Anxious Decades Michael E. Parrish, 1994 Impressively detailed An authoritative and epic overview Publishers Weekly

Coming of Age in Films Mario Garrett, 2019-02-14 The story of films is the story of human development From the very first story that defined the birth of our civilization the Sumerian Epic of Gilgamesh a story of immortality aging and death comes a tale of why we age We are a species of storytellers The stories we tell to each other define who we are However since we are living in a world marked by age apartheid our interaction with people across different generations is becoming more limited As a result the information we gain about older people comes mostly from secondary sources For the general public films remain the most accessible form of information regarding getting older From the early exposure of cartoons to more elaborate dramas our knowledge of what it means to become old relies on our exposure to films This volume provides insight into how accurate these representations are in line with current knowledge that we have about aging and older adults Arguing that films present a simplified view of aging this analysis relies on scientific evidence to explore why and how such stereotypes affect us Stereotypes have the ability of being internalized and becoming prescriptive of our behavior Numerous studies have attempted different ways of understanding the impact films have on aging Theories as seemingly disparate as feminism and disability have contributed to our understanding of how stereotypes influence our aging process This text builds upon this knowledge and provides new insights by applying current gerontological knowledge the science of aging to unpack and analyze the images of aging that films are providing By readdressing this focus on gerontological theories as diverse as biology and psychology the book readdresses an overlooked approach *Women vs Hollywood* Helen

O'Hara, 2021-02-18 A fascinating polemic Sunday Times A powerful sobering and vital work The Mail on Sunday A page turning read peppered with humour Sight Sound A must read Edgar Wright A call to arms from Empire magazine s geek queen Helen O'Hara that explores women s roles both in front of and behind the camera since the birth of Hollywood how those roles are reflected within wider society and what we can do to level the playing field Hollywood was born just over a century ago at a time of huge forward motion for women s rights With no rules in place to stop them there were women who forged ahead in many areas of filmmaking Yet despite the work of early pioneers like Dorothy Arzner Mabel Normand Mary Pickford and Alice Guy Blach it soon came to embody the same old sexist standards Women found themselves fighting a system that fed on their talent creativity and beauty but refused to pay them the same respect as their male contemporaries until now The tide has finally begun to turn A new generation of women both in front of and behind the camera are making waves in the industry and are now shaping some of the biggest films to hit our screens In Women vs Hollywood The Fall and Rise of Women in Film film critic Helen O'Hara takes a closer look at the pioneering and talented women of Hollywood and their work in film since Hollywood began And in understanding how women were largely written out of Hollywood s own origin story and how the films we watch are put together we can finally see how to put an end to a picture that is so deeply unequal and discover a multitude of stories out there just waiting to be told **Feminist Phoenix** Jerry

Rodnitzky, 1999-07-30 The rise and fall of feminist counterculture is traced through feminism s liberation of popular media such as music cinema and television and provides portraits of personalities as countercultural models In addition the decline of feminism after 1980 is explored The book begins by suggesting relevant countercultural problems and failures throughout American history to provide a broad historical perspective It also describes how the New Left countercultural stress influenced the women s liberation movement Individual chapters focus on how feminists used music as a counterculture and how they attempted to liberate media such as cinema television and advertising Cultural portraits of Janis Joplin Joan Baez and Gloria Steinem suggest how individual women can be effective countercultural models The book examines the decline of feminism since 1980 and links that decline to the fall of feminist counterculture Feminists of the 1960s seemed to be repeating the history of the 1920s when feminists gained the vote but then lost the next generation Contemporary feminists made many economic and political gains but again lost the next generation of women Despite this loss the book concentrates primarily on the positive and predicts that countercultural feminism will rise phoenix like into a new future feminist era

In a Lonely Street Frank Krutnik, 2006-10-19 Taking issue with many orthodox views of Film Noir Frank Krutnik argues for a reorientation of this compulsively engaging area of Hollywood cultural production Krutnik recasts the films within a generic framework and draws on recent historical and theoretical research to examine both the diversity of film noir and its significance within American popular culture of the 1940s He considers classical Hollywood cinema debates on genre and the history of the emergence of character in film noir focusing on the hard boiled crime fiction of Dashiell Hammett Raymond

Chandler and James M Cain as well as the popularisation of Freudian psychoanalysis and the social and cultural upheavals of the 1940s. The core of this book however concerns the complex representation of masculinity in the noir tough thriller and where and how gender interlocks with questions of genre. Analysing in detail major thrillers like *The Maltese Falcon*, *Double Indemnity*, *Out of the Past* and *The Killers* alongside lesser known but nonetheless crucial films as *Stranger on the Third Floor*, *Pitfall* and *Dead Reckoning*, Krutnik has produced a provocative and highly readable study of one of Hollywood's most perennially fascinating groups of films.

Defining Women Julie D'Acci, 2000-11-09

Defining Women explores the social and cultural construction of gender and the meanings of woman, women and femininity as they were negotiated in the pioneering television series *Cagney and Lacey* starring two women as New York City police detectives. Julie D'Acci illuminates the tensions between the television industry, the series production team, the mainstream and feminist press, various interest groups and television viewers over competing notions of what women could or could not be, not only on television but in society at large. *Cagney and Lacey*, which aired from 1981 to 1988, was widely recognized as an innovative treatment of working women and developed a large and loyal following. While researching this book, D'Acci had unprecedented access to the set, to production meetings and to the complete production files, including correspondence from network executives, publicity firms and thousands of viewers. She traces the often heated debates surrounding the development of women characters and the representation of feminism on prime time television, shows how the series was reconfigured as a woman's program and investigates questions of female spectatorship and feminist readings. Although she focuses on *Cagney and Lacey*, D'Acci discusses many other examples from the history of American television.
