Christopher Kleinhenz,2017 *The United States Catalog* ,1906 *Catalog of Copyright Entries* Library of Congress. Copyright Office,1959 *The Protean Virgil* Craig Kallendorf,2015 The Protean Virgil argues that when we try to understand how and why different readers have responded differently to the same text over time we should take into account the physical form in which they read the text as well as the text itself Using Virgil s poetry as a case study in book history the volume shows that a succession of material forms manuscript printed book illustrated edition and computer file undermines the drive toward textual and interpretive stability This stability is the traditional goal of classical scholarship which seeks to recover what Virgil wrote and how he intended it to be understood The manuscript form served to embed Virgil s poetry into Christian culture which attempted to anchor the content into a compatible theological truth Readers of early printed material proceeded differently breaking Virgil s text into memorable moral and stylistic fragments and collecting those fragments into commonplace books Furthermore early illustrated editions present a progression of re envisionings in which Virgil s poetry was situated within a succession of receiving cultures In each case however the material form helped to generate a method of reading Virgil which worked with this form but which failed to survive the transition to a new union of the textual and the physical This form induced instability reaches its climax with computerization which allows the reader new power to edit the text and to challenge the traditional association of Virgil s poetry with elite culture

The Man Who Broke Michelangelo’s Nose Felipe Pereda,2024-08-20 Renaissance sculptor Pietro Torrigiano has long held a place in the public imagination as the man who broke Michelangelo s nose Indeed he is known more for that story than for his impressive prowess as an artist This engagingly written and deeply researched study by Felipe Pereda a leading expert in the field teases apart legend and history and reconstructs Torrigiano s work as an artist Torrigiano was in fact one of the most fascinating characters of the sixteenth century After fighting in the Italian wars under Cesare Borgia the Florentine artist traveled across four countries working for such patrons as Margaret of Austria in the Netherlands and the Tudors in England Torrigiano later went to Spain where he died in prison accused of heresy by the Inquisition for breaking a sculpture of the Virgin and Child that he had made with his own hands In the course of his travels Torrigiano played a crucial role in the dissemination of the style and the techniques that he learned in Florence and he interacted with local artisanal traditions and craftsmen developing a singular terracotta modeling technique that is both a response to the authority of Michelangelo and a unique testimony to artists mobility in the period As Pereda shows Torrigiano s life and work constitute an ideal example to rethink the geography of Renaissance art challenging us to reconsider the model that still sees the Renaissance as expanding from an Italian center into the western periphery

“The” Academy ,1886 *The Grove Encyclopedia of Medieval Art and Architecture* Colum Hourihane,2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive

scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture

Dynamics of Morphological Productivity Francesco Gardani, 2013-05-30 In *Dynamics of Morphological Productivity* Francesco Gardani explores the evolution of the productivity of the noun inflectional classes of Latin and Old Italian covering a span of almost 2 000 years an absolute novelty for the theory of diachrony and for Latin and Italo Romance linguistics By providing an original set of criteria for measuring productivity based on the investigation of loanword integration conversions and class shift Gardani provides a substantial contribution to the theory of inflection as well as to the study of the morphological integration of loanwords The result is a wealth of empirical facts including data from the contact languages Etruscan Ancient Greek Germanic Arabic Byzantine Greek Old French and Provençal accompanied by brilliant and groundbreaking analyses
