Fragments of an Autobiography Felix Moscheles,1899

German-Jewish Cultural Identity from 1900 to the Aftermath of the First World War Elisabeth Albanis,2013-04-09 By illustrating the quintessentially different self perceptions of three German writers of Jewish background all born in or around 1880 in Berlin this book examines a range of German Jewish identities in a socio cultural context in Wilhelmine Germany Moritz Goldstein 1880 1977 the conflict of his dual identity and the interplay between being a German writer and a cultural Zionist is covered first Particular attention is given to the genesis of his essay Deutsch j discher Parna with its call for Jews to vacate their seats in German literary culture The range of positions unfolding in the debate following its publication in Der Kunstwart in 1912 serves to illustrate the spectrum of German Jewish self definition at the time In the second part the writings of Julius Bab 1880 1955 are examined in so far as they shed light on his advocacy of a synthesis of Deutschtum and Judentum The far side of the spectrum of German Jewish self definition is represented by Ernst Lissauer 1882 1937 who propagated complete assimilation considering the Jewish element as an obstacle which had to be overcome on the road to Deutschtum This study depicts how external cultural and political influences shaped the transformation of their ideas of what it meant to be Jewish in Germany and how they responded to increasing anti Semitism By recognising the way in which the individual s cultural identity was constantly refashioned in the face of external challenges a fuller understanding of the evolving self perception of German Jews is reached

British Murder Mysteries, 1880-1965 Laura E. Nym Mayhall,Elizabeth Prevost,2022-08-09 British Murder Mysteries 1880 1965 Facts and Fictions conceptualizes detective fiction as an archive i e a trove of documents and sources to be used for historical interpretation By framing the genre as a shifting set of values definitions and practices the book historicizes the contested meanings of analytical categories like class race gender nation and empire that have been applied to the forms and functions of detection Three organizing themes structure this investigation fictive facticity genre fluidity and conservative modernity This volume

thus shows how British detective fiction from the late nineteenth to the mid twentieth century both shaped and was shaped by its social cultural and political contexts and the lived experience of its authors and readers at critical moments in time

Labour in Crisis Neil Riddell, 1999 James VI of Scotland and I of England participated in the burgeoning literary culture of the Renaissance not only as a monarch and patron but as an author in his own right publishing extensively in a number of different genres over four decades As the first monograph devoted to James as an author this book offers a fresh perspective on his reigns in Scotland and England and also on the inter relationship of authorship and authority literature and politics in the Renaissance Beginning with the poetry he wrote in Scotland in the 1580s it moves through a wide range of his writings in other genres including scriptural exegeses political social and theological treatises and printed speeches concluding with his manuscript poetry of the early 1620s The book combines extensive primary research into the preparation material form and circulation of these varied writings with theoretically informed consideration of the relationship between authors texts and readers The discussion thus explores James s responses to and interventions in a range of literary political and religious debates and reveals the development of his aims and concerns as an author Rickard argues that despite the King s best efforts to the contrary his writings expose the tensions and contradictions between authorship and authority This book will be of interest to scholars and students of the reign of James VI and I the literary and political cultures of late sixteenth century Scotland and early seventeenth century England the development of notions of authorship and the relationship between literature and politics

Witcraft Jonathan Rée, 2019-08-20 An ambitious new history of philosophy in English that broadens the canon to include many lesser known figures Ludwig Wittgenstein once wrote that philosophy should be written like poetry But philosophy has often been presented more prosaically as a long trudge through canonical authors and great works But what Jonathan R e asks if we instead saw the history of philosophy as a haphazard series of unmapped forest paths a mass of individual stories showing endurance inventiveness bewilderment anxiety impatience and good humor Here Jonathan

Re brilliantly retells this history covering such figures as Descartes Locke Kant Hegel Marx Nietzsche Mill James Frege Wittgenstein and Sartre But he also includes authors not usually associated with philosophy such as William Hazlitt George Eliot Darwin and W H Auden Above all he uncovers dozens of unremembered figures puritans revolutionaries pantheists feminists nihilists socialists and scientists who were passionate and active readers of philosophy and often authors themselves Breaking away from high altitude narratives he shows how philosophy finds its way into ordinary lives enriching and transforming them in unexpected ways

