Moral Theology Today Certitudes And Doubts:

Moral Theology Today Pope John XXIII Medical-Moral Research and Education Center,1984 **Catholic Moral Theology and Social Ethics** Christina Astorga,2013-12-01 Proposing a new method for moral theology Christina Astorga seeks to recast our understanding of the discipline by drawing from the faith vision of the entire theological enterprise including scripture dogmatic theology social ethics and spirituality Refined Consequentialism Patrick Andrew Tully,2006 Refined Consequentialism critically examines the moral vision offered by the late Richard A McCormick the premier American Catholic moral theologian of the post Vatican II era Taking a philosophical approach to a debate carried on primarily by moral theologians the author presents a forceful case that McCormick's brand of proportionalism belongs in the ranks of consequentialist moral theories In doing so the author stakes out a clear position on one side of a crucial debate that goes to the heart of the Catholic and Christian moral tradition This book may serve as a text in both undergraduate and graduate courses that deal with contemporary Catholic and secular moral thought A broader public one interested in the history of moral theology and in the ethical theoretical underpinnings of the current debates within the churches on euthanasia supporting pro choice politicians and removal of nutrition and hydration from gravely ill patients will also find this book of great interest Moral Demands and Personal Obligations Josef Fuchs,1993 In this collection of recent essays 1988-92 all but one previously unavailable in English noted theologian Josef Fuchs SJ examines key issues in normative morality Identifying two strains one based on natural law and a more situational one based on the Golden Rule he explores the need for plurality in both individual and societal ethics and the problem of universal versus only general validity Central ideas that Fuchs develops are the concept of innovative morality as the individual's responsible search for God's will in personal situations and the significance of the conscience in the face of official statements by the church's magisterium Among the topics he considers are marriage and sexuality the beginning and end of life and international solidarity and social justice

The International Trafficking of Human Organs Leonard Territo,Rande Matteson,2011-10-14 International illicit trade in human organs is on the increase fueled by growing demand and unscrupulous traffickers In order to truly understand the problem of organ trafficking an analysis should take into account the various perspectives that come into play in this multifaceted issue With contributions from international scholars and experts *The Essential Paul Ramsey* Paul Ramsey,1994-01-01 Paul Ramsey was one of the most important ethicists of the twentieth century From the publication of his classic *Basic Christian Ethics* in 1950 until his death in 1988 his writings decisively shaped moral discourse and reflection in the areas of theology law politics and medicine This collection of Ramsey's most important essays on Christian political and medical ethics displays the scope and depth of his vision highlighting both the character of his theological commitments and the continuing significance of his work for the pressing moral problems of our day Selections deal with such issues as race relations sexuality and marriage war the meaning of Christian love abortion and medical care for the sick and dying A

general introduction by William Werpehowski and Stephen D Crocco evaluates Ramsey's career and accomplishments and reviews contemporary criticism of his output and legacy Shorter introductions to each selection point out crucial themes and lines of development in Ramsey's thought

On Conscience Joseph Ratzinger, 2010-11-09 Prepared and co published by the National Catholic Bioethics Center in Philadelphia this book is a combination of two lengthy essays written by Cardinal Ratzinger and delivered in talks when he was head of the Congregation for the Doctrine of the Faith Both talks deal with the importance of conscience and its exercise in particular circumstances Ratzinger's reflections show that contemporary debates over the nature of conscience have deep historical and philosophical roots He says that a person is bound to act in accord with his conscience but he makes it clear that there must be reliable proven sources for the judgment of conscience in moral issues other than the subjective reflections of each individual The always unique and profound insights that the new Pope Benedict XVI brings to perennial problems reminds the reader of his strong warning before the recent Papal conclave of the great dangers today of the dictatorship of relativism

Humanae Vitae, a Generation Later Janet E Smith, 1991 Janet E Smith presents a comprehensive review of this issue from a philosophical and theological perspective Tracing the emergence of the debate from the mid 1960s and reviewing the documents from the Special Papal Commission established to advise Pope Paul VI Smith also examines the Catholic Church's position on marriage which provides context for its condemnation of contraception

