No Match for Uncle Charlie Bernard Palfrey, 2009-04-18 Part of growing up often takes children into the fantasy world of make believe There is no story more fantastic than that of Uncle Charlie who left the planet Urteeze to reveal his tremendous powers in his dedication to the protection of a very special family who live in one of the many picturesque Welsh Valleys Yet there are times when it becomes difficult to separate fantasy from reality Perceived truth can be a matter of faith and belief The veracity of this story is for the reader to decide It involves the destiny of one family to include the experiences of three generations However in its authenticity the result of the battle with the evil Molach has implications that could have

eternal consequences for the whole of the planet Earth **LULAC** Benjamin Márquez,2014-10-14 The League of United Latin American Citizens LULAC is one of the best known and active national organizations that represent Mexican Americans and their political interests Since its founding in Corpus Christi Texas in 1929 it has served as a vehicle through which Mexican Americans can strive for equal rights and economic assimilation into Anglo American society This study is the first comprehensive political history of LULAC from its founding through the 1980s Márquez explores the group's evolution from an activist grassroots organization in the pre and post World War II periods to its current status as an institutionalized bureaucracy that relies heavily on outside funding to further its politically conservative goals His information is based in part on many primary source materials from the LULAC archives at the University of Texas at Austin the Houston Public Library and the University LULAC publications as well as interviews with present and past LULAC activists Márquez places this history within the larger theoretical framework of incentive theory to show how changing and sometimes declining membership rewards have influenced people's participation in LULAC and other interest groups over time Ironically as of 1988 LULAC could claim fewer than 5 000 dues paying members yet a dedicated and skillful leadership secured sufficient government and corporate monies to make LULAC one of the most visible and active groups in Mexican American politics Given the increasing number of interest groups and political action committees involved in national politics in the United States this case study of a political organization's evolution will be of interest to a wide audience in the political and social sciences as well as to students of Mexican American and ethnic studies **Wrestling's Greatest Moments** Mike

Rickard,2010-12-15 Brings readers the most memorable and controversial moments from the world of modern wrestling **Distant Publics** Jennifer Rice,2012-08-19 Urban sprawl is omnipresent in America and has left many citizens questioning their ability to stop it In Distant Publics Jenny Rice examines patterns of public discourse that have evolved in response to development in urban and suburban environments Centering her study on Austin Texas Rice finds a city that has simultaneously celebrated and despised development Rice outlines three distinct ways that the rhetoric of publics counteracts development through injury claims memory claims and equivalence claims In injury claims rhetors frame themselves as victims in a dispute Memory claims allow rhetors to anchor themselves to an older deliberative space rather than to a newly evolving one Equivalence claims see the benefits on both sides of an issue and here rhetors effectively become nonactors Rice provides case studies of development disputes that place the reader in the middle of real life controversies and evidence her theories of claims based public rhetorics She finds that these methods comprise the most common though not exclusive vernacular surrounding development and shows how each is often counterproductive to its own goals Rice further demonstrates that these claims create a particular role or public subjectivity grounded in one's own feelings which serves to distance publics from each other and the issues at hand Rice argues that rhetoricians have a duty to transform current patterns of public development discourse so that all individuals may engage in matters of crisis She

articulates its sustainability as both a goal and future disciplinary challenge of rhetorical studies and offers tools and methodologies toward that end
