Black Cultural Capital Vanessa Garry, E. Paulette Isaac-Savage, Sha-Lai L. Williams, 2023-09-01 In antebellum America Black children even those of tax paying Blacks in most states could not attend White public schools or in some states any schools Nevertheless with the signing of the Emancipation Proclamation in 1863 Blacks assumed they would receive all inalienable rights granted to them as American freedmen For most the right to a proper public education for their children was paramount Nevertheless White educators often neglected or poorly implemented Black schools especially secondary schools With their reluctance to provide schools for Blacks African American communities organized and petitioned school districts to develop Black schools on par with those for Whites In the book *Black Cultural Capital* Activism that Spurred African American High Schools authors describe the role of the Black community in the development of high schools Their narratives reveal White educators unwillingness to implement state laws requiring the education of all children Their lack of engagement galvanized Blacks to petition boards to adhere to the law Additionally they forced school districts to hire Black teachers and provide facilities for Black children equal to those of White children The fruits of their labor enabled Black children to attend suitable facilities as well as learn from Black teachers who attended outstanding White and Black colleges and universities Furthermore stories of the high schools illustrate how communities sprouted up around them during their heydays as well as for some their demise as laws and court decisions eradicated Jim Crow and enabled all Americans to

From Every Stormy Wind That Blows S. Jonathan Bass, 2024-02-21 Founded in 1841 in Marion Alabama Howard College provided a Christian liberal arts education for young men living along the old southwestern frontier The founders named the school after eighteenth century British reformer John Howard whose words and deeds inspired the type of enlightened moral agent and virtuous Christian citizen the institution hoped to produce In From Every Stormy Wind That Blows S Jonathan Bass provides a comprehensive history of Howard College which in 1965 changed its name to Samford University According to Bass the idea of Howard College emanated from its founders firm commitment to orthodox Protestantism the tenets of Scottish philosophy the British Enlightenment s emphasis on virtue and the moral reforms of the age From the Old South through the Civil War and Reconstruction to the New South Howard College adapted to new conditions while continuing to teach the necessary ingredients to transform young southern men into useful and enlightened Christian citizens Throughout its history Howard College faced challenges both within and without As with other institutions in the South slavery played a central role in its founding with most of the college s principal benefactors organizers and

board of trustees earning financial gains from enslaved labor The Civil War swept away the college's large endowment and growing student enrollment and the school never regained a solid financial footing during the subsequent decades barely surviving bankruptcy and public auction In 1887 with the continued decline of southern agriculture Howard College moved to a new campus on the outskirts of Birmingham where its president Rev Benjamin Franklin Riley a well known New South economic booster fought to restore the college's financial health Despite his best efforts Howard struggled economically until local bankers offered enough assistance to allow the institution to enter the twentieth century with a measure of financial stability The challenges and changes wrought by the years transformed Howard College irrevocably While the original idea of the school endured through its classical curriculum by the 1920s the school had all but lost its connections to John Howard and its founding principles From Every Stormy Wind That Blows is a fascinating look into this storied institution's history and Samford University's origins Insights into Senior Foreign Language Education Marek Derenowski, 2021-08-25 This book examines the unique characteristics of teaching foreign languages to senior learners It discusses the potential age related barriers and learning difficulties which may be encountered in senior foreign language education as well as solutions to overcome these challenges The author describes the processes of human aging from different perspectives and introduces the concept of lifelong learning The book proposes classroom practices activities and materials that may be adopted when working with senior learners which will prove useful to teachers and teacher trainers as well as to educational policymakers and planners Furthermore it describes potential modifications to educational programmes that may be introduced in order to eliminate affective barriers making the learning material relevant and motivating and encouraging the use of adult learning strategies *Jewish Roots in Southern Soil* Marcie Cohen Ferris, Mark I. of constant reactionary and racist violence Las Vegas emerged as the nation's most recognizable Sin City and San Francisco's tolerance of homosexuality made it the perceived capital of Gay America Stigma Cites shows how cultural and political trends influenced perceptions of disrepute in these cities and how in turn their status as sites of vice and violence influenced development decisions from Birmingham's efforts to shed its reputation as racist to San Francisco's transformation of its stigma into a point of pride to Las Vegas's use of gambling to promote tourism and economic growth The first work to investigate the important effects of stigmatized identities on urban places Foster's innovative study suggests that reputation no less than physical and economic forces explains how cities develop and why An absorbing work of history and urban sociology the book illuminates the significance of perceptions in shaping metropolitan history *Birmingham Landmarks* Victoria Myers, 2009-10-01 Though the landscape has certainly changed many of Birmingham's early landmark testaments to the steelworkers who built the city after the Civil War as well as those who have since prospered here remain In Birmingham Landmarks Alabama native Victoria Myers explores the Magic City's most prominent industrial and cultural features Step back in time to discover Rickwood Field one of America's oldest baseball parks and the Carver Theater the only venue that allowed African Americans to view first run movies before the civil rights movement Find out why Birmingham is known as the Pittsburgh of the South at Sloss Furnaces and learn the secrets of Vulcan who was commissioned for the 1904 World's Fair and has become one of the state's most recognizable monuments [The Price of Whiteness](#) Eric L.
