## **Sanskrit Of The Body:**

Sanskrit of the Body William Keckler, 2003-05-27 In this mesmerizing debut collection chosen by Mary Oliver for the National Poetry Series we witness to an expansive travelogue of the human spirit that moves thoughtfully through multiple ages cultures and beings Each poem explores in depth through pensive evocative images aspects of the human condition and their place within the rich continuum of animal existence W B Keckler presents these poems in a fugal form uniting the individual works in what he describes as a holistic formalism that reveals the poems powerful collective meaning Lives and afterlives are explored with equal care as Keckler attempts to restore the concept of spirit in a modern world often overwhelmed by materialistic priorities Readers will find these poems lively and pleasurable They are deft and rich in language grounded in the actual even the ordinary yet admitting into their brief structures a deeper existence of strangeness or mystery Which is to say that they have entered the true realm of the poetry In a literary age plagued with sameness this book is a bright and swirling original Mary Oliver

Sanskrit of the Body William Keckler, 2003 **Singing the Body of God** Steven Paul Hopkins, 2002-04-18 This is the first full length study of the devotional poetry and poetics of the fourteenth century poet philosopher Vedantadesika one of the most outstanding and influential figures in the Hindu tradition of Sri Vaishnavism the cult of Lord Vishnu Despite their intrinsic beauty and theological importance the poetry and philosophy of Vedantadesika have received very little scholarly attention But for the millions who belong to the Vaishnava tradition those poems are not just classical literature they are committed to memory recited sung and enacted in ritual both in India and throughout the Hindu diaspora Steven Hopkins here offers a comparative study of the Sanskrit Prakrit and Tamil poems composed by Vedantadesika in praise of important Vaishnava shrines and their icons poems that are considered to be the apogee of South Indian devotional literature

*Religion and the Body* Sarah Coakley, 1997 This book aims to highlight the distinctive and unfamiliar ways in which diverse religious traditions understand the body and also in doing this to raise to greater consciousness some of the assumptions and problems of contemporary attitudes to it It brings together essays by established experts in the history of religion the social sciences and philosophy Part I is devoted to an analysis of current secularized discourses on the body and to exposing both their anti religious and their covertly religious content Parts II and III provide essays on traditional Western and Eastern religious attitudes to the body Each contributor focuses on some especially characteristic devotional practices or relevant texts each carefully outlines the total context in which a distinctive religious attitude to bodiliness occurs The result is a rich source for comparative studies of the body and of its relation to society and to the divine

Müller, 1884      The Body Adorned Vidya Dehejia, 2009-02-26 The sensuous human form elegant and eye catching is the dominant feature of premodern Indian art From the powerful god Shiva greatest of all yogis and most beautiful of all beings to stone dancers twisting along temple walls the body in Indian art is always richly adorned Alankara ornament protects the body and makes it complete and attractive to be unornamented is to invite misfortune In *The Body Adorned* Vidya Dehejia who has dedicated her career to the study of Indian art draws on the literature of court poets the hymns of saints and acharyas and verses from inscriptions to illuminate premodern India's unique treatment of the sculpted and painted form She focuses on the coexistence of sacred and sensuous images within the common boundaries of Buddhist Jain and Hindu sacred spaces redefining terms like sacred and secular in relation to Indian architecture She also considers the paradox of passionate poetry in which saints praised the sheer bodily beauty of the divine form and nonsacred Rajput painted manuscripts which freely inserted gods into the earthly realm of the courts By juxtaposing visual and literary sources Dehejia demonstrates the harmony between the sacred and the profane in classical Indian culture Her synthesis of art literature and cultural materials not only generates an all inclusive picture of the period but also revolutionizes our understanding of the cultural ethos of premodern India      Searching for the Body Rae Erin Dachille, 2022-10-25 In the early fifteenth century two Tibetan monks debated how to transform the body ritually into a celestial palace inhabited by buddhas The discussion between Ngorchon K nga Zangpo and Kh drupj G lek Pelzangpo concerned the mechanics of this tantric ritual practice known as body mandala as well as the most reliable sources to follow in performing it As representatives of the Sakya and emerging Geluk traditions respectively these authors spoke for communities of Buddhist practitioners vying for patronage and prestige in an evolving Tibetan scholastic culture Their debate witnessed clashes between imagination and deception continuity and rupture and tradition and innovation *Searching for the Body* demonstrates the significance of the body mandala debate for understandings of Tibetan Buddhism as well as conversations on representation and embodiment occurring across the disciplines today Rae Erin Dachille explores how Ngorchon and Kh drup used citational practice as a tool for making meaning arguing that their texts reveal a deep connection between ritual mechanics and interpretive practice She contends that this debate addresses strikingly contemporary issues surrounding interpretation intertextuality creativity essentialism and naturalness Buddhist ideas about the construction of meaning and the body offer new ways of understanding representation which Dachille illuminates in an epilogue that considers Glenn Ligon's engagement with Robert Mapplethorpe's photography By placing Buddhist thought in dialogue with contemporary artistic practice and cultural critique *Searching for the Body* offers vital new perspectives on the transformative potential of representations in defining and transcending the human      **The Body Divine** Anne Hunt Overzee, 1992 The book makes a significant contribution to comparative theology and explores the wide ranging implications of a religious symbol whose potency is perennial cross cultural and of continuing contemporary importance      **Kundalini Empowering the Mind, Body, Heart and Soul** Debora
