Pathways To The Planets Memoirs Of An Astrophysic:

PATHWAYS TO THE PLANETS John R. Strand, 2004-11-05 When my generation grew up we were never limited by the sky or the stars Man had already begun to probe its mysteries Our mothers and fathers before us had created methods maps and ships that would forever change their planet and the way their children would view the world So when our small new media company was offered the opportunity to work with John Strand and Pathways to the Planets we all knew that it was a chance of a lifetime to work with someone who was instrumental in helping man reach that small rock in space called the moon We live in the new world created by those brave pioneers and today are posed new frontiers nano science cyberspace molecular medicine etc All afforded to us humans at least in part by the extraordinary people portrayed in this book Pathways to the Planets is a unique insight into the lives of those individuals as told through the memoirs of Astrophysicist John Strand I personally found this book to be an affirmation for anyone who seeks adventure and welcomes challenge and certainly a must read for those who were there on earth during that exciting time What a journey producing this book has been For more information on John Strand Pathways to the Planets or the early days of the space program go to <http://www.pathwaystotheplanets.com> by Perry Berryhill President Panacore Corporation [The New Student's Reference Work for Teachers, Students, and Families](#) Chandler Belden Beach, 1909 **Forthcoming Books** Rose Army, 1997-04 [The Power of Reason](#) 1988 Lyndon H. LaRouche, Jr., 2015-09-02 From the Author's Foreword 1987 During the course of the past nearly twenty years I have become perhaps the most controversial among the influential international figures of this decade Unlike all of the other leading candidates for the U S presidency since 1945 I am an influential original thinker This is not to suggest that such prospective candidates as Vice President George Bush and Senator Robert Dole are lacking in intelligence or executive abilities For the past forty years the successful candidates for the presidency have been persons who in the customary manner of speaking advanced their political career up to that point by doing the right thing at the right time saying and doing nothing which will make enemies among important factions of the establishment Bush and Dole for example have adapted to those rules for success under ordinary conditions However this is a crisis in such crises what is customarily successful becomes a failure Our nation has once again entered into a time when only the unusual succeeds and the usual fails We have entered into a period of crisis in which only original thinkers are qualified to lead On paper our nation is a constitutional democratic republic In reality it has not been such a republic for approximately one hundred years certainly not since the sweeping changes in our form of government introduced during the presidency of Theodore Roosevelt Most of the time the policies of government the selection of most leading candidates for federal office and the majority of popular opinion have been regulated by behind the scenes committees representing what is called the establishment Under this arrangement candidates for leading office present themselves like job applicants for corporate executive appointments to this establishment The establishment either gives such candidates permission to campaign or not at this time If given such

permission the candidate so authorized seeks backing for his or her election by the establishment by proving to the establishment that he or she can sell the policy which the establishment has decided to push at that time I began to understand this in 1947 I wished General Dwight Eisenhower to campaign for the 1948 Democratic nomination The general replied to me stating agreement with my policy arguments in support of his candidacy but informing me his candidacy was not appropriate at that time There is no doubt that Eisenhower could have won the 1948 nomination and election by a landslide had the establishment permitted him to campaign
