The Santa Fe's Big Three Selwyn Kip Farrington, 1972 Gender Quotas in South America's Big Three Adriana Piatti-Crocker, Gregory D. Schmidt, Clara Araujo, 2017-05-31 Since the return of democracy to Latin America policies intended to promote the inclusion of women and other underrepresented groups have been increasingly adopted throughout the region Gender quotas have been one of the most popular and effective mechanisms employed in elections and other contexts in Latin America This volume begins with an introduction to gender quotas including discussion of the types and merits of gender quotas alternative approaches to the study of quotas and their interactions with different kinds of electoral systems Successive chapters examine the adoption of gender quotas and their impacts in the three largest South American countries by area Argentina Brazil and Peru at both national and subnational levels These chapters also focus on specific topics that stand out in the unique experiences of these countries substantive representation in the case of Argentina gender and campaign finance in the case of Brazil and regional differences in the impact of electoral rules in the case of Peru Through careful analysis this volume presents a nuanced picture of how different types of electoral systems may affect the election of women and the effectiveness of quotas Santa Fe Railway Steve Glischinski, 1997 *The Journal of the Senate During the ... tragedy of traffic violence has barely registered with the media and wider culture Disproportionately the victims are like Duarte Rodriguez immigrants the poor and people of color They have largely been blamed and forgotten In Right of Way journalist Angie Schmitt shows us that deaths like Duarte Rodriguez s are not unavoidable accidents They don t happen because of jaywalking or distracted walking They are predictable occurring in stark geographic patterns that tell a story about systemic inequality These deaths are the forgotten faces of an increasingly urgent public health crisis that we have the tools but not the will to solve Schmitt examines the possible causes of the increase in pedestrian deaths as well as programs and movements that are beginning to respond to the epidemic Her investigation unveils why pedestrians are dying and she demands action Right of Way is a call to reframe the problem acknowledge the role of racism and classism in the public response to these deaths and energize advocacy around road safety Ultimately Schmitt argues that we need improvements in infrastructure and changes to policy to save lives Right of Way unveils a crisis that is rooted in both inequality and the undeterred reign of the automobile in our cities It challenges us to imagine and demand safer and more equitable cities where no one is expendable **The Santa Fe Magazine** ,1932 The National Real Estate Journal ,1929
