Mortal Secrets Frank Tallis, 2024-03-26 A chronicle of Vienna s Golden Age and the influence of Sigmund Freud on the modern world by a clinical psychologist whose mystery novels form the basis of PBS s Vienna Blood series Some cities are like stars When the conditions are right they ignite and burn with such fierce intensity that they outshine every other city on the planet Vienna was one such city and at the beginning of the twentieth century was the birthplace of the modern mind and the way we live today Long coffee menus and celebrity interviews are Viennese inventions Modern buildings were appearing in Vienna long before they started appearing in New York and the idea of practical modern home design originated in the work of Viennese architect Adolf Loos The place however where one finds the most indelible and profound impression of Viennese influence is inside your head How we think about ourselves has been largely determined by Vienna s most celebrated resident Sigmund Freud In *Mortal Secrets* Frank Tallis brilliantly illuminates Sigmund Freud and his times taking readers into the mind of one of the most influential thinkers of the twentieth century chronicling the evolution of psychoanalysis and opening up Freud s life to embrace the Vienna he lived in and the lives of the people he mingled with from Gustav Klimt to Arnold Sch nberg Egon Schiele to Gustav Mahler *Mortal Secrets* is a thrilling book about a heady time in one of the world s most beautiful cities and its long shadow that extends through the twentieth century up until the present day **Women, Horse Sports and Liberation** Erica Munkwitz, 2021-07-13 Shortlisted for the 2022 Lord Aberdare Literary Prize This book is the first full length scholarly examination of British women s involvement in equestrianism from the eighteenth through the twentieth centuries as well as the corresponding transformations of gender class sport and national identity in Britain and its Empire It argues that women s participation in horse sports transcended limitations of

class and gender in Britain and highlights the democratic ethos that allowed anyone skilled enough to ride and hunt from chimney sweep to courtesan Furthermore women s involvement in equestrianism reshaped ideals of race and reinforced imperial ideology at the zenith of the British Empire Here British women abandoned the sidesaddle which they had been riding in for almost half a millennium to ride astride like men thus gaining complete equality on horseback Yet female equestrians did not seek further emancipation in the form of political rights This paradox of achieving equality through sport but not through politics shows how liberating sport was for women into the twentieth century It brings into question what emancipation meant in practice to women in Britain from the eighteenth through twentieth centuries This is fascinating reading for scholars of sports history women s history British history and imperial history as well as those interested in the broader social gendered and political histories of the nineteenth and twentieth centuries and for all equestrian enthusiasts

Austria 1867-1955 John W. Boyer, 2022 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance *Passage works* Patricia Allmer, John Sears, 2025-02-25 *Passage Works* is the first book length English language critical analysis of the transdisciplinary work of the Austrian film maker writer and artist Ruth Beckermann b 1952 Vienna Beckermann s works interrogate identity and

geography as formations of the intersections between the past and the contemporary Taking as her central topics Austria and its history and politics her own identity as a Jewish woman and the contemporary global geopolitics of migration and displacement Beckermann develops wider meditations in film art and writing on the persistence of European memory and the meanings of Europe itself on borders migrations and identities on memories traumas and traditions on the image as marker of presence and absence repository of the traces of historical violence and on the passage as metaphor for a range of physical psychological and ideological movements defining the complexities of contemporary cosmopolitan identities
