Reluctant Prophet Harald Tandrup,1939 **Reluctant Prophets and Clueless Disciples** Robert Darden,2005-02-01

It was once said that all a person has to do to realize God has a very good sense of humor is to look at a platypus The same sentiment applies to the Bible The Bible often seems like foreign territory not only for students encountering it in introductory classes but also for those who have spent many years in church To many people it is an intimidating collection of rules lists and theological arguments But in reality most of the Bible is made up of fascinating stories Sometimes they re funny sometimes they re weird sometimes they re inspiring but they re never dull This college level introduction invites students into biblical studies through creative humorous retellings and a few cartoons here and there of the basic biblical narratives The best way to get into the Bible says Robert F Darden is to get to know its stories In this new approach to introducing the Bible to students Darden covers the major biblical stories and characters retelling them in such a way as to bring out their original humor and pathos and inviting the student to encounter them more fully by moving into the text itself Click here to listen to Terri Gross s interview with Robert Darden on NPR s Fresh Air about the Black Gospel Music Restoration Project Darden runs the project at Baylor University where he is a journalism professor The purpose of the project is to identify acquire preserve record and catalogue the most at risk music from the black gospel music tradition primarily between 1945 and 1970 **The Reluctant Prophet** James Kirsch,1973 [Jonah, God's Reluctant Prophet!](#) Trepanier Roger Henri (author),1901 [The Hebrew Prophets](#) Jack R. Intercessions for Mass Mary Grace Melcher,2013 Inspired by her daily contemplation and meditation on the Scriptures Carmelite Sister Mary Grace Melcher offers this book of deeply meaningful prayers of the faithful for every day of the year Cycles A B and C for Sundays and the two year cycle for weekdays are all included These beautiful intercessions echo the grace of the day indicated by the Scripture readings and have been prayed in her monastic community for years Enrich your community's liturgy with these beautiful and inspiring intercessions Mary Grace Melcher OCD is a cloistered Carmelite nun at the Carmelite Monastery of Terre Haute Indiana She has been a member there since 1981 **The Gospel According to Flannery O'Connor** Jordan Cofer,2014-04-24 Jordan Cofer examines the influence of the Bible upon Flannery O'Connor's fiction While there are many studies exploring how her Catholicism affected her fiction this book argues that O'Connor is heavily influenced by the Bible itself Specifically it explicates the largely undocumented ways in which she used the Bible as source material for her work It also shows that rhetorically many of O'Connor's stories and/or characters are based upon biblical models Furthermore Cofer explains how O'Connor's stories engage their biblical analogues in unusual unexpected and sometimes grotesque ways as her stories manage to convey essentially the same message as their biblical counterparts Throughout O'Connor's work there are significant biblical allusions which have been neglected or previously undiscovered This book acknowledges her biblical source material so readers can understand the impact it had on her fiction Cofer argues that readers can better appreciate her work by examining how her stories are often grounded in specific biblical texts which she similarly distorts exaggerates and subverts in order to shock and teach readers Simply put O'Connor doesn't merely reference these biblical stories she rewrites them Connections: A Lectionary Commentary for Preaching and Worship Thomas G. Long,2019-04-23 Designed to empower preachers as they lead their congregations to connect their lives to Scripture Connections features a broad set of interpretive tools that provide commentary and worship aids on the Revised Common Lectionary For each worship day within the three year lectionary cycle the commentaries in Connections link the

individual lection reading with Scripture as a whole as well as to the larger world In addition Connections places each Psalm reading in conversation with the other lections for the day to highlight the themes of the liturgical season Finally sidebars offer additional connections to Scripture for each Sunday or worship day This nine volume series is a practical constructive and valuable resource for preachers who seek to help congregations connect more closely with Scripture This volume covers Year C for the season after Pentecost

The Politics of Yahweh John C. Nugent, 2011-11-08 John Howard Yoder is most famous for arguing in *The Politics of Jesus* that a sound reading of the New Testament demonstrates the abiding relevance of Jesus to social ethics However it is seldom acknowledged that Yoder makes essentially the same argument with regard to the Old Testament Throughout his extensive writings Yoder offers a provocative interpretation of the Old Testament that culminates in the way of Jesus and establishes the ethical ecclesiological and historiographical continuity of the entire biblical canon In *The Politics of Yahweh* presented as a prequel to *The Politics of Jesus* John C Nugent makes Yoder's complete Old Testament interpretation accessible in one place for the first time Nugent does not view Yoder's interpretation as flawless Rather Nugent moves beyond summary to offer honest critique and substantial revision His constructive proposal which stands in fundamental continuity with the work of Yoder is likely to provoke thought from theologians biblical scholars and ethicists Even at points where readers disagree with some of his and Yoder's interpretations they will be challenged to explore new perspectives and rethink common assumptions concerning the diverse and often confusing issues that arise from sustained reflection on the Old Testament

Strangers and Pilgrims Catherine A. Brekus, 2000-11-09 Margaret Meuse Clay who barely escaped a public whipping in the 1760s for preaching without a license Old Elizabeth an ex slave who courageously traveled to the South to preach against slavery in the early nineteenth century Harriet Livermore who spoke in front of Congress four times between 1827 and 1844 these are just a few of the extraordinary women profiled in this the first comprehensive history of female preaching in early America Drawing on a wide range of sources Catherine Brekus examines the lives of more than a hundred female preachers both white and African American who crisscrossed the country between 1740 and 1845 Outspoken visionary and sometimes contentious these women stepped into the pulpit long before twentieth century battles over female ordination began They were charismatic popular preachers who spoke to hundreds and even thousands of people at camp and revival meetings and yet with but a few notable exceptions such as Sojourner Truth these women have essentially vanished from our history Recovering their stories Brekus shows forces us to rethink many of our common assumptions about eighteenth and nineteenth century American culture

Smith,2009-04 This Everyone book attempts to the guide the reader through the more essential steps of understanding the basic principles or elements that constitute the daily work of investigators in fields relating to computing and electrical loss The chapter s are meant to set a foundation for people who may want to enter the field of investigations or are at the beginning of a career in the area or are seasoned investigators looking to delve into more contemporary areas of investigations or for persons that are just interested

in reading about matters or topics that are currently revealed in differing forms of media such as in the successful TV drama series CSI The book is formatted sequentially so that the reader can review important legal matters that are a part of most investigations and then go on to peruse the elements of basic electrical principles as they apply to certain types of fire and fault losses These beginning chapters set a broad stage for the various areas of computing that follow The book does not necessarily have to be read in the order that it was written In a sense the reader may choose to use the book as a reference book The chapters were written for the most part to be able to stand alone as monographs There are many chapters that review a broad range of more common topics and there are chapters concerned with more esoteric areas of computing and electronics Some of these chapters discuss the high tech methods that are sometimes deployed by thieves terrorists pedophiles stalkers etc All of the co authors reflect their experience as individuals that work closely with the criminal justice and civil institutions
