The Political Lives of Saints Angie Heo, 2018-11-08 Since the Arab Spring in 2011 and ISIS's rise in 2014 Egypt's Copts have attracted attention worldwide as the collateral damage of revolution and as victims of sectarian strife Countering the din of persecution rhetoric and Islamophobia *The Political Lives of Saints* journeys into the quieter corners of divine intercession to consider what martyrs' miracles and mysteries have to do with the routine challenges faced by Christians and Muslims living together under the modern nation state Drawing on years of extensive fieldwork Angie Heo argues for understanding popular saints as material media that organize social relations between Christians and Muslims in Egypt toward varying political ends With an ethnographer's eye for traces of antiquity she deciphers how long cherished imaginaries of holiness broker bonds of revolutionary sacrifice reconfigure national sites of sacred territory and pose sectarian threats to security and order A study of tradition and nationhood at their limits *The Political Lives of Saints* shows that Coptic Orthodoxy is a core domain of minoritarian regulation and authoritarian rule powerfully reversing the recurrent thesis of its impending extinction in the Arab Muslim world

The Dream in Islam Iain R. Edgar, 2011-05-01 The war in the Middle East is marked by a lack of cultural knowledge on the part of the western forces and this book deals with another widely ignored element of Islam the role of dreams in everyday life The practice of using night dreams to make important life decisions can be traced to Middle Eastern dream traditions and practices that preceded the emergence of Islam In this study the author explores some key aspects of Islamic dream theory and interpretation as well as the role and significance of night dreams for contemporary Muslims In his analysis of the Islamic debates surrounding the role of true dreams in historical and contemporary Islamic prophecy the author specifically addresses the significance of Al Qaeda and Taliban dream practices and ideology Dreams of heaven for example are often instrumental in determining Jihadist suicidal action and heavenly dreams are also evidenced within other contemporary human conflicts such as Israel Palestine and Kosovo Serbia By exploring patterns of dreams within this context a cross cultural psychological and experiential understanding of the role and significance of such contemporary critical political and personal imagery can be achieved
