Madden, 2023-10-31 *Thinking About Thinking* Mind and Meaning in the Era of Techno Nihilism addresses our existential crisis by reminding us of the conditions for meaning that have been obscured by the modern technological mentality Madden weaves together disparate insights from Wittgenstein Hegel Aristotle Heidegger Merleau Ponty Nietzsche Sophocles and others in an attempt to account for our mindedness in terms of its inextricable connection to a world capable of inspiring our care The mind is not a discrete entity locked behind the skull or withdrawn into a ghostly realm but a participation in an inheritance biological and cultural held in common with other participants and taking responsibility for that world is crucial for the meaning The ever increasing technological mediation of our lives undermines this worldliness We are subsequently losing our minds and as our mindedness fades so goes our sense of dignity and value Madden makes this

Heroic Mockery George deForest Lord,1977 This study demonstrates that the comic mode in the epic and in some outstanding plays and novels is inseparable from their high seriousness Dr Lord takes into account the fact that in many of the greatest works in Western literature the heroic mockery of serious themes transcends the distinction between the tragic and the comic and are in fact related to each other **William of Sherwood's Treatise on Syncategorematic Words** ,1968-06-01 William of Sherwood s *Treatise on Syncategorematic Words* was first published in 1968 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This is the first translation of an important medieval work in philosophy an advanced treatise by the thirteenth century English logician William of Sherwood The treatise draws on doctrines developed in Sherwood s *Introduction to Logic* which has also been translated by Professor Kretzmann William of Sherwood is an important figure in the development of the logica moderna the distinctively medieval contribution to logic and semantics As Professor Kretzmann explains the logica moderna may have originally aimed only at providing ad hoc rules regarding inferences that involve problematic locutions of ordinary discourse But its principal aim soon became the development of a more or less general account of the ways in which words are used to stand for things or to affect the meanings of other words In Sherwood s time the logica moderna seems to have been thought of as having two branches an account of the properties

of terms and an account of the signification and function of syncategorematic words Sherwood deals with the first branch in his Introduction to Logic and with the second branch in the treatise presented here The translation is copiously annotated to supply the kind of explanatory material a twentieth century reader may need for an understanding of a thirteenth century discussion As Professor Kretzmann points out many of the problems dealt with in this treatise closely resemble the problems of twentieth century philosophical logic and philosophy of language

Adapting King Lear for the Stage Lynne Bradley, 2016-03-16 Questioning whether the impulse to adapt Shakespeare has changed over time Lynne Bradley argues for restoring a sense of historicity to the study of adaptation Bradley compares Nahum Tate's History of King Lear 1681 adaptations by David Garrick in the mid eighteenth century and nineteenth century Shakespeare burlesques to twentieth century theatrical rewritings of King Lear and suggests latter day adaptations should be viewed as a unique genre that allows playwrights to express modern subject positions with regard to their literary heritage while also participating in broader debates about art and society In identifying and relocating different adaptive gestures within this historical framework Bradley explores the link between the critical and the creative in the history of Shakespearean adaptation Focusing on works such as Gordon Bottomley's King Lear's Wife 1913 Edward Bond's Lear 1971 Howard Barker's Seven Leirs 1989 and the Women's Theatre Group's Lear's Daughters 1987 Bradley theorizes that modern rewritings of Shakespeare constitute a new type of textual interaction based on a simultaneous double gesture of collaboration and rejection She suggests that this new interaction provides constituent groups such as the feminist collective who wrote Lear's Daughters a strategy to acknowledge their debt to Shakespeare while writing against the traditional and negative representations of femininity they see reflected in his plays
