Science and the Confucian Religion of Kang Youwei (1858-1927) Zhaoyuan

WAN,2021-11-15 WAN Zhaoyuan analyses how Chinese intellectuals conceived of the relationship between science and religion through in depth examination of the writings of Kang Youwei a prominent political reformer and radical Confucian thinker often referred to by his disciples as the Martin Luther of Confucianism Confronted with the rise of scientism and challenged by the Conflict Thesis during his life among adversarial Chinese New Culture intellectuals Kang maintains a holistic yet evolving conception of a compatible and complementary relationship between scientific knowledge and true religion exemplified by his Confucian religion kongjiao This close analysis of Kang s ideas contributes to a richer understanding of the history of science and religion in China and in a more global context The Illustrated Encyclopedia of Confucianism: A-M Rodney Leon Taylor,Howard Yuen Fung Choy,2005 Covers topics related to the understanding of Chinese Confucianism Includes entries in the following categories arts architecture and iconography astrology cosmology and mythology biographical entries ceremonies practices and rituals concepts dynasties official titles and rulers geography and historical events groups and schools literature language and symbols and texts *Cross-Cultural Reflections on Chinese Aesthetics, Gender, Embodiment and Learning* Eva Kit Wah Man,2020-01-29 This book gathers research and writings that reflect on traditional and current global issues related to art and aesthetics gender perspectives body theories knowledge and learning It illustrates these core dimensions which are bringing together philosophy tradition and cultural studies and laying the groundwork for comparative research and dialogues between aesthetics Chinese philosophies Western feminist studies and cross cultural thought Pursuing an interdisciplinary approach the book also integrates philosophical enquiries with cultural anthropology and contextual studies As implied in the title the main methodologies are cross cultural and comparative studies which touch on performances in art and aesthetics social existence and education and show that philosophical enquiries aesthetical representation and gender politics are simultaneously historical living and contextual The book gathers a wealth of cross cultural reflections on philosophical aesthetics gender existence and cultural traditions The critical thinking within will benefit undergraduates postgraduates and researchers in the area of comparative philosophies It blends academic rigor with personal reflection which is a critical practice in feminist philosophy itself *Redefining Heresy and Tolerance* Hung Tak Wai,2024-08-21 In *Redefining Heresy and Tolerance* Hung Tak Wai examines how the Qing empire governed Muslims and Christians under its rule with a non interventionist policy Manchu emperors adopted a tolerant attitude towards Islam and Christianity as long as political stability and loyalty remained unthreatened However Hung argues that such tolerance had its limitations Since the mid eighteenth century the Qing court intentionally minimised the importance of the Islamic identity Restrictions were imposed on the Muslims external connections with Western Asia The Christian minority was kept distant from politics and the Han majority At the same time Confucian scholars began to acquire a new understanding of religion but they were not encouraged to get in touch with the Muslims and Christians This book demonstrates how from the late eighteenth to the early nineteenth century the Qing government prevented Confucian

scholar bureaucrats from interfering in the religious life of Christians and Muslims and how the Confucians understanding of religion was reshaped during the implementation of such policy in the period This book reveals that a different kind of religious tolerance had already emerged among Sinophone intellectuals before their contact with the West This book goes beyond the assumption of a homogeneous Han society and pays attention to the religious groups that emerged after the seventeenth century which differed from or even contradicted Confucianism and other Chinese religions and it is concerned with how such alien communities influenced the development of Confucianism itself Wang Fan sen Academia Sinica This book significantly enriches our comprehension of how early modern Confucians as adherents of a state public religion engaged with Abrahamic religions By delving into the dynamics of interreligious interaction Redefining Heresy and Tolerance sheds new light on the encounters between Confucianism and the Abrahamic faiths offering fresh insights into the complex religious landscape of Asian culture Huang Chin shing Academia Sinica **All Under Heaven** John H.

Rošker,2021-09-20 This book illuminates the problem of women in Chinese philosophy through the lens of the lives and work of two contemporary Taiwanese female philosophers It takes two approaches that have been relegated quite unfairly to the margins of dominant discourses The first is concerned with the work of women philosophical theorists who are still overshadowed by their male colleagues regardless of where they live their theoretical potential and the value of their research The second approach is related to the question of the role of Taiwanese philosophy in maintaining the continuity of the Chinese intellectual tradition in the second half of the twentieth century The book thus connects these two issues and provides a bridge linking them Although discrimination against female philosophical theorists on the one hand and the failure to recognize the important contribution of Taiwanese philosophy to the development of modern Chinese philosophy on the other seem at first glance to have little in common both harbor a problem that has its roots in discourses of exclusion emanating from the political historical and social inequalities associated with power structures Confucianism as Religion Yong Chen,2012-11-08 On the Rhetoric of Defining Confucianism as a Religion tackles the perennially controversial question of whether Confucianism is a religion and proposes a holistic and contextual approach to the issue The Oxford Handbook of Confucianism Jennifer Oldstone-Moore,2023 Comprised of thirty eight original essays by experts from a wide range of disciplines the Oxford Handbook of Confucianism covers the Confucian tradition chronologically geographically and topically through textured and innovative examinations of foundational subjects and emerging topics in Confucian studies *Confucius and Confucianism* Lee Dian Rainey,2010-04-09 This comprehensive introduction explores the life and teachings of Confucius and development of Confucian thought from ancient times to the present today Demonstrates the wisdom and enduring relevance of Confucius s teachings drawing parallels between our 21st century society and that of China 2 500 years ago where government corruption along with social economic and technical changes led thinkers to examine human nature and society Draws on the latest research and incorporates interpretations of Confucius and his works by Chinese and Western scholars throughout the centuries Explores how Confucius s followers expanded and reinterpreted his ideas after his death and how this process has continued throughout Chinese history Seamlessly links Confucius with our modern age revealing how his teachings have become the

basis of East Asian culture and influenced the West

Sino-Christian Studies in China YANG Huilin, Daniel H. N.

YEUNG, 2009-05-27 In the 1980s there was a wave of introducing western thoughts in the academia of Mainland China. The significance of this movement is regarded by some Chinese scholars as another Enlightenment since the May 4th movement of 1919. In this movement there was a small group of Chinese scholars who thought that subtle interaction between Christian thought and western culture and academic should be noticed. The aim of this book is to report this academic movement which is still active and dynamic today. This book includes 22 essays written by authors from Mainland China and overseas who may be intra or extra ecclesia. But all of them are prominent in their respective geographical and academic area. This is the first book introducing to the English speaking world the origin and development of Sino-Christian Studies and Sino-Christian Theology systematically.
