Pictures Without Borders Bosnia Revisited:

Pictures Without Borders Steve Horn, 2005 Steve Horn first visited the Balkans in 1970 in 2003 he returned retracing his tracks revisiting the villages and towns of his previous trip and tracking down the people whom he had met 30 years previously His return was to a country and a people scarred by 10 years of war yet he found many reasons for optimism friendships were rekindled and new relationships forged This is a poignant story and includes several personal contributions from those he met during his travels Exhibition tour to coincide with publication *Peace, Complexity, Visuality* Rasmus Bellmer, Frank Möller, 2023-08-12 This book argues that we can capitalize on the tolerance of ambiguity enhancing potentialities inherent in visual images their non coherence and thus increase our capability of tolerating ambiguities Studying international relations equals studying ambiguity The international system is complex and where there is complexity there is also ambiguity Crucially in a world saturated not only with ambiguities but also with visual images it is mandatory to think ambiguity and visuality together The authors analyze the constructive and peaceful potentialities of ambiguities through an exploration of journalistic imagery in the context of post war Bosnia and post siege Sarajevo The book is a theoretically sophisticated yet accessible and politically relevant exercise in interdisciplinary thinking uniquely combining literature on complexity ambiguity and visuality thus offering important readings for international relations peace and conflict research and security studies

The History of Bosnia Marko Attila Hoare, 2007 The first comprehensive study of national identity in Bosnia Herzegovina *Bibliography of Sources on the Region of Former Yugoslavia Volume III* Rusko Matulić, 1998 *Amnesty International*, 2004 *Evoking Genocide* Adam Jones, 2009 *Evoking Genocide* compiles more than sixty short essays written by leading scholars and activists in the field of genocide studies These authors pay eloquent tribute to the works of art and media that influenced their engagement with genocide and crimes against humanity The subjects include books and stories films songs drawings documents monuments sculptures personal testimonies and even a Lego set In an accessible and often deeply personal way contributors explore their own relationships with the works in question Edited by Adam Jones recently selected as one of fifty key thinkers in Holocaust and genocide studies *Evoking Genocide* makes an important contribution to the study of the art and culture of mass atrocity

Women in Television News Revisited Judith Marlane, 1999 Women in television news have made great strides in the past twenty five years No longer limited to being the token pretty face on the nightly newscast women have taken their places as working journalists in newsrooms on the campaign trail in war zones and in the highest echelons of network news management Barbara Walters and Connie Chung have even occupied the coveted network anchor's chair if only briefly In this book 70 of the foremost women in television news reflect on their professional successes the personal and professional sacrifices that often bought those successes and the barriers that still confront women in the news business Weaving their interviews into a compelling text Judith Marlane covers a wide range of issues including looks versus ability

and experience sexual harassment the resistance to women news anchors the difficulties of balancing work and family life women's and men's salaries and the willingness of women to help other women in the business This book builds from Marlane's 1976 work *Women in Television News Interviews* with many of the same women highlight the gains that women have made in broadcast journalism Simultaneously Marlane has expanded her range of informants to include fifteen of America's most famous male anchors and correspondents to gather their assessments of the role of women in broadcasting today

The End of Ottoman Rule in Bosnia Hannes Grandits, 2021-12-30 This book focuses on the end of four centuries of Ottoman rule in Bosnia and Herzegovina in the 1870s After an introduction to the region and the political zeitgeist of the late 1860s and early 1870s it examines in detail the dramatic years beginning in the summer of 1875 when the outbreak of violent unrest in the eastern Herzegovinian region bordering Montenegro led to a massive refugee catastrophe The study traces the surprising further political and social dynamics to the summer and fall of 1878 when a Habsburg army finally invaded the Bosnian Vilayet and took control of the province but only after months of fighting against massive local resistance throughout the province This book cannot be viewed in isolation from larger political dynamics which are also constantly present in this study as they unfolded However as this book attempts to show it is hardly possible to understand the often contradictory effects of these larger political dynamics without delving deeper into the complex local rationalities and constraints on the action of the actors involved in them *The End of Ottoman Rule in Bosnia* will appeal to students teachers and researchers in late Ottoman and Bosnian history

Balkan Fighters in the Syrian War Tanja Dramac Jiries, 2021-09-14 This book analyses the process of the recruitment of foreign fighters from the Western Balkans specifically Bosnia and Herzegovina and Kosovo to Syria and Iraq from 2012 to 2015 Utilizing in depth semi structured interviews with foreign fighters and their families as well as a number of relevant stakeholders it answers the question of what were the processes and circumstances leading up to the departure of foreign fighters from Bosnia and Herzegovina and Kosovo and what informed their agency The author draws on the theories of social movement approaches more specifically contentious politics literature and utilizes the specific concepts of triggering mechanisms which refer to the enabling circumstances that make the radicalization and departure possible and pleasure in agency to elaborate on individual motivation The book also shows how a wider state fragility within the context of the post Yugoslav wars and the transitional period that never ended aided radicalization and how an incomplete process of post war transition can fuel the process of political and religious radicalization creating a wider enabling web for recruitment It will be of interest to students and scholars of Southeast European politics and foreign policy post war democratic transition security policy and radicalization more broadly

