*Sampling, Aliasing, and Data Fidelity for Electronic Imaging Systems, Communications, and Data Acquisition* Gerald C. Holst, 1998     Vision Models and Applications to Image and Video Processing Christian J. van den Branden Lambrecht, 2013-03-14 I came to vision science trying to solve an engineering problem I was trying to come up with test and measurement methodologies for digital video systems One of the metrics I wanted to use was some measurement of image quality After some experiments and after an overview of the literature I had to realize that simple computational metrics such as the mean square error are not very effective for this purpose This led me to study notions of vision science and vision modeling As an engineer I found it fascinating Vision science uses computational tools and modeling techniques that are very similar to what we use in signal processing yet it brings you to a new domain that lies at the intersection of engineering biology and cognitive psychology Over the years vision science has made tremendous contributions to engineering and to the field of image processing in particular Such contributions include half toning matrices for the printing industry color correction for digital cameras quantization matrices for image coding As imaging devices are becoming commodities the impact of vision science is becoming even more significant This book is meant to appeal to an engineering audience It is an introduction to vision science and to the design and application of vision models in engineering To achieve this goal we have chosen to organize the book around the main components of vision models     **Remote Sensing Image Fusion** Luciano Alparone, Bruno Aiazzi, Stefano Baronti, Andrea Garzelli, 2015-03-06 A synthesis of more than ten years of experience Remote Sensing Image Fusion covers methods specifically designed for remote sensing imagery The authors supply a comprehensive classification system and rigorous mathematical description of advanced and state of the art methods for pansharpening of multispectral images fusion of hyperspectral and     *Optical Engineering* ,2004 Publishes papers reporting on research and development in optical science and engineering and the practical applications of known optical science engineering and technology     *Visual Information Processing* ,2000     **High-speed Imaging and Sequence Analysis II** A. within tumors challenging the traditional one size fits all approach The chapters examine how SVGs influence tumor biology and pave the way for novel diagnostic and therapeutic approaches Covering topics such as bioengineering gene expression and tumor initiation this book is an excellent resource for academicians researchers students oncologists medical professionals medical administrators scientists and more      *Book Review Index* ,2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index      *Scientific and Technical Aerospace Reports* ,1993      *Forthcoming Books* Rose Arny,1998-04      **Books in Print Supplement** ,2002      **International aerospace abstracts** ,1993      *The ARRL Handbook for the Radio Amateur* ,1987      **Electrical & Electronics Abstracts** ,1997      **Dissertation Abstracts International** ,1994
