Art (New York, N.Y.),1986 This project is the first comprehensive study of a phenomenon that not only dominated the
American arts of the 1870s and 1880s but also helped set the course of such later developments in the United States as the
Arts and Crafts movement the indigenous interpretation of Art Nouveau and even the rise of modernism In fact the early
history of the Metropolitan its founding its sponsorship of a school of industrial design and its display of decorative works is
inextricably tied to the Aesthetic movement and its educational goals In Pursuit of Beauty Americans and the Aesthetic
Movement comprised some 175 objects including furniture metalwork stained glass ceramics textiles wallpaper painting and
sculpture Some of these had rarely been displayed others although familiar were being shown in new and even startling
contexts The exhibition and catalogue are arranged thematically to illustrate both the major styles of a visually rich
movement and the ideas that generated its diversity From publisher s description *Explorer's Guide Cape Cod, Martha's*
