

Reassessing Political Ideologies The Durability of Dissent First Edition M. Freeden

Reassessing Political Ideologies The Durability Of Dissent

Manfred B. Steger

Reassessing Political Ideologies The Durability Of Dissent:

Reassessing Political Ideologies Michael Freeden, 2001 This is an examination of each of the major ideologies that have shaped political thinking action and conflict Each chapter provides an overview of the state of these ideologies and a retrospective assessment of their strengths and weaknesses

Reassessing Political Ideologies Michael Freeden, 2004-08-02 This book is a high level examination of each of the major ideologies that have shaped political thinking action and conflict Each chapter provides a critical overview of the current state of the major ideologies and a retrospective assessment of the strengths weaknesses developments and transformations of these ideologies over the past century The volume poses a strong challenge to those who have loudly proclaimed the end of ideology by demonstrating that it is impossible to understand current political developments without an appreciation of their ideological context It features internationally respected contributors who are authorities in their fields and will be an invaluable resource for both students and specialists in areas including Politics and International Relations

Taking Ideology Seriously Gayil Talshir, Mathew Humphrey, Michael Freeden, 2018-10-24 Recent years have witnessed a resurgence of the end of ideology thesis not as a theoretical stance but as a reaction to what appears to have been the decline of major ideological families such as socialism in a changing world order Globalization as well as internal national fragmentation of belief systems have made it difficult to identify ideology in its conventional formats Previously published as a special issue of The Critical Review of International Social and Political Philosophy this volume challenges the notion that we are living in a post ideological age It offers a theoretical framework for exploring some of the new manifestations of ideologies and combines this with a series of case studies relating to recent ideational phenomena such as populism environmentalism and Islamic fundamentalism The contributors reassess some typologies such as the left right axis as an explanatory device and use ideology research to bring together different scholarly perspectives including party political analysis the history of ideas post Marxism and movement politics

The Labour Party under Ed Miliband Eunice Goes, 2016-04-08 By charting the ideas that informed and shaped Ed Miliband's attempt to re-imagine social democracy this book shows that he tried but failed in that task This failure is one of the several reasons why Milibandism was so overwhelmingly rejected by voters at the 2015 general election

The Meaning of Ideology Michael Freeden, 2013-10-18 This is the first collection to bring together leading scholars from diverse disciplines to offer a variety of perspectives on ideology and its analysis emphasizing the input of different intellectual and scholarly traditions to the meaning of ideology The articles explore commonalities in the use and understanding of ideology as well as delineating constructive differences in its interpretation while illuminating the changes that the concept of ideology as well as the practices it signifies has undergone in recent years Contributions are included from the fields of political theory history literature political science cultural studies post Marxism discourse analysis language studies law and sociology The Meaning of Ideology advances our understanding of the intricacy and relevance of ideology and offers the latest theories and