Global Legal Pluralism Paul Schiff Berman, 2012-02-27 We live in a world of legal pluralism where a single act or actor is potentially regulated by multiple legal or quasi legal regimes imposed by state substate transnational supranational and nonstate communities Navigating these spheres of complex overlapping legal

authority is confusing and we cannot expect territorial borders to solve all these problems At the same time those hoping to create one universal set of legal rules are also likely to be disappointed by the sheer variety of human communities and interests Instead we need an alternative jurisprudence one that seeks to create or preserve spaces for productive interaction among multiple overlapping legal systems by developing procedural mechanisms institutions and practices that aim to manage without eliminating the legal pluralism we see around us Global Legal Pluralism provides a broad synthesis across a variety of legal doctrines and academic disciplines and offers a novel conceptualization of law and globalization **Violence**

Expressed Maria Six-Hohenbalken, Nerina Weiss, 2016-02-11 Violence Expressed explores the diverse expressions and manifestations through which the meaning of violent experiences and events is re produced As language alone does not always suffice for the description of violence this book focuses not only on the verbal and discursive expressions of violence but also on the performative acts material culture and the spaces that constitute these expressions Such an approach provides a method of more comprehensively registering and understanding the manifestations and long lasting effects of violence whilst exploring violence both as an extreme subjective experience and the ultimate truth thus overcoming a common epistemological antagonism in researching violence Offering a variety of analytical approaches and methodological perspectives Violence Expressed presents the latest empirical studies ranging from the everyday violence experienced by children stories of rape social memory and the discrepancy between private and public narratives to rumours and silences or the iconography of violence A compelling contribution to ongoing discussions on anthropological writing this book will be of interest to anthropologists and social scientists working on violence gender collective representations and memory **The SAGE Handbook of Qualitative Research** Norman K. Denzin, Yvonna S. Lincoln, Michael D. Giardina, Gaile S.

Cannella, 2023-06-19 This new edition of the SAGE Handbook of Qualitative Research represents the sixth generation of the ongoing conversation about the discipline practice and conduct of qualitative inquiry As with earlier editions the Sixth Edition is virtually a new volume with 27 of the 34 chapters representing new topics or approaches not seen in the previous edition To mark the Handbook's 30 year history we are pleased to offer a bonus PART VI in the eBook versions of the Sixth Edition this additional section brings together and reprints ten of the most famous or game changing contributions from the previous five editions **War and Cultural Heritage** Marie Louise Stig Sørensen, Dacia Viejo-Rose, 2015-03-30 The

reconstruction of society after conflict is complex and multifaceted This book investigates this theme as it relates to cultural heritage through a number of case studies relating to European wars since 1864 The case studies show in detail how buildings landscapes and monuments become important agents in post conflict reconstruction as well as how their meanings change and how they become sites of competition over historical narratives and claims Looking at iconic and lesser known sites this book connects broad theoretical discussions of reconstruction and memorialisation to specific physical places and in the process it traces shifts in their meanings over time This book identifies common threads and investigates their wider

implications It explores the relationship between cultural heritage and international conflict paying close attention to the long aftermaths of acts of destruction and reconstruction and making important contributions through the use of new empirical evidence and critical theory *Remembering Utopia* Breda Luthar, Maruša Pušnik, 2010 The history of socialism lacks close accounts of the texture of life in the margins of society which include narratives of the feelings experiences and practices of ordinary people This book provides them and undermines persisting interpretations of real life under socialism which rely on macro studies of social structures and on the political and institutional histories of socialism As such the book is also an attempt to de Westernize the discourse on Central Eastern Europe as Europe s periphert or its Orient The culture of memory is evoked either through oral traditions or textual analyses of records of the public discourse Both facets contribute to a cultural history of the era of socialism in Yugoslavia between 1945 and 1980 Tito s death from back cover

Plea Bargaining Across Borders Jenia I. Turner, 2009 Traditions of plea bargaining the United States Informal bargaining Germany Introducing plea bargaining as part of comprehensive legal reform Russia and Bulgaria Alternatives to plea bargaining China and Japan Plea bargaining at international criminal courts *Bulletin of the Atomic Scientists* ,1993-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *The Nation* ,1882 **The Athenaeum** ,1876
