

Religious Liberty in America: History and Prospects. By Glenn T. Miller. Philadelphia: Westminster Press, 1976. 156 pages. \$4.25 (paper).

A compact overview of the American process from disestablishment to religious liberty. The temptation to treat the question of religious liberty as synonymous with the (political) question of church-state relations is to be resisted. Religious liberty, which Miller views from a religious standpoint, specifically, that of a Baptist educated in the liberal Protestant tradition, is the product of the interaction of God with man, man's willingness to realize his freedom and God's willingness to grant it (p. 22).

Beginning with the Southern Anglican establishment through New England Puritanism into Rhode Island and Pennsylvania, Miller finds the prophetic clues to problems in the future tradition in Pennsylvania: informal establishment in the rise of denominationalism.

The Revolutionary and New Nation eras are entitled "The Age of Conscience," where Enlightenment Religion dominates. This is the day of the deists who, incidentally, are not put down with the customary harshness. This phase of Miller's study culminates in "The Beginning of the American Style of Faith."

The time from 1820 to 1870 comes as a period of change "from conscience to empire." Biblical doctrines of election and the Kingdom of God will do much to shape American nationality. Not only are religion and patriotism closely bonded in a Christian America, but the informal establishment will continue to require Jews to remain in a second class status unable, for example, to hold office in Maryland before 1825, or in North Carolina before 1868, or even to vote in New Hampshire before 1876.

Protestant-Catholic conflicts center on education. Miller concludes "The question of religion and education is one of the most vexing in the history of American religious liberty" (p. 110).

The final phase, called "Nationalism, Pluralism and Secularization," focuses at times on Supreme Court decisions. This chapter provides only glimpses of the "prospects" promised by the title but submerged in the final summary: "Recent Changes in American Faith."

The recent changes refer only to new forces in Catholicism and Protestantism. Surely more could have been noticed. Miller is right to find the problems of religious liberty now lie mostly in the area of "informal establishment." But would Enlightenment Religion (alias secularization?) become the new informal establishment? Miller could have avoided this trap by showing how deism represents a refusal to place any religion even Enlightenment Religion in political employ.

Religion-and-education issues are confused by the theoretical (at least) possibility of a "purely secular" (secularistic?) interpretation of history. This confusion is compounded by the definition of pluralism merely as "a variety of opinions that are open to an individual in a particular society" (p. 121). This is not the religious pluralism of America. It is a vague concept which indirectly supports his secularization thesis: the gradual elimination of overt religious perspectives from politics, education and the arts, i.e., dechristianization (p. 122), the culprit for which is the Supreme Court (p. 149). Miller recognizes that "teaching about religion" is a viable approach. This approach contradicts the

Religious Liberty In America History And Prospects:

Enjoying the Tune of Phrase: An Mental Symphony within **Religious Liberty In America History And Prospects**

In some sort of taken by screens and the ceaseless chatter of immediate conversation, the melodic beauty and mental symphony created by the published term often disappear in to the back ground, eclipsed by the constant noise and distractions that permeate our lives. But, located within the pages of **Religious Liberty In America History And Prospects** a charming fictional prize full of natural feelings, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, this charming masterpiece conducts viewers on an emotional journey, well unraveling the concealed tunes and profound affect resonating within each cautiously constructed phrase. Within the depths of the touching assessment, we will examine the book is key harmonies, analyze their enthralling publishing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
