Religion And Violence Philosophical Perspectives From Kant To Derrida:

Religion and violence Hent de Vries,2002 **Kant and Mysticism** Stephen R. Palmquist,2019-07-10 What is happening when someone has a mystical experience such as feeling at one with the universe or hearing God's voice Does philosophy provide tools for assessing such claims Which claims can be dismissed as delusions and which ones convey genuine truths that might be universally meaningful Valuable insights into such pressing questions can be found in the writings of Immanuel Kant though few philosophical commentators have appreciated the implications beyond his famous Copernican hypothesis In *Kant and Mysticism* Stephen R Palmquist corrects this skewed view of Kant once and for all Beginning with a detailed analysis of Kant's 1766 work *Dreams of a Spirit Seer* Palmquist demonstrates that in *Dreams* Kant first discovers and explains his plan to write a new critical philosophy that will revolutionize metaphysics by laying bare the limits of human reason Palmquist shows how the same metaphorical relationship between reason's dreams metaphysics and sensibility's dreams mysticism permeates Kant's mature writings Clarifying how Kant's final unfinished book *Opus Postumum* completes this dual project Palmquist explains how the critical mysticism entailed by Kant's position has profound implications for contemporary understandings of religious and mystical experience both by religious individuals and by philosophers seeking to understand such experiences

Modernity and the Problem of Evil Alan D. Schrift,2005 How society deals with the problem of evil in a post 9 11 world *The ^AOxford Handbook of Religion, Conflict, and Peacebuilding* Atalia Omer,R. Scott Appleby,David Little,2015-03-02 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field Radical Humanism and Generous Tolerance Celucien L. Joseph,2016-11-16 *Radical Humanism and Generous Tolerance* articulates the religious ideas and vision of Wole Soyinka in his non fiction writings It also analyzes Soyinka's response to religious violence terror and the fear of religious imperialism The book suggests the theoretical notions of radical humanism and generous tolerance best summarize Soyinka's religious ideals and religious piety Through a close reading of Soyinka's religious works the book argues that African traditional religions could be used as a catalyst to promote religious tolerance and human solidarity and that they may also contribute to the preservation of life and the fostering of an ethics of care and relationality Soyinka brings in conversation Western Humanist tradition and African indigenous Humanist tradition for the sake of the world for the sake of global shalom and for the sake of human flourishing

Theology as Repetition Stephen Foster,2020-01-01 *Theology as Repetition* revisits and argues for a revival of John Macquarrie's philosophical theology Macquarrie was a key twentieth century theological voice and was considered a foremost interpreter and translator of Martin Heidegger's philosophy He then somehow fell from view Macquarrie developed a new style of theology grounded in a dialectical phenomenology that is a relevant voice in responding to recent trends in theology The development of the book is partly chronological and partly

thematic and avoids attempting to be either deductive or inductive in argument but rather reflects Macquarrie's phenomenologically styled new theology. Theology as Repetition is set out in two parts. The first part situates Macquarrie in relation to thinkers from the radical theology of the 1960s through to the postmodernists of the late twentieth century. The second part explores the intersection of key themes in Macquarrie's theology with the thinking of Kant, Hegel, Heidegger and representative postsecular and postmodern figures including but not limited to Emmanuel, Levinas, Jacques Derrida and Jean-Luc Marion.

Controversies in Contemporary Religion Paul Hedges, 2014-09-09 Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world. Written by a range of scholarly contributors, this three-volume set provides contextual background information and detailed explanations of religious controversies across the globe.

Controversies in Contemporary Religion: Education, Law, Politics, Society and Spirituality is a three-volume set that addresses a wide variety of current religious issues, analyzing religion's role in the rise of fundamentalism, censorship, human rights, environmentalism and sustainability, sexuality, bioethics and other questions of widespread interest. Providing in-depth context and analysis far beyond what's available in the news or online, this work will enable readers to understand the nature of and reasons for controversies in current headlines. The first volume covers theoretical and academic debates; the second looks at debates in the public square and ethical issues; while the third examines specific issues and case studies. These volumes bring detailed and careful debate of a range of controversies together in one place, including topics not often covered, for example, how religions promote or hinder social cohesion and peace, the relationship of religions to human rights and the intersection of Buddhism and violence. Written by a range of experts that includes both established and emerging scholars, the text explains key debates in ways that are accessible and easy to understand for lay readers as well as undergraduate students researching particular issues or global religious trends.

The Enigma of Divine Revelation Jean-Luc Marion, Christiaan Jacobs-Vandegeer, 2020-03-04 This volume explores the possibilities and pressures of the language of revelation on human understanding. How can we critically account for divine self-disclosure in the linguistically mediated world of human concerns? Does the structure of interpretation limit the language of revelation? Does revelation open up new horizons of critical interpretation? The volume brings together theologians who approach the interactions of revelation and hermeneutics with different perspectives, including various forms of phenomenology and comparative theology. It approaches the theme of revelation central as it is to the theological endeavour from several angles rather than a single methodological program. Dealing as it does with revelation and understanding, the volume addresses the foundational issues at stake in the challenges around change, identity and faithfulness currently facing the church.