An Honourable Englishman Adam Sisman, 2011 Chronicles the life of the acclaimed historian best known for his notorious role in authenticating the forged Hitler Diaries placing his career against a backdrop of the intellectual pressures of his time while offering insight into his acerbic attacks on his colleagues and his highly emotional marriage By the author of *Boswell's Presumptuous Task*

Living the Great Illusion Martin Ceadel, 2009-07-16 The first biography of one of the twentieth century's leading internationalists Sir Norman Angell author of *The Great Illusion* Labour MP and winner of the Nobel Peace Prize which reveals that his life has hitherto been much misrepresented and misunderstood

New Essays on Life Writing and the Body Christopher Stuart, Stephanie Todd, 2009-03-26 In light of materialist revisions of the Cartesian dual self and the increased recognition of memoir and autobiography as a crucial cultural index the physical body has emerged in the last twenty five years as an increasingly inescapable object of inquiry speculation and theory that intersects all of the various subgenres of life writing *New Essays on Life Writing and the Body* thus offers a timely original focused and yet appropriately interdisciplinary study of life writing This collection brings together new work by established authorities in autobiography such as Timothy Dow Adams G Thomas Couser Cynthia Huff and others along with essays by emerging scholars in the field Subjects range from new interpretations of well known autobiographies by Edith Wharton Gertrude Stein and Lucy Grealy as well as scholarly surveys of more recently defined subgenres such as the numerous New Woman autobiographies of the late 19th century adoption narratives and sibling memoirs of the mentally impaired Due to their wide interdisciplinary focus these essays will prove valuable not only to more traditional literary scholars interested in the classic literary autobiography but also to those in Women's Studies Ethnic and African American Studies as well as in emerging fields such as Disability Studies and Cognitive Studies

Lord Robert Cecil Gaynor Johnson, 2016-04-22 Lawyer politician diplomat and leading architect of the League of Nations Robert Cecil 1st Viscount Cecil of Chelwood was one of Britain's most significant statesmen of the twentieth century His views on international diplomacy cover the most important aspects of British European and American foreign policy concerns of the century including the origins and consequences of the two world wars the disarmament movement the origins and early course of the Cold War and the first steps towards European integration His experience of the First World War and the huge loss of life it entailed provoked Cecil to spend his life championing the ethos behind and work of the League of Nations a role for which he was awarded the Nobel Peace Prize in 1937 Yet despite his prominence in the international peace movement

Cecil has never been the focus of an academic biography Cecil has perhaps been judged unfairly due to his association with the League of Nations which has since been generally regarded as a failure However recent academic research has highlighted the contribution of the League to the creation of many of the institutions and precepts that have since the Second World War become accepted parts of the international system not least the United Nations In particular Cecil and his work on arms control lay the basis for understanding this new area of international activity which would bear fruit during the Cold War and after Through an evaluation of Cecil s political career the book also assesses his reputation as an idealist and the extent to which he had a coherent philosophy of international relations This book suggests that in reality Cecil was a Realpolitiker pragmatist whose attitudes evolved during two key periods the interwar period and the Cold War It also proposes that where a coherent philosophy was in evidence it owed as much to the moral and political code of the Cecil family as to his own experiences in politics Cecil s social and familial world is therefore considered alongside his more public life

Theodor Herzl and the Origins of Zionism Ritchie Robertson, Edward Timms, 1997 This volume commemorates Theodor Herzl the Viennese journalist and writer who incongruously founded Zionism as a political movement which led ultimately to the founding of the State of Israel The contributors look at Herzl and seek to place him in historical context In particular they examine his relations with Viennese contemporaries his use of his position as a prominent journalist to obtain audiences with world leaders his negotiations with Germany and Britain to obtain a national territory for the Jews and his attempts to analyze and reshape the Jewish character in his fictional writings

Modern England, 1901-1984 Alfred F. Havighurst, 2004-07-08 The most comprehensive bibliography of printed books articles and standard texts on twentieth century England

Englishness Revisited Floriane Reviron-Piégay, 2020-10-27 What is Englishness Is there such a thing as a national temperament is there a character or an identity which can be claimed to be specifically English This collection of articles seeks to answer these questions by offering a kaleidoscopic vision of Englishness since the eighteenth century a vision that acknowledges stereotypes while at the same time challenging them Englishness is defined in contrast to Britishness the Celtic fringe Scotland in particular Europe and the Continent at large The effects of the Empire and of its loss are examined together with other socio economic factors such as the two World Wars de industrialization and the different waves of immigration Through a careful analysis of the arts literature philosophy historiography cultural and political studies produced in England and on the Continent over the last three centuries a composite image of Englishness emerges somewhere between centre and periphery tradition and innovation transience and timelessness rurality and urbanity commitment and isolation Englishness is thus revealed as a protean concept one which whether it is a historical or political construct a genuine emanation of a national desire or a simulacrum retains its fascination and this volume offers keys to understanding its diverse expressions

