*FEARless* Lisinka Ulatowska, 2005-08 Fearless combines front line scientific information about the nature of our universe with fascinating material addressing the deepest recesses of the human soul To be read and enjoyed by everyone keen on knowing what this world and we ourselves are really like Prof Dr Ervin Laszlo Founder and President Club of Budapest This novel provides a harrowing account of how fear creeps into the lives of whole nations taking over so gradually that it taints government policies and infects their citizens before they even realize it is there Only the powerful drive to live and thrive can dispel it But is the compelling all win principle sufficient to stop the epidemic of fear that has most of the world in its grip The story opens in Maurice s sumptuous mansion on the idyllic Costa Rican shore where we meet Bertram author and business consultant recovering from a burnout In his wallet he carries a newspaper clipping about the elusive Eliza He longs to meet her Little does he suspect how many lives will eventually depend on their ability to work closely together Here we also meet Pim a prominent systems scientist who with his peers at the U N s University of Peace seeks ways to halt the epidemic of fear Already fear is causing wholesale slaughter in the nation of Kukundu gaining momentum in more than 100 dictatorships and has almost imperceptibly secured a stranglehold on the free world In the background lurk the Masters of Fear themselves the Holy Order of the Snake close to gaining control of our world When Mary with her crew of young people arrive at Maurice s mansion it becomes clear that there is still a chance to stop the fear epidemic if they each mobilize their extensive connections with young people and activists worldwide As we experience the heights to which the human spirit can soar we recognize the amount of power that is available to ordinary people to heal the wounds that fear has caused The narrative leads us to people at every level of society ranging from Heads of State to kids living in the slums from representatives of NGOs working at the U N to people camping in the jungles fighting in the underground resistance and we become acquainted with the tools that we too can use to break through the confines of fear For there are frightening parallels between the fear epidemic set in 2010 and conditions we are living in today This novel has valuable insights for businesspeople educators statesmen and women and all people confronted with the challenges of living in to day s world It provides an anatomy of fear and its resolution both profoundly complex and yet compellingly simple once you know where to begin
