Sex Appeal Paul Abramson,2010-02-02 An epidemic of sexually transmitted infections and sexual violence is upon us Political interests are overriding sexual freedom in the name of morality Marriages are just as likely to fail as they are to succeed Why in a time of unprecedented personal liberties and medical knowledge are so many Americans so uncertain about what constitutes ethical sexual behavior Sex Appeal is neither a moralistic screed nor a self indulgent guide to sexual utopia Instead it charts a thoughtful course between extremes to present six ethical principles for sexual health and happiness do no harm celebrate sex be careful know yourself speak up and speak out and throw no stones Sex Appeal elaborates upon each of these principles asserting that sex can be fun safe and life enhancing if approached in the right spirit and with the information necessary to make wise sexual choices Providing clear guidelines for individuals seeking answers to their own personal questions about sex the book also connects these questions to larger issues such as how we as a society can reduce levels of sexual harm and sexually transmitted infections and how everyday individual choices can support this effort Persuasive and eminently readable Sex Appeal offers a welcome dose of clarity and common sense to todays most pressing sexual issues

Postcolonial in Melanesia and Anthropology is arguably the most comprehensive single reassessment of Melanesia as an ethnographic world area to have been published in several decades. Written for students as well as professional scholars, this work further broadens our understanding by analyzing the history of Melanesian ethnography and relating this history to the larger relationship between Melanesia as a contemporary world area and anthropology as a field of contemporary human study. Bruce M. Knaft is Professor of Anthropology, Emory University, and the author of three previous books as well as some thirty journal articles and chapters. Knaft's interests span a wide range of issues in the anthropology of Melanesia, and he is articulate with general issues of cultural theory and anthropological history.

Widening the Frame with Visual Psychological Anthropology Robert Lemelson, Annie Tucker, 2021-10-28 This book uses visual psychological anthropology to explore trauma, gendered violence, and stigma through a discussion of three ethnographic films set in Indonesia: *40 Years of Silence* (Lemelson, 2009), *Bitter Honey* (Lemelson, 2015), and *Standing on the Edge of a Thorn* (Lemelson, 2012). This exploration widens the frame in two senses. First, it offers an integrative analysis that connects the discrete topics and theoretical concerns of each film to crosscutting themes in Indonesian history, society, and culture. Additionally, it sheds light on all that falls outside the literal frame of the screen, including the films' origins, psychocultural and interpersonal dynamics, and constraints of deep, ongoing collaborations in the field, narrative and emotional orientations toward editing, participants' relationship to their screened image, the life of the films after release, and the ethics of each stage of filmmaking. In doing so, the authors widen the frame for psychological anthropology as well, advocating for film as a crucial point of engagement for academic audiences and for translational purposes. Rich with critical insights and reflections on ethnographic filmmaking, this book will appeal to both scholars and students of visual anthropology, psychological anthropology, and ethnographic methods. It also serves as an engrossing companion to three contemporary ethnographic films.
