Entrepreneurship and Religion Léo-Paul Dana, 2010-01-01 I wish this book had been around when I tried to teach about entrepreneurship in its social context life would have been much easier with these informed sources Alistair R Anderson Aberdeen Business School UK This rich and detailed book makes a very timely contribution to extending our understanding of entrepreneurship in its social context Using selected examples the respected contributors show how the values developed in religious beliefs and practices shape entrepreneurship For too long the entrepreneur has been characterized as an isolated economically driven individual thus ignoring how enterprise and entrepreneurs are products of their society their culture and their religion This innovative book discusses both

entrepreneurship and religion as well as indicating how the synthesis of beliefs and practices combine in entrepreneurial endeavours. It provides a conceptually useful way of framing the individualistic entrepreneur in his or her social and cultural context, demonstrating how entrepreneurial agency operates within and through a variety of religious contexts. Illustrated with original photographs, this captivating book will be warmly welcomed by students and researchers with interests in entrepreneurship, sociology, religion, and cultural studies. Government policy makers in immigration will also find this book an invaluable read.

Ethics and Business Paul C. Godfrey, Laura E. Jacobus, 2022-12-15. *Ethics Business: An Integrated Approach for Business and Personal Success* 1st Edition. International Adaptation gives students the practical knowledge and skills to identify ethical dilemmas, understand ethical behavior in themselves and others, and advocate for ethical behavior within their organization. The course focuses on three ethical questions: the individual, the organization, and the societal perspective. These questions and views explore different areas of business ethics such as the use and abuse of power, challenges to honesty and integrity, and participation in ethical interventions such as reporting, repair, forgiveness, and reconciliation. Most business ethics courses are based on a single point of view. Depending on the viewpoint, this might be based on philosophical theory, organizational behavior, or a legal and regulatory compliance approach. As an author team, we combine and integrate these points of view into a unified whole by incorporating unique content, original videos, and adaptable case studies to assist students in making ethical decisions in their professional and personal lives. This International Adaptation explores different areas of business ethics such as the use and abuse of power, challenges to honesty and integrity, and participation in ethical

interventions such as reporting repair forgiveness and reconciliation Every chapter now includes new questions to help readers test their understanding of the subject There is also new mini cases that are contemporary and more relevant to the global scenario

The Choice Maker Hamid Rafizadeh,2018-05-21 We all feel it To fit in is difficult to run away is impossible The only alternative is to manage yet something significant is missing Ancient knowledge

has disappeared as if no one will ever find it but the divine intervenes rebooting the current existence into a new and unexpected one The divine voice unravels the ancient curse of ignorance placed on humans by humans stretching back to millennia and beyond a primal evil that threatens everyone's life unless one listens to the divine voice But where is that voice The Choice Maker offers clear ideas about the shocking realities that compel and engage humans to manage force and resources differently in relation to their place in earth's different versions one presently precarious and fleeting and the other arriving with unseen power and ferocity Author Hamid Rafizadeh pinpoints the divine voice in the Sermon on the Mount which is critical to human life survival and well being The Sermon on the Mount is universal knowledge for everyone not religious knowledge for select believers and it can reveal to us a truth about life in both the current blue skied earth and the new canopied earth that is coming soon Are you willing to go on a profound journey The one crucial to every human's life The one recommended by the divine Probably not and history is on the unwilling side yet The Choice Maker insists on showing you the way and the reasons for taking this journey

Spirituality, Corporate Culture, and American Business James Dennis LoRusso, 2017-02-09 By the early twenty first century Americans had embraced a holistic vision of work that one's job should be imbued with meaning and purpose that business should serve not only stockholders but also the common good and that for many should attend to the spiritual health of individuals and society alike While many voices celebrate efforts to introduce spirituality in the workplace as a recent innovation that holds the potential to positively transform business and the American workplace James Dennis LoRusso argues that workplace spirituality is in fact more closely aligned with neoliberal ideologies that serve the interests of private wealth and undermine the power of working people LoRusso traces how this new moral language of business emerged as part of the larger shift away from the post New Deal welfare state towards today's global market oriented social order Building on other studies that emphasize the link between American religious conservatism and the rise of global capitalism LoRusso shows how progressive spirituality remains a vital part of this story as well Drawing on cultural history as well as case studies from New York City and San Francisco of businesses and leading advocates of workplace spirituality this book argues that religion reveals much about work corporate culture and business in contemporary America

Everyman's Prayer Book H. Kenneth MacLennan, 2014-08-08 The world is replete with conflicts between various governments and various religious factions Author and retired educator H. Kenneth MacLennan has come to realize that these conflicts will not be resolved until the believers of these religions and governments better understand the true nature of those things in which they believe Everyman's Prayer Book is a humorous satirical and a sometimes serious look at the nature of how democratic governments and their courts using many of the same pillars and elements of the legal definition of witchcraft crafty science sorcery and fortune telling to procure tax payments from believers as Christianity uses in seeking offerings from believers In considering the nature of democratic governments and their courts you will find important truths and insights into human nature Those insights and truths will be revealed through satirizing ridiculing

lampooning skewering deflating dissecting embarrassing undressing unmasking and exposing the illusion that the crafty science of democracy represents the people and that there is such a thing as real justice in the courts of democratic governments Without faith in the existence and power of God although the concept of faith is without foundation and the opposite of reason believers would not accept the power of religions or democratic governments and their courts

Entrepreneurs and Capitalism since Luther Ivan Light,Léo-Paul Dana,2020-08-20 In *Entrepreneurs and Capitalism since Luther Rediscovering the Moral Economy* Ivan Light and L o Paul Dana study the history of business capitalism and entrepreneurship to examine the values of social and cultural capital Six chapters evaluate case studies that illustrate contrasting relationships between social networks vocational culture and entrepreneurship Light and Dana argue that in capitalism s early stages cultural capital is scarcer than social capital and therefore more crucial for business owners Conversely when capitalism is well established social capital is scarcer than cultural capital and becomes more crucial Light and Dana then trace moral legitimations of capitalism from the Reformation to the Enlightenment the Gilded Age and finally to Joseph Schumpeter whose concept of creative destruction freed elite entrepreneurs from moral restraints that encumber small business owners After examining the availability of social and cultural capital in the contemporary United States Light and Dana show that business owners social capital enforces conventional morality in markets facilitating commerce and legitimating small businesses the old fashioned way As their networks become more isolated elite entrepreneurs must claim and ultimately deliver successful results to earn public toleration of immoral or predatory conduct *Entrepreneurial Marketing for SMEs* Luca Cacciolatti,Soo Hee Lee,2015-10-26 *Entrepreneurial Marketing for SMEs* contextualizes the practice of marketing amongst SMEs and critically discusses major issues of Entrepreneurial Marketing with a relevant and up to date academic body of knowledge The Morning-Exercise at Cripple-gate ...
