Lorenzen, 2004 This volume brings together eleven key essays that debate how the religious and worldly aims of religions movements in premodern South Asia have been linked and how their ideologies social bases and organizational structures both continued and changed over the course of time

Lorenzen, 2005 It provides a picture fascinating of some of the religious movements in Indian history The book Review This book addresses a range of debates regarding religious movements in the medieval and early modern periods Eleven key essays debate the linkages between the religious and worldly aims of different movements and the continuity and change in their ideologies social bases and organizational structures over time They present divergent views on important issues such as the relationship between caste and the sect the idea of renunciation the role of the Sufis in the conversion to Islam in medieval India and the ways in which many South Asian popular movements emerged and gathered force In an insightful introduction by David Lorenzen each debate is discussed in its historical and theoretical context The influence of Dumont Engels and Weber on our understanding of the nature of religious movemtns in and beyond the South Asia is also analysed Part of the pr estigious Debates in Indian History and Society series this volume will be useful for students scholars and teachers of medieval and early modern India as well as those interested in religious studies comparative religion sociology and anthropology

The Negative Theology of Nund Rishi Abir Bazaz, 2024-06-27 An extensive critical study of the poetry of Nund Rishi a revered and renowned Sufi of medieval Kashmir

The Problem with Interreligious Dialogue Muthuraj Swamy, 2016-03-24 Muthuraj Swamy provides a fresh perspective on the world religions paradigm and interreligious dialogue By challenging the assumption that world religions operate as essential entities separate from the lived experiences of practitioners he shows that interreligious dialogue is in turn problematic as it is built

on this very paradigm and on the myth of religious conflict Offering a critique of the idea of dialogue as it has been advanced by its proponents such as religious leaders and theologians whose aims are to promote inter religious conversation and understanding the author argues that this approach is elitist and that in reality people do not make sharp distinctions between religions nor do they separate political economic social and cultural beliefs and practices from their religious traditions Case studies from villages in southern India explore how Hindu Muslim and Christian communities interact in numerous ways that break the neat categories often used to describe each religion Swamy argues that those who promote dialogue are ostensibly attempting to overcome the separate identities of religious practitioners through understanding but in fact they re enforce them by encouraging a false sense of separation The Problem with Interreligious Dialogue Plurality Conflict and Elitism in Hindu Christian Muslim Relations provides an innovative approach to a central issue confronting Religious Studies combining both theory and ethnography *Divine Sounds from the Heart—Singing Unfettered in their Own Voices* Rekha Pande,2010-09-13 Recent years have seen a sea change in the way history is written and also in the way our conceptions of the past are being rewritten In traditional historiography women s articulation is often marginalized and dominated by male voices Through centuries of patriarchal control women negotiated many layers and levels of existence working out different forms of resistance which have often gone unnoticed Bhakti was one such medium Religion provided the space in the medieval period and women saints embraced bhakti to define their own truths in voices that question society family and relationships For all these women bhaktas the rejection of the male power that they were tied to in subordinate relationship became the terrain for struggle self assertion and alternative seeking Most of these women lived during the period from 12th to 17th Century While the dominant mode of worship in bhakti was prostration to a deity like a feudal lord the women bhaktas idea of God as a lover a husband and a friend came as a breath of fresh air The individual outpourings and the voices of these women who had the courage to sing unfettered in their own voices refused to melt in the din of the feudal scene which was largely patriarchal This book will be useful to scholars interested in Feminist History Comparative Religion and Asian Studies The sensitive and rigorous research will be of great help to young scholars interested in embarking on a journey to discover religious history especially with regards to women s history in the South Asian context

The Many Colors of Hinduism Carl Olson,2007 The Many Colors of Hinduism is the first introductory text to provide a balanced view of this rich religious tradition acknowledging the full range of its many competing and even contradictory aspects Utilizing a thematic historical approach Carl Olson draws on a wide array of textual evidence the fieldwork of anthropologists in close contact with insiders and voices of thinkers ranging from Indologist Alf Hiltebeitel to Cambridge scholar Julius Lipner The result is a narrative approach that offers a view of Hinduism that emulates the storytelling nature of the religion itself *If All the World Were Paper* Tyler W. Williams,2024-10-01 How do writing and literacy reshape the ways a language and its literature are imagined *If All the World Were Paper* explores this question in the context of Hindi the

most widely spoken language in Southern Asia and the fourth most widely spoken language in the world today Emerging onto the literary scene of India in the mid fourteenth century the vernacular of Hindi quickly acquired a place alongside classical languages like Sanskrit and Persian as a medium of literature and scholarship The material and social processes through which it came to be written down and the particular form that it took as illustrated storybooks loose leaf textbooks personal notebooks and holy scriptures played a critical role in establishing Hindi as a language capable of transmitting poetry erudition and even revelation If All the World Were Paper combines close readings of literary and scholastic works with an examination of hundreds of handwritten books from precolonial India to tell the story of Hindi literature s development and reveal the relationships among ideologies of writing material practices and literary genres Tyler W Williams forcefully argues for a new approach to the literary archive demonstrating how the ways books were inscribed organized and used can tell us as much about their meaning and significance as the texts within them This book sets out a novel program for engaging with the archive of Hindi and of South Asian languages more broadly at a moment when much of that archive faces existential threats *The Middle East & South Asia Folklore Bulletin* ,2004 **Moving Worlds** ,2005 **The Book Review** ,2004 *Guide to Indian Periodical Literature* ,2004 **From Ancient to Modern** Ishita Banerjee-Dube,Saurabh Dube,2009 This volume explores different aspects of religion in the context of identity formation and articulation of power It deals with critical issues like literature religious practitioners internal differentiation in the various religious traditions with emphasis on rebel traditions caste class customs interpretations **Muslim Feminism and Feminist Movement: South Asia. v. 1.
