A Movement's Promise Samer Al-Saber,2025-08-26 Starting in the 1970s Palestinian theater flourished as part of a Palestinian cultural spring In the absence of local radio television and uncensored journalism theater production became the leading form of artistic expression and Palestinian theater artists self identified as a movement Although resistance was not their sole function these theater makers contributed to an active cultural resistance front With this book Samer Al Saber tells the story of the Palestinian Theater Movement over nearly three decades as they created plays and productions that articulated versions of Palestinian identity critiqued social norms celebrated and extended Palestinian cultural values and challenged the power disparity created by the Occupation The struggles between Palestinian theater artists and Israeli authorities form the central relationships in this history Al Saber juxtaposes the agency of Palestinian theater artists in their determination to perform against immense challenges with the power of Israeli authorities to grant or deny permission to theatrical productions The legal structure of institutionalized censorship prevented Palestinian artists from expressing their chosen message and the theater movement s search for permission to perform illuminates the disparity in power between the occupier and the occupied In writing the first history of the Palestinian Theater Movement Al Saber amplifies necessary voices in this Palestinian cultural history told from below

Cultural Encounters with the Environment Viola Haarmann,2000 In Cultural Encounters with the Environment a distinguished group of contributors offers a fresh and original view of contemporary geography The authors explore the role of four traditional themes in the Onew cultural geographyO the interplay between the evolution of particular biophysical niches and the activities of the culture groups that

inhabit them the diffusion of cultural traits the establishment and definition of culture areas and the distinctive mix of geographical characteristics that gives places their special character in relation to one another By examining how cultural space is constructed how environment is remade understood and imaged as a consequence and how people lay claim to place this volume establishes a compelling case for the importance of these enduring concepts to present and future trajectories in cultural geography

Unfree in Palestine Nadia Abu-Zahra, Adah Kay, 2012-11-09 This book reveals the role played by identity documents in Israel's apartheid policies towards the Palestinians from the red passes of the 1950s to the orange green and blue passes of today The authors chronicle how millions of Palestinians have been denationalised through the bureaucratic tools of census population registration blacklisting and a discriminatory legal framework They show how identity documents are used by Israel as a means of coercion extortion humiliation and informant recruitment Movement restrictions tied to IDs and population registers threaten Palestinian livelihoods freedom of movement and access to basic services such as health and education Unfree in Palestine is a masterful expose of the web of bureaucracy used by Israel to deprive the Palestinians of basic rights and freedoms and calls for international justice and inclusive security in place of discrimination and division

The West Bank Palestinian Family Ibrahim Wade Ata, 2023-05-31 First published in 1986 The West Bank Palestinian Family presents the

reader with the first comprehensive study of the evolution of the Palestinian family in the West Bank. The main focus of the work was to identify what changes if any the Palestinian family has undergone over the last three generations of its evolution, an evolution partly spent under Israeli occupation of the West Bank since 1967. The samples used in the research for the book were taken from towns, villages and refugee camps and were subsequently divided into sub-samples of three uniform age groups. The results of the research give a unique and informative view of who is changing, what is changing and at what rate and in what direction. It also shows the differences and uniformities in the attitudes and lifestyles of three generations of the Palestinian families studied. An important historical document, this book is a must-read for scholars of Middle East studies and Middle East politics.

Armies of the Young David M. Rosen, 2005-01-31. Children have served as soldiers throughout history. They fought in the American Revolution, the Civil War and in both world wars. They served as uniformed soldiers, camouflaged insurgents and even suicide bombers. Indeed, the first U.S. soldier to be killed by hostile fire in the Afghanistan war was shot in ambush by a fourteen-year-old boy. Does this mean that child soldiers are aggressors? Or are they victims? It is a difficult question with no obvious answer yet. In recent years, the acceptable answer among humanitarian organizations and contemporary scholars has been resoundingly the latter. These children are most often seen as especially hideous examples of adult criminal exploitation. In this provocative book, David M. Rosen argues that this response vastly oversimplifies the child soldier problem. Drawing on three dramatic examples from Sierra Leone, Palestine and Eastern Europe during the Holocaust, Rosen vividly illustrates this controversial view. In each case, he shows that children are not always passive victims but often make the rational decision that not fighting is worse than fighting. With a critical eye to international law, *Armies of the Young* urges readers to reconsider the situation of child combatants in light of circumstance and history before adopting uninformed child protectionist views. In the process, Rosen paints a memorable and unsettling picture of the role of children in international conflicts.

Broken Promises, Broken Dreams Alice Rothchild, 2010-02-02. The tragedies of the conflict between Israelis and Palestinians are never far from the pages of the mainstream press. Yet it is rare to hear about the reality of life on the ground and it is rarer still when these voices belong to women. This book records the journey of a Jewish American physician travelling and working within Israel and the Occupied Territories. Alice Rothchild grew up in a family grounded by the traumas of the Holocaust and passionately devoted to Israel. This book recounts her experiences as she grapples with the reality of life in Israel and the hardships of Palestinians living in

the West Bank and Gaza The new edition includes a new preface two chapters on Israeli dissent and a chapter which explores the impact of a Palestinian home demolition and the work of Israeli soldiers and Palestinian fighters who have joined together to form Combatants for Peace Ultimately the book raises troubling questions regarding US policy and the mainstream Jewish community's insistence on giving unquestioning support to all Israeli policy Twilight Nationalism Daniel Monterescu, Haim Hazan, 2018-06-26 The city of Jaffa presents a paradox intimate neighbors who are political foes The official Jewish national tale proceeds from exile to redemption and nation building while the Palestinians is one of a golden age cut short followed by dispossession and resistance The experiences of Jaffa's Jewish and Arab residents however reveal lives and nationalist sentiments far more complex Twilight Nationalism shares the stories of ten of the city's elders women and men rich and poor Muslims Jews and Christians to radically deconstruct these national myths and challenge common understandings of belonging and alienation Through the stories told at life's end Daniel Monterescu and Haim Hazan illuminate how national affiliation ultimately gives way to existential circumstances Similarities in lives prove to be shaped far more by socioeconomic class age and gender than national allegiance and intersections between stories usher in a politics of existence in place of politics of identity In offering the real stories individuals tell about themselves this book reveals shared perspectives too long silenced and new understandings of local community previously lost in nationalist narratives