Labour and the Free Churches,

1918-1939 Peter Catterall, 2016-10-06 Did the Labour Party in Morgan Phillips famous phrase owe more to Methodism than Marx Were the founding fathers of the party nurtured in the chapels of Nonconformity and shaped by their emphases on liberty conscience and the value of every human being in the eyes of God How did the Free Churches traditionally allied to the Liberal Party react to the growing importance of the Labour Party between the wars This book addresses these questions at a range of levels including organisation rhetoric policies and ideals and electoral politics It is shown that the distinctive religious setting in which Labour emerged indeed helps to explain the differences between it and more Marxist counterparts on the Continent and that this setting continued to influence Labour approaches towards welfare nationalisation and industrial relations between the wars In the process Labour also adopted some of the righteousness of tone of the Free Churches This setting was however changing Dropping their traditional suspicion of the State Nonconformists instead increasingly invested it with religious values helping to turn it through its growing welfare functions into the provider of practical Christianity This nationalisation of religion continues to shape British attitudes to the welfare state as well as imposing narrowly utilitarian and material tests of relevance upon the churches and other social institutions The elevation of the State was not however intended as an end in itself What mattered were the social and individual outcomes Socialism for those Free Churchmen and women who helped to shape Labour in the early twentieth century was about improving society as much as systems

Semi-detached Idealists Martin Ceadel, 2000 Britain's semi detached geographical position has helped to give it the world's strongest peace movement Secure enough from invasions to be influenced by an idealistic approach to international relations unlike most of Europe yet too close to the continent for isolationism to be an option as it was in the United States the country has provided favourable conditions for those aspiring not merely to prevent war but to abolish it The period from the Crimean War to the Second World War marked the British peace movement's age of maturity In 1854 it was obliged for the first time to contest a decision and moreover a highly popular one to enter war It survived the resulting adversity and gradually rebuilt its position as an accepted voice in public life though by the end of the nineteenth century its leading associations such as the Peace Society were losing vitality as they gained respectability Stimulated by the First World War into radicalizing and reconstructing itself through the formation of such associations as the Union of Democratic Control the No Conscription Fellowship and the Fellowship of Reconciliation the movement endured another period of unpopularity before enjoying unprecedented influence during the inter war years the era of the League of Nations Union the Oxford Union's King and country debate the Peace Ballot and the Peace Pledge Union Finally however Hitler discredited much of the agenda it had been promoting the previous century or more This book is the first comprehensive and authoritative study of this subject It covers all significant peace associations and campaigns and is based on an extensive use of archival as well as printed sources Its subject matter is of relevance both to historians of nineteenth and twentieth century British politics and to specialists in international relations interested in the anti realist tradition

Socialism and Foreign

Policy Kenneth E. Miller, 2012-12-06 This book is intended as a contribution to the study of the relation of political ideas and governmental policies. It seeks to examine and evaluate the British Labour Party's early efforts to apply socialist theories to foreign policy actions. Since I have focused on these ideas and events, I have not attempted to take into account happenings on the British domestic front that though important to the Labour Party and the trade unions did not directly affect foreign policy. Nor are matters of imperial or Commonwealth policy considered except as they relate to the development of socialist theories and interpretations or as they influenced Great Britain's relations with other independent states. I must express my appreciation for their assistance to Drs Malcolm Moos, Thomas I. Cook, and Carl B. Swisher under whose direction this project first began at the Johns Hopkins University, to Mrs E. Rickman of the Labour Party's Library, and to Mrs Gladys D. Cremer of the Fabian Society for access to various Labour and socialist materials, to the Rutgers University Research Council for grants in support of some of the research, and to Mrs Edward Teifeld and Mrs Boris Pritsky for the wearisome efforts of typing various versions of the manuscript. The responsibility for errors is of course mine. The book is dedicated to my wife Marilyn who aided so greatly in its preparation, not least by a tactful and appropriate balance of patience and impatience.