insights that currently inform scholarship on the subject Ideology emerges through the pages of this collection more strongly than ever as a major tool of understanding political language and as a durable and normal phenomenon that is inherent in the many ways we conceive the world around us This book was previously published as a special issue of The Journal of Political Ideologies and will be of interest to students of political ideologies and political and social theory Brill's Companion to Anarchism and Philosophy Nathan J. Jun, 2017-09-25 Despite the recent proliferation of scholarship on anarchism very little attention has been paid to the historical and theoretical relationship between anarchism and philosophy Seeking to fill this void Brill's Companion to Anarchism and Philosophy draws upon the combined expertise of several top scholars to provide a broad thematic overview of the various ways anarchism and philosophy have intersected Each of its 18 chapters adopts a self consciously inventive approach to its subject matter examining anarchism's relation to other philosophical theories and systems within the Western intellectual tradition as well as specific philosophical topics subdisciplines and methodological tendencies *The Feminist Challenge to the Socialist State in Yugoslavia* Zsófia Lóránd, 2018-09-27 This book tells the story of new Yugoslav feminism in the 1970s and 1980s reassessing the effects of state socialism on women's emancipation through the lens of the feminist critique This volume explores the history of the ideas defining a social movement analysing the major debates and arguments this milieu engaged in from the perspective of the history of political thought intellectual history and cultural history Twenty five years after the end of the Cold War societies in and scholars of East Central Europe still struggle to sort out the effects of state socialism on gender relations in the region What could tell us more about the subject than the ideas set out by the only organised and explicitly feminist opposition in the region who as academics artists writers and activists criticised the regime and demanded change The Greenian Moment Denys Leighton, 2004 This study of T H Green views his philosophical opus through his public life and political commitments and it uses biography as a lens through which to examine Victorian political culture and its moral climate The book deals with the political and religious history of Victorian Britain in examining the basis of Green's Liberal partisanship It demonstrates how his main ethical and political conceptions his idea of self realisation and his theory of individuality within community were informed by evangelical theology popular Protestantism and an idea of the English national consciousness as formed by religious conflict While the significance of Kantian and Hegelian elements in Green's thought is acknowledged it is argued that indigenous qualities of Green's teachings resonated with values shared alike by elite and rank and file Liberals during the mid and late Victorian era In examining Green's beliefs about the historical evolution of English liberty his championing of Liberal Nonconformity and Nonconformist causes and his approval of religious bases of community this study analyzes the ripening of a Greenian moment and traces Green's influence on Liberal quasi socialist and Conservative social reform down to the 1920s The lasting impact of Green's teachings on British and Western political philosophy apparent in the current vogue for communitarianism in liberal theory indicates limitations of the secularization thesis still tacitly

accepted by historians of Western political thought **The Greenian Moment** Denys P. Leighton, 2015-11-30 This study of T H Green views his philosophical opus through his public life and political commitments and it uses biography as a lens through which to examine Victorian political culture and its moral climate The book deals with the political and religious history of Victorian Britain in examining the basis of Green s Liberal partisanship It demonstrates how his main ethical and political conceptions his idea of self realisation and his theory of individuality within community were informed by evangelical theology popular Protestantism and an idea of the English national consciousness as formed by religious conflict While the significance of Kantian and Hegelian elements in Green s thought is acknowledged it is argued that indigenous qualities of Green s teachings resonated with values shared alike by elite and rank and file Liberals during the mid and late Victorian era In examining Green s beliefs about the historical evolution of English liberty his championing of Liberal Nonconformity and Nonconformist causes and his approval of religious bases of community this study analyzes the ripening of a Greenian moment and traces Green s influence on Liberal quasi socialist and Conservative social reform down to the 1920s The lasting impact of Green s teachings on British and Western political philosophy apparent in the current vogue for communitarianism in liberal theory indicates limitations of the secularization thesis still tacitly accepted by historians of Western political thought **Person-Centered Politics** Eamonn O'Higgins, 2024-04-09 What accounts for the widespread disillusionment with politics Person centered Politics suggests that politics today through its structures processes and institutions tends to presuppose and to impose a certain caricature of the human person that inhibits and frustrates a real sense of personal participation in an authentic common good of politics and society In 12 chapters that touch on fundamental themes of political philosophy Person centered Politics proposes the social and transcendent dimensions of personal existence and their application to the renewal of politics today The themes explore the commonly accepted assumptions of politics today and how a renewed understanding of the person can invigorate political discourse and action In Person centered Politics the author is in continuous dialogue with some of the major contemporary philosophers and thinkers such as Eric Voegelin David Walsh Robert Sokolowski Vaclav Havel Pierre Manent Peter Simpson and Joseph Ratzinger Benedict XVI Detailed footnotes in each chapter provide reference to further sources of enlightenment and research Person centered Politics proposes an outline for a renewed vision of politics that is centered on the truth of human existence and not a politics that distorts and suffocates the human spirit because in the words of E Voegelin the right order of the soul through philosophy furnishes the standard for the right order of society and not the other way round **German Neoliberalism from 1924 to 1963** Arne I. A.

