Philosophy Culture and Vision: African Perspectives Gyekye, Kwame, 2014-05-08 Believing that the intellectual enterprise called philosophy is essentially a part of the cultural as well as historical experience of a people that the concepts and problems that occupy the attention of philosophers placed in different cultural spaces or historical times generally derive directly from those spaces and times and that philosophy in turn has been most relevant to the development of human cultures the Ghanaian philosopher Kwame Gyekye gives reflective attention in this book to some of the concepts and problems that in his view feature most prominently in the contemporary African cultural social political and moral experience Such concepts and problems include the following political legitimacy development culture and the pursuit of science and technology political corruption democracy representation and the politics of inclusion the status of cultural values in national orientation understanding globalization and others It is these topics that are covered in the essays collected in this book The unrelenting pursuit of the speculative activity by the philosopher in most cases eventuates in normative proposals these normative proposals often embody a vision a vision of an ideal human society in terms of its values politics and culture Vision understood here has human not supernatural or divine origination and involvement and requires action by human beings in order for it to come into reality A vision may derive from sustained critical evaluation of a culture or some elements of it Gyekye attempts an articulation of the visions of the essays contained in the book Even though philosophical ideas and concerns are originally inspired by and worked out in a cultural milieu it does not necessarily follow Gyekye strongly believes that the relevance of those ideas and insights is to be tethered to the cultures that produced them For more often than not the relevance of those ideas or at least some of them transcends the confines of their own times and cultures and can be appreciated by other societies or cultures or generational epochs This trans cultural or trans epochal or meta contextual appeal or attraction of philosophical ideas and insights spawned by a particular culture or cluster of cultures or in specific historical times is to be put down to our common human nature including our basic human desires and aspirations Thus most of the essays published here should be of interest to the global community i e to cultures and societies beyond the African

African Theology, Philosophy, and Religions Julius Gathogo, Chammah J. Christology in Cultural Perspective Colin J. D. Greene, 2015-10-14 Christology defines the very heart of the Christian faith Traditionally the study of the person and work of Christ has been understood largely as an exercise in biblical exegesis or historical and doctrinal analysis Rarely if ever has Christology focused on the changing cultural paradigms that have deeply influenced the development of human knowledge and self understanding This unique volume by Colin Greene reverses that trend and in line with developments in modern cultural theory explores the interlaces between successive cultural contexts and the story of Jesus to which the Scriptures bear witness Starting with an examination of the three main Christological trajectories that have dominated the history of Christology cosmological Christology political Christology and anthropological Christology Greene proceeds to concentrate on the subtle and complex linkages between Christology and the sociopolitical paradigms that have bolstered the epistemological assumptions of modernity Greene s wide ranging study closes with a creative exploration into how Christology might once again provide us with a Christ centered vision of reality

Philosophy in Culture J. Tosam, Peter Takov, 2016-09-13 This book explores the symbiotic relationship between philosophy and culture Every philosophy emerges as a reaction to or as justification for a particular culture and it is for this reason that philosophy may differ from one culture to another It argues that philosophy is an essential part of every culture Philosophy is the means by which every culture provides itself with justification for its values beliefs and worldview and also serves as a catalyst for progress Philosophy critically questions and confronts established beliefs customs practices and institutions of a society As reflective critical thinking philosophy is linked to a way of life a form of enquiry intended to guide behaviour a form of thinking that sharpens and broadens our intellectual horizon scrutinizes our assumptions and clarifies the beliefs and values by which we live Philosophy helps to liberate the individual from the imprisonment of ignorance prejudice superstition narrow mindedness and the despotism of custom Culture constitutes the raw data the laboratory from which philosophers do their analytic experimentation Culture is considered as philosophy of the first order activity The book maintains that any genuine global philosophy must include philosophical traditions from all cultures and regions of the world as it is by seeking alternative philosophical answers to some of the thorniest problems facing humanity that we are most likely to find more lasting solutions to some global problems In this commitment to a universal humanity we cannot afford to depend on solutions from a single culture or from the most influential cultures

