Samnium Settlement And Cultural Change Archeologica Transatlantica:

Cult Places and Cultural Change in Republican Italy Tessa Dieder Stek, 2009 Summary This study throws new light on the Roman impact on Italic religious structures in the last four centuries BC and more generally on the complex processes of change and accommodation set in motion by the Roman expansion in Italy Cult places had a pivotal function among the various Italic tribes known to us from the ancient sources which had been gradually conquered and subsequently controlled by Rome Through an analysis of archaeological literary and epigraphic evidence from rural cult places in Central and Southern Italy including a case study on the Samnite temple of San Giovanni in Galdo the authors investigate the fluctuating function of cult places in among the non Roman Italic communities before and after the establishment of Roman rule The Peoples of Ancient Italy Gary D. Farney, Guy Bradley, 2017-11-20 Although there are many studies of certain individual ancient Italic groups e.g. the Etruscans Gauls and Latins there is no work that takes a comprehensive view of each of them the famous and the less well known that existed in Iron Age and Roman Italy Moreover many previous studies have focused only on the material evidence for these groups or on what the literary sources have to say about them This handbook is conceived of as a resource for archaeologists historians philologists and other scholars interested in finding out more about Italic groups from the earliest period they are detectable early Iron Age in most instances down to the time when they begin to assimilate into the Roman state in the late Republican or early Imperial period As such it will endeavor to include both archaeological and historical perspectives on each group with contributions from the best known or up and coming archaeologists and historians for these peoples and topics The language of the volume is English but scholars from around the world have contributed to it This volume covers the ancient peoples of Italy more comprehensively in individual chapters and it is also distinct because it has a thematic section **Ancient West & East** G.R. Tsetschladze, 2006-11-30 Originally published as a double issue of Volume 5 2006 of Brill's bi annual Ancient West East **Landscapes and Cities** John R. Patterson, 2006-10-19 This book investigates the relationships between city and countryside in Italy in the early Empire using evidence from archaeology literary texts and inscriptions It stresses the diversity of situations across Italy with a focus on individual towns and regions as well as on the broader picture **BOOK JACKET KOINE** Derek Counts, Anthony Tuck, 2009-11-23 The Oxford English Dictionary defines koine as a set of cultural or other attributes common to various groups This volume merges an academic career over a half century in breadth and scope with an editorial vision that brings together a chorus of scholarly contributions echoing the core principles of R. Ross Holloway's own unique perspective on ancient Mediterranean studies Through broadly conceived themes the four individual sections of this volume I A View of Classical Art Iconography in Context II Crossroads of the Mediterranean Cultural Entanglements Across the Connecting Sea III Coins as Culture Art and Coinage from Sicily and IV Discovery and Discourse Archaeology and Interpretation are an attempt to capture the many and varied trajectories of thought that have marked his career and serve as testimony to the

significance of his research The twenty four papers plus four introductory essays to the individual sections biographical sketch and main introduction contain recent research on subjects ranging from the Kleophrades Painter to the Black Sea Sicilian Coinage and archaeology in modern Rome

Mistophoroi ex iberias Raimon Graells i Fabregat, 2014-10-14 ITALIANO Le informazioni ricavate dalle fonti classiche presentano i mercenari iberici come personaggi secondari relegati ad alcune vicende siciliane e apparentemente senza particolari abilità al di fuori della forza guerriera Nessuno ne ricorda attività in altre regioni né il ritorno nella penisola iberica Ciononostante la ricerca ha riconosciuto loro un ruolo notevole in un primo momento fondamentale per l'acculturazione delle società iberiche ma successivamente marginale A partire da queste premesse il libro presenta un'analisi critica di una serie di testimonianze archeologiche di carattere militare nella penisola iberica e al di fuori di essa allo scopo di ridefinire la figura del mistophoros iberico Lo studio considera diversi oggetti dalla Corsica alla Grecia per avvicinarsi alle modalità di interazione del mercenario iberico e valutarne quindi il ritorno nella penisola iberica Infine sulla base di esempi concreti viene presentato l'impatto di questa esperienza mediterranea sulla trasformazione di alcune fra le loro armi
