Religion In Focus Buddhism:

Religions in Focus Graham Harvey, 2016-04-08 *Religions in Focus* engages with the religious lives of members of some of the most significant religions today. It presents religions as contemporary ways of life that motivate and inspire people. Because religious people refer to sacred texts, honour the founders of their religions, learn from elders or mould their lives according to authoritative teachings, *Religions in Focus* explains the relationship between tradition and contemporary practice. It offers an introduction to religions that is rooted in the best scholarship of the Study of Religions and provides a secure foundation for further study. A team of Religious Studies scholars from many countries, all skilled communicators about the contemporary religions with which they are thoroughly familiar, introduce what it means to live as a religious person today. They insist that however old or young, these religions may be, what is most interesting is the ways in which people express them today. This is not a history of religions but an insightful introduction to living religions. A guide to further study and a companion website will point to ways of building on knowledge gained in studying this book and applying skills developed in studying people's religious lives.

Focus on Buddhism Robert A. McDermott, 1981 **The Space of Religion** Yoshiko Ashiwa, David L. Wank, 2023-08-29 Finalist 2024 Award for Excellence in the Study of Religion in Analytical Descriptive Studies American Academy of Religion Honorable Mention 2024 Francis H. K. Hsu Book Prize Society for East Asian Anthropology The Nanputuo Temple in the southeastern Chinese city of Xiamen has been a cherished site for the worship of the bodhisattva Guanyin for centuries. It was a center of modernizing Buddhism in the early twentieth century and a flagship for the revival of Buddhism after state suppression during the Cultural Revolution. *The Space of Religion* takes readers inside the Nanputuo Temple in order to explore the practice of Buddhism in modern China and the complex relationship between Buddhism and the Chinese state. Based on three decades of ethnographic research, Yoshiko Ashiwa and David L. Wank tell the story of Nanputuo against the backdrop of a dramatic stretch of Chinese history. They vividly depict episodes such as renovating the halls, reestablishing ties with overseas Chinese donors, conflicts with local government, revival of ritual life, reopening of its Buddhist academy, and the passion of the Guanyin birthday festival. To understand Nanputuo Buddhist communities and other temples in Xiamen, Ashiwa and Wank develop the concept of religion as a space constituted by physical, semiotic, and institutional dimensions. They also show how the Chinese state and Buddhism have each adapted to the other as the temple has adjusted to government policy while the state has deployed Buddhism in its promotion of Chinese culture. This interdisciplinary book is both a theoretically generative analysis of religious spaces and an empirically rich account of the recovery of Buddhism in China after the Mao era.

The book concludes with basic principles for living as Christ's disciples in religiously diverse contexts.

Religious Dynamics under the Impact of Imperialism and Colonialism Björn

Bentlage, Marion Eggert, Hans Martin Krämer, Stefan Reichmuth, 2016-10-11. This sourcebook offers rare insights into a formative period in the modern history of religions. Throughout the late 19th and the early 20th centuries when commercial, political, and cultural contacts intensified worldwide, politics and religions became ever more entangled. This volume offers a wide range of translated source texts from all over Asia, the Middle East, and Europe, thereby diminishing the difficulty of having to handle the plurality of involved languages and backgrounds. The ways in which the original authors, some prominent and others little known, thought about their own religion, its place in the world, and its relation to other religions allows for much needed insight into the shared and analogous challenges of an age dominated by imperialism and colonialism.

How is religion changing in a modern world? What is the future of religion? and addresses them through tangible case studies and observations of contemporary life. Its global perspective reflects the breadth, diversity, and vibrancy of this field. Sylvia Collins Mayo, Kingston University. This is a rich and dynamic introduction to the varieties of religious life and the central issues in the sociology of religion today. It leads the reader through the key ideas and main debates within the field as well as offering in depth descriptions and analysis of topics such as secularization, fundamentalism, Pentecostal Christianity, Buddhism, Hinduism, Islam, atheism, The spiritual marketplace, digital religion, and new religions like Wicca. Development and Religion Matthew Clarke, 2011-01-01 Development and Religion explores how the world's five major religions Hinduism Buddhism Judaism Christianity and Islam understand and practice development through an examination of their sacred texts social teaching and basic beliefs Religious belief is a common human characteristic with

eighty percent of the world's population professing religious faith. Observable in all societies, religious belief is pervasive, profound, persuasive, and persistent. The premise of this book is that despite this, religion has long been ignored within mainstream development paradigms and by development practitioners both locally and at the international level, resulting in sub-optimal development outcomes. Matthew Clarke argues that each religion offers useful insights into various issues concerning development that should be considered by donors, NGOs, and others seeking to improve the lives of the poor. Undergraduate and postgraduate students of development studies, religious studies, and theology will gratefully welcome this highly regarded book.
