

Sample Business Plan

Welcome to BizPlanBuilder®. Here is a sample of the complete business plan text used for the Angel/VC plan. (It's the most comprehensive version designed to pitch a new idea to the most sophisticated investors.)

As you'll see, there is more than enough to use. If the text/concept fits your business model, use it, if not, you can discard what you don't require.

The plan for the extraordinary business

JIAN's philosophy is to give you ideas and content from the best business plans cross-pollinated from every industry vs. lots of industry-specific examples that you must undo (unless you are starting an ordinary business...) Investors are rarely industry-specific, but they do understand business, profits, growth, value and return on investment. Speak their language correctly and you will get funded.

Variables like [Company], [Owner/Founder] are automatically replaced from the data file. [Other variables in brackets like this] include example text that give you ideas and that you will edit.

Although this is a protected .pdf of the text provided within BizPlanBuilder (you cannot copy any text or print it), you can read it now and edit it using the BizPlanBuilder application.

«» Expert comments throughout, in green, can be turned on/off with an icon in the BizPlanBuilder application – in this sample, they add about 40 pages – it's as if we're sitting next to you all the way. When you turn these off they disappear completely and the black text rolls up. They won't print.

At the end of this narrative sample, we include a sample of the PowerPoint "investor pitch" slideshow.

BizPlanBuilder also includes **54 supporting documents** important for completing the process of raising money – [you can see the list here](#).

Investors ask a lot of questions – They say they want a 2-page business plan, but I think you will agree that few people will write you a check without learning more... BizPlanBuilder has it.

How to Write a Business Plan in Ten Steps Paul Borosky Mba, 2019-08-17 As a doctoral candidate, professional business consultant, and business plan writer, I am often asked by aspiring and seasoned entrepreneurs alike: What is the first step for starting a business or expanding business operations? When I first started out as a business consultant, I would explain to my client their place in the entrepreneurial process. I then support this analysis with proven academic and practicing business theory along with recommending specific steps to take. After going through this process time and time again with entrepreneurs, it dawned on me that the first step I ALWAYS recommend is writing a business plan. Unfortunately, most entrepreneurs do not know how to write a professionally polished and structured business plan. Hell, most business owners don't know how to write any type of business plan at all. From this issue, I decided to write this book focused on a ten-step process to writing a well-structured business plan. The business plan writing steps include all aspects of the business plan writing process, beginning with developing the executive summary through constructing a

professional and polished funding request In each step I introduce you to a different business plan section I then explain in layman s terms what the section means offer a business plan sample and analyze the sample to help you understand the component The objective of this detailed process is to ensure full understanding of each section and segment with the goal of you being able to write a professional business plan for yourself by yourself IF you still need help writing your business plan at the end of the book I ALSO supply you with a professionally written sample business plan AND a business plan template for you to use In the end I am supremely confident that this book with the numerous tools and tips for business plan writing will help you develop your coveted business plan in a timely fashion *Business Plan Template and Example* Alex