Ethics: The Basics, 2nd Edition John Mizzoni, 2017-03-27 Updated and revised Ethics The Basics Second Edition introduces students to fundamental ethical concepts principles theories and traditions while providing them with the conceptual tools necessary to think critically about ethical issues Introduces students to core philosophical problems in ethics in a uniquely reader friendly manner Lays out clearly and simply a rich collection of ethical concepts principles theories and traditions that are prevalent in today's society Considers western and non western viewpoints and religious interpretations of ethical principles Offers a framework for students to think about and navigate through an array of philosophical questions about ethics

Persons and Their Bodies: Rights, Responsibilities, Relationships Mark J. Cherry, 2006-04-11 Debate regarding organ sales is largely innocent of the history of thought on the matter This volume seeks to remedy this shortcoming Positions for or against a market in human organs are nested within moral intuitions ontological or political theoretical premises or understandings of special moral concerns such as permissible uses of the body which have a long history of analysis The essays compass the views of Plato Aristotle Aquinas Locke Kant Hegel Mill and Christianity as well as particular methodological approaches such as the phenomenology of the body natural law theory legal theory and libertarian critique of legal theory These discussions cluster a number of conceptually independent philosophical concerns

- 1 What is the appropriate understanding of the relationship between persons and their bodies
- 2 What does it mean to own an organ
- 3 Do governments have moral authority to regulate how persons use their own body parts
- 4 What are the costs and benefits of a market in human organs

Such questions are related by an urgent public

health challenge the considerable disparity between the number of patients who could significantly benefit from organ transplantation and the number of human organs available for transplantation This volume explores the theoretical normative and historical foundations for alternative policies for procurement and transplantation of human organs **The Promise of Lutheran Ethics** Karen L. Bloomquist, John R. Stumme, 1998-08-01 Here ten Lutheran theologians explore Lutheran emphases themes and approaches to offer their account of Christian ethics as a way of life in today's world Writing in dialogue they raise foundational concerns of biblical and theological sources and norms of Christian freedom and responsibility of call and social witness of justice and formation in prayer Then in a lively Table Talk the participants discuss and debate the tradition's insights and oversights and show how it might illumine today's burning ethical issues such as homosexuality **Changing Unjust Laws Justly** Colin Harte, 2005-06 Changing Unjust Laws Justly is the first book to address systematically the practical legal and ethical problems that are encountered in well intentioned attempts to restrict abortion It will be of considerable interest not only to political legal and moral philosophers but also to lawmakers and the pro life movement generally **Divorce & Second Marriage** Kevin T. Kelly, 1997 A substantial challenge facing the Church today is to help young married couples grow in the attitudes and skills needed to take seriously the indissolubility of their marriage In a sense Kelly contends young couples must begin to realize that they have to create the indissolubility of their own marriage if it is to exist Kelly also suggests that the Church should develop an effective theology of pastoral care for those who have been through the trauma of marriage breakdown While remarriage is not a panacea for everyone wounded in this way for some it brings real healing and new life This new edition contains a new introduction and a substantial new Appendix containing a rich collection of articles and book extracts related to divorce and remarriage in the Church A useful and informative resource for those who minister to the married divorced and remarried within the faith community **Why Humanae Vitae Was Right** Janet Smith, 2014-11-01 For the 25th anniversary year of the historic document Humanae Vitae 1968 Janet Smith has gathered together twenty one outstanding essays and articles by well respected thinkers to provide the demonstration that Pope Paul VI was not simply correct but prophetic While this document is still widely neglected and misunderstood the Church continues to proclaim that contraception is a moral evil and that the view of man sexuality and marriage that leads to the use of the Pill is not one that is compatible with human dignity sexual responsibility and spousal love Many are unaware that there have been energetic and persuasive worth defenses of this teaching The general reader as well as the ethicist and moral theologian will find much here to stimulate his thinking on this issue Contributors include William May Paul Quay Elizabeth Anscombe Dietrich von Hildebrand Carlo Caffara Cormac Burke Ralph McInerny John Kippley John Finnis and Janet Smith **The Fundamentals of Bioethics: Legal Perspectives and Ethical Approaches** Scaria Kanniyakonil, 2007 *Catholic Sexual Ethics* William May, Ronald Lawler, Joseph Boyle, 2011-08-25 The authoritative work on the Church's teaching on sexual morality has been thoroughly updated to address dimensions of this complex topic