Käthner, 2024-09-18 This book offers an in depth study of German neoliberalism between 1924 and 1963 arguing that a neoliberal network was established in the interwar period decades before elite networks in Great Britain and the United States fostered the neoliberal revolution of the Thatcher and Reagan administrations The author shows how this network strongly influenced societal developments in the 1950s and set a precedent for neoliberal projects in other countries This

success was largely due to the deliberate and strategic reorganisation of the semantic field abandoning or reacquiring abused concepts challenging existing meanings or introducing new concepts to the political scene The book examines the Aktionsgemeinschaft Soziale Marktwirtschaft ASM an early neoliberal Think Tank founded in 1953 and led by Alexander Rüstow which became an influential political actor in post war West Germany The author adopts a decidedly transnational approach linking and contrasting inner German debates with those taking place transnationally among neoliberal proponents in the Mont Pelerin Society More than just a political study of ideologies this book provides a historical account of the conceptual struggles over neoliberalism the actors who engaged in them the spheres in which they took place and the semantic means and conceptual strategies employed providing useful insights for scholars of German and political history as well as political science more generally

Ideology and Politics John Schwarzmantel, 2008-02-13 Successfully challenges the notion that we live in a post ideological age John Schwarzmantel searchingly questions the thesis that only single issues and identities matter providing a reliable compass to help students navigate through a world that has witnessed the death of Communism and the rise of neo liberal hegemony Jules Townshend Professor of Political Theory Manchester Metropolitan University This book challenges the idea of post ideological consensus and offers a fresh perspective on the current state of political ideologies With traditional political ideologies such as liberalism socialism nationalism and conservatism perceived to be in crisis it assesses Their continued relevance in the context of globalisation and of scepticism towards ideological thinking The challenges posed by new ideologies such as ecologism and feminism The implications of new social movements and ideas of community and multiculturalism for the traditional Left Right political framework Ideology and Politics presents an accessible account of a new era of ideological politics where the dominant neo liberalism has spawned a diverse global range of ideologies of opposition It situates these radical frameworks of change and protest in relation to more traditional anti ideologies and seeks to re establish the relevance of ideologies for political action in the contemporary world This text will be core reading for students of politics at advanced undergraduate and postgraduate level

What is Christian Democracy? Carlo Invernizzi Accetti, 2019-10-03 A comprehensive global study of the political ideology of Christian Democracy from the mid nineteenth century to the present day

The Muslim Brotherhood in Jordan Joas Wagemakers, 2020-09-17 A wide ranging account of the Muslim Brotherhood in Jordan and its ideological and behavioural development since its founding in 1945

The Rise of the Global Imaginary Manfred B. Steger, 2008-07-03 A tour de force examination of the contemporary ideological landscape by one of the world's leading analysts of globalization

Defensive Nationalism Beth Rabinowitz, 2023 A stunningly novel account of why populism and fascism are on the rise in the early 21st century There is no question that we live in paradoxical times In the most technologically advanced societies wild conspiracy theories and a broad distrust of science and expertise have created deep political divisions that are splitting nations in two In Defensive Nationalism Beth S Rabinowitz looks at the rise of nativism and populism today by using the

works of two great theoreticians Karl Polanyi and Joseph Schumpeter Drawing from both theory and history she combines Polanyi's concept of the double movement away from markets and toward social protection with Schumpeter's theory of innovation Rabinowitz argues that the rapid transformation of transportation and communications during the Industrial Revolution and the Digital Revolution created economic interdependence and capital flows that induced liberal social economic and political changes In response separate populist movements stemming from particular national histories and struggles arose concurrently Rabinowitz calls these illiberal responses defensive nationalism and reframes nationalism as a three part process creative consolidating and defensive Constructing new parameters through which we can study these socio political patterns across time and space this book weaves together a fascinating narrative that spans two centuries

