Near-Death Experience in Indigenous Religions Gregory Shushan, 2018-07-03

Near death experiences are known around the world and throughout human history They are sometimes reported by individuals who have revived from a period of clinical death or near death and they typically feature sensations of leaving the body entering and emerging from darkness meeting deceased friends and relatives encountering beings of light judgment of one's earthly life feelings of oneness and reaching barriers only to return to the body Those who have NDEs almost invariably understand them as having profound spiritual or religious significance In this book Gregory Shushan explores the relationship between NDEs shamanism and beliefs about the afterlife in traditional indigenous societies in Africa North America and Oceania Drawing on historical accounts of the earliest encounters with explorers missionaries and ethnologists this study addresses questions such as Do ideas about the afterlife commonly originate in NDEs What role does culture play in how people experience and interpret NDEs How can we account for cross cultural similarities and differences between afterlife beliefs Though NDEs are universal Shushan shows that how they are actually experienced and interpreted varies by region and culture In North America they were commonly valorized and attempts were made to replicate them through shamanic rituals In Africa however they were largely considered aberrational events with links to possession or sorcery In Oceania Micronesia corresponded more to the African model while Australia had a greater focus on afterlife journey shamanism and Polynesia and Melanesia showed an almost casual acceptance of the phenomenon as reflected in numerous myths legends and historical accounts This study examines the continuum of similarities and differences between NDEs shamanism and afterlife beliefs in dozens of cultures throughout these regions In the process it makes a valuable contribution to our knowledge about the origins of afterlife beliefs around the world and the significance of related experiences in human history

Poetry and Painting in Song China Alfreda Murck, 2020-10-26 Throughout the history of imperial China the educated elite used various means to criticize government policies and actions During the Song dynasty 960-1278 some members of this elite found an elegant and subtle means of dissent landscape painting By examining literary archetypes the titles of paintings contemporary inscriptions and the historical context Alfreda Murck shows that certain paintings expressed strong political opinions some transparent others deliberately concealed She argues that the coding of messages in seemingly innocuous paintings was an important factor in the growing respect for painting among the educated elite and that the capacity of painting's systems of reference to allow scholars to express dissent with impunity contributed to the art's vitality and longevity

Mission in the Way of Daniel Edward L. serve as an example of an admirable work ethic often finding favor and recognition with political leaders he is also a prime example of a bold and godly individual willing to be a witness in his sphere of influence Though his boldness resulted in suffering he consistently experienced and demonstrated God's power in his witness This same boldness is needed today While many books and Bible studies explore the work ethic and character of Daniel Ed Smither takes those discussions to a new level illustrating why each of Daniel's qualities and skills is a necessary component of mission today *Mission in the Way of Daniel* probes mission theology and practice in the Old Testament exploring the well known story of Daniel through the lenses of mission history and mission practice Providing relevant application for contemporary issues like diaspora power encounters and divine favor in mission the themes in *Mission in the Way of Daniel* advance the ongoing conversation about how to do mission For mission practitioners tentmakers and all Christians this book shows us how God can use us where we are in life and work
