Shropshire Railways:

The Tanat Valley Light Railway Peter Johnson, 2024-09-30 Situated in the Welsh borderland to the West of Oswestry the scenic Tanat Valley reached westwards into Wales its Llangynog terminus nestling where the road starts the climb over the Berwyn mountain range towards Bala It was a lightly populated area that sustained agriculture and some mineral extraction whose residents struggled to get their produce to market During the 19th Century there were several schemes for a railway that failed due their inability to raise sufficient capital The Tanat Valley Light Railway is therefore a true child of the 1896 Light Railways Act promoted by the Oswestry Urban District Council the following year to take advantage of the grant making facilities of that legislation Because it took so long to obtain powers and it was not opened until 1906 the Light Railway never really fulfilled its potential Operated initially by the Cambrian Railways it was not heavily worked although it benefited from pipe traffic generated by renewals of Liverpool Corporation's Vyrnwy reservoir pipeline Although closure came in stages during the 1950s and was deemed to be complete in 1960 a short section of track remains in situ at Porthywaen Author Peter Johnson has drawn on the material available at the National Archives at Kew and the Parliamentary Archives in the House of Lords as well as conducting extensive research in digitised newspapers to tell the Light Railway's story producing the first in depth account of its development operation and closure Peter Johnson is also the author of *The Shropshire Montgomeryshire Light Railway the rise and fall of a rural byway* published by Pen Sword Transport in 2024 The two railways were connected at Blodwel Junction and the surviving section of the Tanat Valley Light Railway thence to Porthywaen enabled stone traffic on the Shropshire Montgomeryshire's Nantmawr branch to continue until 1971

Shropshire Railways Geoff Cryer, 2014-03-31 An examination of four hundred years of railways in Shropshire from the primitive wagonways of the pre railway age to the county's current rail network and services Fully illustrated with almost two hundred monochrome and colour photos Shropshire Railways is an ideal resource for anyone with an interest in this county with its rich railway history and home to one of Britain's top heritage railways Including detailed route maps and a survey of timetables over the years the book covers the pre railway age and the coming of the main lines with the opening of the Shrewsbury and Chester railway in 1848 the grouping of the railway companies from 1923 the Great Western Railway GWR and London Midland and Scottish Railway LMS era in the county the British Railways period from 1948 1994 nationalization and modernization passenger and freight trains and locomotive sheds the minor lines the industrial railways and the heritage railways privatization and the current main line scene Illustrated with 205 colour and black white photographs and maps *Railway Times*, 1860 *Light Railways Act, 1896* Great Britain. Bradshaw's Railway Manual, Shareholders' Guide, and Official- Directory ..., 1858 *The World's First Railway System* Mark Casson, 2009-09-10 The British railway network was a monument to Victorian private enterprise Its masterpieces of civil engineering were emulated around the world But its performance was controversial praised for promoting a high

density of lines it was also criticised for wasteful duplication of routes This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done It reveals how weaknesses in regulation and defects in government policy resulted in enormous inefficiency in the Victorian system that Britain lives with today British railway companies developed into powerful regional monopolies which then contested each other's territories When denied access to existing lines in rival territories they built duplicate lines instead Plans for an integrated national system sponsored by William Gladstone were blocked by Members of Parliament because of a perceived conflict with the local interests they represented Each town wanted more railways than its neighbours and so too many lines were built The costs of these surplus lines led ultimately to higher fares and freight charges which impaired the performance of the economy The book will be the definitive source of reference for those interested in the economic history of the British railway system It makes use of a major new historical source deposited railway plans integrates transport and local history through its regional analysis of the railway system and provides a comprehensive classified bibliography
