Remembering Tim Horton:

Remembering Tim Horton Craig MacInnis, 2002-12-31 This fifth book in the popular Remembering series gives us an inside look at NHL legend Phil Esposito When we think of Esposito's greatness his two Stanley Cups his record setting 76 goals in the 1970-71 NHL season his heroic role in Team Canada's victory over the Soviets in the 1972 Summit Series much of it seems explained by his ordinariness Lacking the pure athleticism of teammate Bobby Orr or the dazzle of former Chicago linemate Bobby Hull Esposito got by on qualities that seem more in line with the values of the average person a proud work ethic a sense of humour and an unabashed desire to succeed Maybe that's why hockey fans couldn't help but love him The kid who'd been cut from midget and junior teams who'd been written off as too heavy and slow had somehow found the will to persevere and to become a legend Beautifully designed and packed with photos and classic sports journalism the books in the Remembering series are treasures of hockey nostalgia

Remembering Phil Esposito Craig MacInnis, 2003 During an illustrious career Phil Esposito played for the Chicago Black Hawks the Boston Bruins and the New York Rangers On the international front he starred for Team Canada in the classic 1972 Summit Series as the leading individual scorer and inspirational leader of the team that defeated the Soviets in what many fans consider the best eight game series ever played Dozens of vintage photographs and complete stats complete this tribute to an amazing superstar from hockey's golden era

The Logic of Incarnation Neal DeRoo, Brian Lightbody, 2009-01-01 With his *Logic of Incarnation* James K A Smith has provided a compelling critique of the universalizing tendencies in some strands of

postmodern philosophy of religion A truly postmodern account of religion must take seriously the preference for particularity first evidenced in the Christian account of the incarnation of God Moving beyond the urge to universalize which characterizes modern thought Smith argues that it is only by taking seriously particular differences historical religious and doctrinal that we can be authentically religious and authentically postmodern Smith remains hugely influential in both academic discourse and church movements This book is the first organized attempt to bring both of these aspects of Smith s work into conversation with each other and with him With articles from an internationally respected group of philosophers theologians pastors and laypeople the entire range of Smith s considerable influence is represented here Discussing questions of embodiment eschatology inter religious dialogue dogma and difference this book opens all the most relevant issues in postmodern religious life to a unique and penetrating critique

International Sport: A Bibliography, 2000 Richard William Cox,2013-10-23 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new
