*Some things that all sane people ought to know  
about sex nature and sex functioning;  
its place in the economy of life,  
its proper training and  
righteous exercise.*

A boy who **knows nothing** asks a boy who knows nothing. A girl who knows nothing asks a girl who knows nothing. From nothing nothing comes.

**Men** who have been such boys know nothing. **Women** who have been such girls know nothing. From nothing nothing comes. They have become familiar with **sex** circumstances. They are parents. They have done the best they knew how. But they **never learned sex**. They never realized its **fundamentals**.

The time has come for a book like this to command the attention of **medical men**, since now an awakened public demands from them, as the conservers of life and the directors of **physiological living**, explicit directions in everything pertaining to the physician's calling, not omitting the **intimate**, intricate, long taboo and disdained details of **sex life** and procreation.
