Religion Y Relativismo En Wittgenstein:

Religión y relativismo en Wittgenstein Joaquín Jareño Alarcón, 2001 The A to Z of Wittgenstein's Philosophy Duncan Richter, 2010-02-12 Ludwig Wittgenstein 1889 1951 was undoubtedly one of the most important philosophers of the 20th century and perhaps of any century He was also a fascinating charismatic and irritating man His philosophical ability was recognized almost immediately by Bertrand Russell and during his lifetime his work influenced first logical positivism and then ordinary language philosophy Since then it has also become central in post analytical philosophical thought Beyond the world of academic philosophy it has inspired playwrights poets novelists architects filmmakers and biographers The A to Z of Wittgenstein's Philosophy is intended for anyone who wants to know more about the philosophy and the life of this enigmatic thinker The book contains an introductory overview of his life and work a timeline of the major relevant events in and after his life an extensive bibliography and above all an A Z of ideas people and places that have been involved in his philosophy and its reception The dictionary is written with no particular agenda and includes entries on philosophers and others who influenced Wittgenstein those he influenced in turn and some of the main figures in contemporary Wittgenstein scholarship Suggestions for further reading are also included as well as a guide to the literature on Wittgenstein and a bibliography broken down by subject area

Historical Dictionary of Wittgenstein's Philosophy Duncan Richter, 2014-04-04 Ludwig Wittgenstein was the most influential and arguably the greatest philosopher of the 20th century This fact about his influence is not only a matter of how much he influenced people but also of how many people he influenced His early work was taken up by some of the pioneers of analytical philosophy His later work helped spawn another movement within analytic philosophy that of ordinary language philosophy sometimes called Oxford philosophy He is also considered by some to be a key postmodern thinker and an interest in his work is a distinguishing feature of many post analytical philosophers who seek to bridge the gap between analytical and so called continental philosophy This second edition of Historical Dictionary of Wittgenstein's Philosophy covers the history of this philosophy through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries on every aspect of his work This book is an excellent access point for students researchers and anyone wanting to know more about Wittgenstein's philosophy

Dall'Agnol, 2017-02-28 Este libro resultará de interés tanto a lectores no familiarizados con el pensamiento de Wittgenstein como a los que sí lo están Aunque hay evidencias suficientes para concluir que Wittgenstein consideraba que su pensamiento gravitaba entorno a un centro cierto es que fueron muy pocas las páginas y aun las observaciones en que explicitó por decirlo con expresión wittgensteiniana el espíritu de su obra De ahí quizás la escasa atención que su dimensión ética ha concitado en comparación con otros aspectos de esta filosofía de la lógica del lenguaje de la psicología a incluso la metafísica Y de ahí la extrema dificultad de intentar sacar a la luz el significado del pensamiento wittgensteiniano es como intentar precisar la forma y dimensión de un inmenso iceberg del que solo una mínima parte aflora a la superficie **Ludwig**

Wittgenstein Isidoro Reguera, 2002-01-01 **El laberinto del lenguaje** Alejandro Tomasini Bassols, Sabine Knabenschuh de Porta, Luciano Bazzocchi, Cristina Corredor, José María Ariso, Noemí Calabuig Cañestro, 2007 La filosofía analiza parte del presupuesto de que muchos de nuestros errores se deben al uso incorrecto del lenguaje El lenguaje dificulta entender los problemas que planteamos y genera muchas veces laberintos de los que resulta difícil escapar Los problemas no son en ocasiones más que problemas lingüísticos devenidos del uso impropio de las palabras La filosofía analiza propone examinar rigurosamente los términos empleados y las expresiones utilizadas Por esta razón es necesario estudiar las estructuras lingüísticas con el fin de inquirir las posibles paradojas El uso del lenguaje tiene repercusión sobre nuestra forma de entender el mundo Empezar el estudio la evolución seguida por Ludwig Wittgenstein del análisis del lenguaje en su labor laboriosa pero fascinante Por una parte ha obtenido importantes resultados en el plano terapéutico y práctico y por otra su mismo esfuerzo de reagrupar estos resultados surgidos de las investigaciones sobre el lenguaje es cada vez más valioso **Guía**