The Sense of Suffering: Constructions of Physical Pain in Early Modern Culture, 2009-01-31 The early modern period is a particularly relevant and fascinating chapter in the history of pain. This volume investigates early modern constructions of physical pain from a variety of disciplines, including religious, legal and medical history, literary criticism, philosophy and art history. The contributors examine

how early modern culture interpreted physical pain as it presented itself for instance during illness but also analyse the ways in which early moderns employed the idea of physical suffering as a powerful rhetorical tool in debates over other issues such as the nature of ritual notions of masculinity selfhood and community definitions of religious experience and the nature of political power Contributors include Emese B lint Maria Berbara Joseph Campana Andreas Dehmer Jan Frans van Dijkhuizen Karl A E Enenkel Lia van Gemert Frans Willem Korsten Mary Ann Lund Jenny Mayhew Stephen Pender Michael Schoenfeldt Kristine Steenbergh Anne Tilkorn Jetze Touber Anita Traninger and Patrick Vandermeersch **René Girard and Creative Mimesis** Vern Neufeld Redekop, Thomas Ryba, 2013-11-21 For half a century Ren Girard s theories of mimetic desire and scapegoating have captivated the imagination of thinkers and doers in many fields as an incisive look into the human condition particularly the roots of violence In a 1993 interview with Rebecca Adams he highlighted the positive dimensions of mimetic phenomena without expanding on what they might be Now two decades later this groundbreaking book systematically explores the positive side of mimetic theory in the context of the multi faceted world of creativity Several authors build on Adams insight that loving mimesis can be understood as desiring the subjectivity of the other particularly when the other may be young or wounded With highly nuanced arguments authors show how mimetic theory can be used to address child and adult development including the growth of consciousness and a capacity to handle complexity Mimetic theory is brought to bear on big questions about creativity in nature evolutionary development originality and religious intrusion into politics **Negative Theology as Jewish Modernity** Michael Fagenblat, 2017-02-27 Negative theology is the attempt to describe God by speaking in terms of what God is not Historical affinities between Jewish modernity and negative theology indicate new directions for thematizing the modern Jewish experience Questions such as What are the limits of Jewish modernity in terms of negativity Has this creative tradition exhausted itself and How might Jewish thought go forward anchor these original essays Taken together they explore the roots and legacies of negative theology in Jewish thought examine the viability and limits of theorizing the modern Jewish experience as negative theology and offer a fresh perspective from which to approach Jewish intellectual history **The Problem of Political Foundations in Carl Schmitt and Emmanuel Levinas** Gavin Rae, 2016-09-17 In this book Gavin Rae analyses the foundations of political life by undertaking a critical comparative analysis of the political theologies of Carl Schmitt and Emmanuel Levinas In so doing Rae contributes to key debates in contemporary political philosophy specifically those relating to the nature of and the relationship between the theological the political and the ethical as well as those questioning the existence of ahistoric metaphysical ontological and epistemological foundations While the theological is often associated with belief in a fixed foundation such as God or the truth of a religion Rae identifies another sense rooted in epistemology On this understanding the ontological limitations of human cognition mean that ultimately human truth is based in faith and so can never be certain The argument developed suggests that Levinas conception of the political is grounded in theology in the sense of religion particularly the revelations

of Judaism For this reason Levinas claims that the political decision is based on how to implement a prior religiously inspired norm justice Schmitt in contrast develops a conception of the political rooted in epistemic faith to claim that the political decision is normless While sympathetic to Schmitt's conception of theology and its relationship to the political Rae concludes by arguing that the emphasis Levinas places on responsibility is crucial to understanding the implications of this The continuing relevance of Schmitt's and Levinas political theologies is that they teach us that while the political decision is ultimately normless we bear an infinite responsibility for the consequences of this normless decision **Cultural**

Schott, 2015-11-03 One can love and not forgive or out of love decide not to forgive Or one can forgive but not love or choose to forgive but not love the ones forgiven Love and forgiveness follow parallel and largely independent paths a truth we fail to acknowledge when we pressure others to both love and forgive Individuals in conflict sparring social and ethnic groups warring religious communities and insecure nations often do not need to pursue love and forgiveness to achieve peace of mind and heart They need to remain attentive to the needs of others an alertness that prompts either love or forgiveness to respond By reorienting our perception of these enduring phenomena the contributors to this volume inspire new applications for love and forgiveness in an increasingly globalized and no longer quite secular world With contributions by the renowned French philosophers Jacques Derrida and Jean Luc Marion the poet Haleh Liza Gafari and scholars of religion Leora Batnitzky Nils F Schott Hent de Vries psychoanalysis Albert Mason Orna Ophir Islamic and political philosophy Sari Nusseibeh and the Bible and literature Regina Schwartz this anthology reconstructs the historical and conceptual lineage of love and forgiveness and their fraught relationship over time By examining how we have used and misused these concepts

Heidegger's Black Notebooks and the Future of Theology Mårten Björk, Jayne Svenungsson, 2017-12-14 This book probes the relationship between Martin Heidegger and theology in light of the discovery of his Black Notebooks which reveal that his privately held Antisemitism and anti Christian sentiments were profoundly intertwined with his philosophical ideas Heidegger himself was deeply influenced by both Catholic and Protestant theology This prompts the question as to what extent Christian anti Jewish motifs shaped Heidegger's own thinking in the first place A second question concerns modern theology's intellectual indebtedness to Heidegger In this volume an array of renowned Heidegger scholars both philosophers and theologians investigate Heidegger's animosity toward the biblical legacy in both its Jewish and Christian interpretations and what it means for the future task and identity of theology
