In the following chapters outstanding academics and psychoanalysts demonstrate how psychoanalytic ideas inform their own disciplines and interests encompassing philosophy sociology literature film and the life cycle. In this space the therapist and highly vulnerable patients can undergo transitional states of mind established between and within their relationship. Leticia Castrechini Franieck also known as Maria Leticia Castrechini Fernandes Franieck presents practical methods to overcome communication issues and engage therapeutically with highly vulnerable patients suffering from personality disorders addiction and trauma as well as with deprived children. Communicating with Vulnerable Patients is presented in five parts with Part one focused on building communication through a Transient Interactive Communication Approach TICA and Part two applying TICA in forensic settings with five case studies illustrating the approach in a range of contexts. Part three considers TICA in intercultural settings including work with refugees and Part four outlines adaptations of the approach including T WAS Together We Are Strong which aims to avoid an increase of antisocial behavior in deprived children and the use of TICA in the COVID 19 pandemic. The book concludes in Part five with reflections on outcomes and limitations of both TICA and T WAS.