that have emerged in the late 20th and early 21st centuries Since publication of the 2nd edition of Catholic Sexual Ethics the philosophical landscape of human sexuality has dramatically changed The rise of such concerns as moral relativism the drive for same sex unions and a drastic redefinition of marriage and family have underscored the need for an unambiguous up to date understanding of Catholic sexual teaching Features Summary of Catholic teaching on sexuality from biblical times to our own Presentation of principal elements of the teaching of Pope Benedict XVI on marriage in the early years of his pontificate Discussion of the Congregation for the Doctrine of the Faith's 2003 Considerations Regarding Proposals to Give Legal Recognition to Unions Between Homosexual Persons Integration of more recent materials that clarify issues into the existing framework of the book Whether you are involved in ministry education or catechesis you will benefit from having this essential resource near at hand *Josef Fuchs on Natural Law* Mark Graham, 2002-10-25 Appointed by Pope John XXIII to the Pontifical Commission on Population Family and Birth Fuchs ultimately found himself disappointed in his three years of service and spent the next thirty years exploring a broad array of issues pivotal to a reconstruction of Roman Catholic natural law theory This is the first full length analysis of Fuchs's efforts Beginning historically by looking at Fuchs's writings and beliefs before the Pontifical Commission appointment including his defense of natural law during the situation ethics debates of the 50s and 60s the concept of personal salvation and the status of nature and human nature Graham moves to the intellectual conversion that inspired Fuchs to reconsider his concepts following the commission appointment From there Graham engages in a sustained critique of Fuchs's natural theory addressing both the strengths and weaknesses to be found there and suggest possible avenues of development that would make a positive contribution to the ongoing quest to rehabilitate the Roman Catholic natural law theory that continues to dominate the landscape of moral theology today

Smith, 2012-01-01 Modern Moral Problems addresses moral quandaries that can beguile and confuse faithful Catholics Written in a question and answer format the book covers questions regarding sexuality medical ethics business practices civic responsibilities and the sacramental life of the Church The extraordinary assortment of issues forming a single organized collection is a valuable reference for anyone seeking clear and concise answers to tough moral questions Written in a conversational tone often spiced with humor this work by a highly respected moral theologian will be read with fascination for its clarity of argument and fundamental good sense Originally published as a monthly question and answer column in a magazine for priests these selections by Msgr William B Smith retain a striking current topicality Msgr Smith often tackled matters of controversy in the Catholic Church ones which continue to draw conflicting opinions Interesting informative and eminently practical this book conveys an overall impression that sound thinking about morality is rooted in a tradition within the Catholic Church even when the answers to particular moral questions cannot be found in catechisms or Vatican documents Msgr Smith offers a clear headed approach to the

quandaries of our time precisely because of his training in traditional moral principles and his fidelity to the Catholic magisterium This book should be in the possession of all seminarians and priests who are bound to confront moral matters that are not so easily decided at first glance But lay people too will find here rich responses to the challenging and sometimes unresolved moral questions they encounter in their own lives *Christian Theology and Medical Ethics* James B. Tubbs Jr., 2013-03-09 Contemporary discourse in biomedical ethics has been greatly shaped sustained and enriched through the insights and perspectives offered by its theologian contributors This volume examines the work of four Christian theologians who have significantly influenced the field of bioethics in the U S Richard McCormick SJ Paul Ramsey Stanley Hauerwas and James M Gustafson Each theorist s writings are explored in turn in order to elucidate compare and contrast their foundational theological premises their particular approaches to moral reasoning and their considered responses to selected medico moral issues The final chapter reflects some of the author s own critical responses in dialogue with the study s four subjects and offers general suggestions about the moral perspective afforded by Christian theology This volume should be of interest both to those seeking a fuller understanding of contemporary discussions in bioethics and to those studying Christian ethics in the modern era