Quest for Democracy Line Khatib, 2022-11-03 Since the uprisings of 2010 and 2011 it has often been assumed that the politics of the Arab speaking world is dominated and will continue to be dominated by orthodox Islamic thought and authoritarian politics Challenging these assumptions Line Khatib explores the current liberal movement in the region examining its activists and intellectuals their work and the strengths and weaknesses of the movement as a whole By investigating the underground and overlooked actors and activists of liberal activism Khatib problematizes the ways in which Arab liberalism has been dismissed as an insignificant sociopolitical force or a mere reaction to Western formulations of liberal politics Instead she demonstrates how Arab liberalism is a homegrown phenomenon that has influenced the politics of the region since the nineteenth century Shedding new light on an understudied movement Khatib provokes a re evaluation of the existing literature and offers new ways of conceptualizing the future of liberalism and democracy in the modern Arab world

Hungary's Crisis of Democracy Peter Wilkin, 2016-08-26 This book examines the crisis of democracy that has arisen in Hungary since the election of the Fidesz government in 2010 After moving swiftly to transform the Hungarian constitution Fidesz created a new political system which has led its critics to argue that the era of democracy in Hungary is over US Senator John McCain has gone so far as to describe Hungary as an illiberal democracy on a path toward fascism The author argues that Fidesz has sought to challenge the capitalist and democratic transformation that shaped Hungary for 20 years after the fall of communism by increasing the power of the state over crucial aspects of the economy society and the political system In so doing Fidesz actions resemble those undertaken by many authoritarian states that have emerged since the end of the Second World War all aiming to build up a national capitalism and protect their economies whilst undertaking nation building To make sense of this the author draws upon two traditions of thought world systems analysis which situates Hungary in the context of its incorporation in the modern capitalist world system after the fall of communism and anarchist social thought which provides a unique way of seeing the actions of states and political elites In so doing the book argues that the events unfolding in Hungary cannot be explained on the basis of Hungarian exceptionalism but must be situated in the broader political and economic context that has shaped the development of Hungary since 1990 The form of capitalism

introduced in Hungary and across the region of East and Central Europe has systematically undermined the strong state and social security that had existed under communism and when added to the failure of the left and liberals in the region it has paved the way for far right and neo fascist political movements to emerge claiming the mantle of defenders of society from the market This represents a fundamental threat to the enlightenment traditions that have shaped dominant modern political ideologies and raises profound problems for both the EU and NATO

Liberalism as Ideology Ben Jackson, Marc

Stears, 2012-02-16 Liberalism is the dominant ideology of our time yet its character remains the subject of intense scholarly and political controversy Inspired by the work of Michael Freedman this book brings together an internationally respected cast of scholars to debate liberalism and to redefine the very essence of what it is to be a liberal

Judicial Individuality on the UK Supreme Court Lewis Graham, 2025-02-06 This book presents an empirical analysis of the UK Supreme Court's output over its first ten years with a specific focus on each individual judge's contribution to each case It shows that judges like all of us are human it would be difficult to imagine that any of us even in our most professional capacity could act completely independently of our predilections motivations and biases The same is true for the judges sitting on the UK's highest court Drawing on insights from a bespoke dataset of judgments this work discerns trends and tendencies across each judge's voting patterns and the reasoning they adopt when disposing of cases It not only highlights areas of divergence but also shows how each of the judges tended to vote in different contexts including which were more likely to overturn appeals from lower courts side with certain parties such as the state or underdogs and find liability in various areas tort contract criminal EU immigration and tax law with a special focus on human rights cases Another section illustrates the differences between the judges when it comes to judicial reasoning such as their approach to precedent and preferred methods of statutory interpretation This work shows that different judges exercise their power in different ways Some are more comfortable with pushing boundaries whilst others are more restrained Some grant the state a lot of leeway whilst others apply heavy scrutiny Some are as Lord Denning suggested bold spirits whilst others are timorous souls It shows at least when it comes to the Supreme Court that it matters who our judges are

This is likewise one of the factors by obtaining the soft documents of this **Reassessing Political Ideologies The Durability Of Dissent** by online. You might not require more era to spend to go to the ebook foundation as with ease as search for them. In some cases, you likewise attain not discover the proclamation Reassessing Political Ideologies The Durability Of Dissent that you are looking for. It will agreed squander the time.

However below, with you visit this web page, it will be in view of that enormously simple to get as well as download guide Reassessing Political Ideologies The Durability Of Dissent
