some to remove the regional Southernness of Faulkner's tales Scholar John N Duvall uncovered edited typescripts that revealed the deletions and changes and allowed him to restore these six stories to their original Faulknerian glory

**Advent Review and Sabbath Herald**, 1854     The ius commune in England R. H. Wright, 2024-03-25 The wealth of excavation in Cyprus conducted across a period of nearly a century and a half has revealed much evidence of ancient building of all functional categories Whereas the earlier excavation concerned mainly funerary and religious contexts more recent work has endeavoured to clarify the whole range of building in Cyprus This picture extends over a vast range of time ca 10 000 years since Cyprus is probably the place where the earliest substantial building known the Neolithic round house style is better presented than anywhere else in the world Certainly it was immeasurably longer lived in Cyprus than in any other region of the ancient world This longevity of tradition became a proverbial aspect of the Cypriote character It is the aim of this book to set forth and document this building tradition which hitherto has received no detailed exposition After preliminary geographical and historical introductions the ancient building of Cyprus has been surveyed and analysed from the following view points its historical development its design its construction and its foreign connections Because of the extensive and detailed coverage every effort has been made to facilitate the use of the book equally as a treatise and as a work of instant reference e.g. by way of introductory preface list of general references running titles to pages and marginal rubrics The book is also virtually a double treatment of the subject

since a separate volume contains specially drawn illustrations arranged with captions on the facing pages which themselves constitute an incisive coverage of the subject matter The book will fill several gaps in the library shelves at one and the same time architectural history that presents all the archaeological evidence The print edition is available as a set of two volumes 9789004095472 Antiquarian Bookman ,1963 **Migrant Justice in the Age of Removal** Jacob P.

Chamberlain,2025-03-15 Migrant Justice in the Age of Removal details the story of Migrant Justice a migrant rights organization led by undocumented workers in a complicated and perhaps unexpected location Vermont United States This compelling story which includes U S Immigration and Customs Enforcement s use of a covert informant to infiltrate the group and deport key members of its community provides a detailed analysis of the state of immigration enforcement in the country today alongside an intimate portrait of successful modes of resistance against it Migrant Justice has gone on to improve rights for migrants in Vermont and across the country in these incredibly precarious times for migrant activists This book places Migrant Justice s activism within what is defined as the Age of Removal or the last three decades in which immigration enforcement in the United States has increasingly used enhanced enforcement mechanisms like the order of removal which aids in the confinement control and exploitation of migrants Migrant Justice s work also fits within a growing landscape of migrant rights movements that have arisen during this time and Jacob P Chamberlain provides a crucial snapshot of its work to better understand its successful forms of organizing in these contexts In this confluence of opposing forces we see egregious abuses against migrant actors but we also see new and progressively powerful forms of resistance that are posing a specific challenge to bordered and territorially based limitations on rights and democracy Migrant Justice s work expands rights access to people regardless of citizenship which essentially works toward a deterritorialization of rights access or the opening of sociopolitical belonging to new actors **Trauma-Informed Forensic Practice** Phil

Willmot, Lawrence Jones,2022-03-10 Trauma Informed Forensic Practice argues for placing trauma informed practice and thinking at the heart of forensic services It is written by forensic practitioners and service users from prison and forensic mental health youth justice and social care settings It provides a compassionate theoretical framework for understanding the links between trauma and offending It also gives practical guidance on working with issues that are particularly associated with a history of trauma in forensic settings such as self harm and substance use as well as on working with groups who are particularly vulnerable to trauma such as those with intellectual disabilities and military veterans Finally it considers organisational aspects of delivering trauma informed care not just for service users but for the staff who work in challenging and dangerous forensic environments The book is the first of its kind to address such a broad range of issues and settings It is aimed at forensic practitioners who wish to develop their own trauma informed practice or trauma responsive services It also provides an accessible introduction to trauma informed forensic practice for undergraduate and postgraduate students