Bibliography on East Asian Religion

and Philosophy, 2001 This comprehensive research bibliography compiles annotates indexes and cross references resources in the principal Western languages which focus on China Japan and Korea in the areas of philosophy and religious studies supporting resources in theology history culture and related social sciences A notable additional feature is the inclusion of extensive Internet based resources such as a wide variety of web sites discussion lists electronic texts virtual libraries online journals and related material *Philosophy's Higher Education* Nigel Tubbs, 2006-01-26 At about the age of 13 I began to realise that my formal education was separating itself off from my philosophical education Of course at the time I did not know it in this way I experienced it as a split between what I was being taught and my experience of what I was being taught It was I now know the philosophical experience of formal schooling It was not until beginning the study of sociology at 16 that I came across the idea of dualisms pairs of opposites that always appeared together but were never reconciled In sociology it was the dualism of the individual and society The question most asked in our classes was always regarding which aspect of the dualism dominated the other The answer we always leaned towards was that both were mutually affected by the other The answer seemed to lie somewhere in the middle It was only at university first as an undergraduate and then as a postgraduate that I came across the idea of the dialectic Slowly I began to recognise that the dualisms which plagued social theory I and we self and other good and evil modernity and post modernity autonomy and heteronomy freedom and nature truth and relativism and so many more were not only dialectical in being thought about but also that the thought of them being dialectical had an even stranger quality It was the same experience as being at school

Diversifying Philosophy of Religion Nathan R. B. Loewen, Agnieszka Rostalska, 2023-06-01 Much philosophical thinking about religion in the Anglophone world has been hampered by the constraints of Eurocentrism colonialism and orientalism Addressing such limitations head on this exciting collection develops models for exploring global diversity in order to bring philosophical studies of religion into the globalized 21st century Drawing on a wide range of critical theories and methodologies and incorporating ethnographic feminist computational New Animist and cognitive science approaches an international team of contributors outline the methods and aims of global philosophy of religion From considering the importance of orality in African worldviews to interacting with Native American perspectives on the cosmos and investigating contemplative studies in Hinduism each chapter demonstrates how expertise in different methods can be

applied to various geographical regions building constructive options for philosophical reflections on religion Diversifying Philosophy of Religion raises important questions regarding who speaks for and represents religious traditions setting the agenda for a truly inclusive philosophy of religion that facilitates multiple standpoints **Postcolonial Philosophy of Religion** Purushottama Bilimoria, Andrew B. Irvine, 2009-09-30 The present collection of writings on postcolonial philosophy of religion takes its origins from a Philosophy of Religion session during the 1996 Annual Meeting of the American Academy of Religion held in New Orleans Three presentations by Purushottama Bilimoria Andrew B Irvine and Bhibuti Yadav were to be offered at the session with Thomas Dean presiding and Kenneth Surin responding Yadav unfortunately could not be present because of illness This was the first AAR session ever to examine issues in the study of religion under the rubric of the postcolonial turn in academia Interest at the session was intense For instance Richard King then at work on the manuscript of the landmark *Orientalism and Religion* was present so too was Paul J Griffiths whose subsequent work on interreligious engagement has been so noteworthy In response to numerous audience appeals revised versions of the presentations eventually were published as a Dedicated Symposium on Subalternity in volume 39 no 1 2000 of *Sophia* the international journal for philosophy of religion metaphysical theology and ethics Since that time the importance of the nexus of religion and the postcolonial has become increasingly patent not only to philosophers of religion but to students of religion across the range of disciplines and methodologies The increased internationalization of the program of the American Academy of Religion especially in more recent years is a significant outgrowth of this transformation in consciousness among students of religion

Religion in Philosophical and Cultural Perspective J. Clayton Feaver, William Horosz, 1967 **Nature in Indian**

