twentieth century. At the same time, Denmark has stood apart from Europe in the early moments of its history of sport with the rural revolution of the farming communities as a statement of political independence and assertion. However, during the German occupation of Denmark, Danish sport was part of a European collaboration which characterized a number of the occupied countries, not least in the Nordic area. After the Second World War, Denmark embraced international body cultures with other European nations, in particular Eastern martial arts. Denmark too, as part of trends in the European region and the world, became caught up in sport as a powerful contemporary political statement. This book was previously published as a special issue of the *International Journal of the History of Sport*.

Collective Identities and Post-War Violence in Europe, 1944-48 Ota Konrád, Boris Barth, Jaromír Mrňka, 2021-11-27 This book analyses the process of reshaping liberated societies in post-1945 Europe. Post-war societies tried to solve three main questions immediately after the dark times of occupation: Who could be considered a patriot and a valuable member of the respective national community? How could relations between men and women be re-established? How could the respective society strengthen national cohesion? Violence in rather different forms appeared to be a powerful tool for such a complex reshaping of societies. The chapters are based on present primary research about specific cases and consider the different political, mental and cultural developments in various nation states between 1944 and 1948. Examples from Italy, France, Norway, Denmark, Greece, Ukraine, Lithuania, Belarus, Czechoslovakia and Hungary demonstrate a new comparative and fascinating picture of post-war Europe. This perspective overcomes the notorious East-West dividing line without covering the manifold differences between individual European countries.

Social Movements and the Change of Economic Elites in Europe after 1945 Stefan Berger, Marcel Boldorf, 2018-05-29 This book explores the changing nature of social movements and economic elites in post-Second World War Europe. In the years following 1945, Europe faced diverse challenges connected by the overriding question of how the reconstruction of the continent should proceed. For the Central Powers, the implementation lay in the hands of the Allied occupying forces who organised the process of denazification and the establishment of a new economic order. In countries without military occupation, there was a deep gap between the new governmental forces and the former collaborators. In both cases, social movements which were formed by

anti fascists on the left of the political spectrum assumed the task of social reorganisation The chapters in this book explore the discourses about economic systems and their elites which moved to the fore across a range of European countries uncovering who was involved what resistance these social movements faced and how these ultimately failed in the West to bring about change while in Eastern Europe Stalinism forcibly imposed change