Philosophy and Cultural Traditions Meera Baindur, 2015-05-19 Working within a framework of environmental philosophy and environmental ethics this book describes and postulates alternative understandings of nature in Indian traditions of thought particularly philosophy The interest in alternative conceptualizations of nature has gained significance after many thinkers pointed out that attitudes to the environment are determined to a large extent by our presuppositions of nature This book is particularly timely from that perspective It begins with a brief description of the concept of nature and a history of the idea of nature in Western thought This provides readers with a context to the issues around the concept of nature in environmental philosophy setting a foundation for further discussion about alternate conceptualizations of nature and their significance In particular the work covers a wide array of textual and non textual sources to link and understand nature from classical Indian philosophical perspectives as well as popular understandings in Indian literary texts and cultural practices Popular issues in environmental philosophy are discussed in detail such as What is nature in Indian philosophy How do people perceive nature through landscape and mythological and cultural narratives In what ways is nature sacred in India To make the discussion relevant to contemporary readers the book includes a section on the ecological and ethical implications of some philosophical concepts and critical perspectives on alternate conceptualizations of nature Ethics, Human Rights

and Culture X. Li, 2006-01-27 Is it possible given culturally incongruent perspectives to validate any common standards of behaviour Is cultural relativity be a problem when cultures are porous Can we implement human rights without incorporating the idea into the fabric of culture This book addresses such questions with an inventive and original understanding of culture

Perspectives on Igwebuike Philosophy: Chiugo C. Kanu Ph.D, Kanayo L. Nwadior Ph.D, Philip Adah Idachaba Ph.D, 2019-10-18 The study of African philosophy like all great philosophical enquiries around the world is fraught with the wrecks of words wrenched from their original meaning widened or narrowed and forced into a bewildering variety of vessels that chum their ways in seas of semantic confusion African philosophical studies has acquired and added to the many philosophical verbal transmogrifications that came originally from the Igbo of south eastern Nigeria In its turn it has produced its own eccentric philosophical etymology of which perhaps the most striking example is Igwebuike philosophy A reflection on Igwebuike philosophy reveals that it is a product of a meticulous and critical study of African philosophy It is in this light that the scrupulous researcher would dissect the profound thinker behind the Igwebuike philosophy In this book scholars of different hues and academic endeavours have made excursus into the origin originator meaning and relevance of Igwebuike philosophy to contemporary African philosophical scholarship and African societies Research shows that the brain behind Igwebuike philosophy that is gradually becoming a major part of African philosophical engagement is incontestably Prof Ikehukwu Anthony Kanu O S A Igwebuike itself is a philosophical principle that is drawn from African primordial practice of solidarity and complementarity the works of professional African philosophers African proverbs African folk tales African mythology African symbols African names and African songs Kanayo L Nwadior Ph D Nnamdi Azikiwe University Awka

Gender, Religion and Diversity Ursula King, Tina Beattie, 2005-10-01 Gender Religion and Diversity provides an introduction to some of the most challenging perspectives in the contemporary study of gender and religion In recent years women s and gender studies have transformed the international study of religion through the use of interdisciplinary and cross cultural methodologies which have opened up new and highly controversial issues challenging previous paradigms and creating fresh fields of study As this book shows gender studies in religion raises new and difficult questions about the gendered nature of religious phenomena the relationship between power and knowledge the authority of religious texts and institutions and the involvement and responsibility of the researcher undertaking such studies as a gendered subject This book is the outcome of an international collaboration between a wide range of researchers from different countries and fields of religious studies The range and diversity of their contributions is the very strength of this book for it shows how gendering works in studying different religious materials whether foundational texts from the Bible or Koran philosophical ideas about truth essentialism history or symbolism the impact of French feminist thinkers such as Irigaray or Kristeva or again critical perspectives dealing with the impact of race gender and class on religion or by deconstructing religious data from a postcolonial critical standpoint or examining the impact of imperialism and orientalism on religion and gender
