Although Americans have shown interest in Italian Baroque art since the eighteenth century Thomas Jefferson bought copies of works by Salvator Rosa and Guido Reni for his art gallery at Monticello and the seventeenth century Bolognese school was admired by painters Benjamin West and John Singleton Copley a widespread appetite for it only took hold in the early to mid twentieth century *Buying Baroque* tells this history through the personalities involved and the culture of collecting in the United States The distinguished contributors to this volume examine the dealers auction houses and commercial galleries that provided access to Baroque paintings as well as the collectors curators and museum directors who acquired and shaped American perceptions about these works including Charles Eliot Norton John W Ringling A Everett Austin Jr and Samuel H Kress These essays explore aesthetic trends and influences to show why Americans developed an increasingly sophisticated taste for Baroque art between the late eighteenth century and the 1920s and they trace the fervent peak of interest during the 1950s and 1960s A wide ranging in depth look at the collecting of seventeenth and eighteenth century Italian paintings in America this volume sheds new light on the cultural conditions that led collectors to value Baroque art and the significant effects of their efforts on America's greatest museums and galleries In addition to the editor contributors include Andrea Bayer Virginia Brilliant Andria Derstine Marco Grassi Ian Kennedy J Patrice Marandel Pablo Perez d Ors Richard E Spear and Eric M Zafran **Important Italian Baroque Paintings, 1600-1700**, 1984 **Getty Research Journal** Gail

**Valentin de Boulogne** Annick Lemoine, Keith Christiansen, 2016-10-07 Following Caravaggio's death in 1610, the French artist Valentin de Boulogne (1591-1632) emerged as one of the great champions of naturalistic painting. The eminent art historian Roberto Longhi honored him as the most energetic and passionate of Caravaggio's naturalist followers. In Rome, Valentin, who loved the tavern as much as the painter's palette, fell in with a rowdy confederation of artists but eventually received commissions from some of the city's most prominent patrons. It was in this artistically rich but violent metropolis that Valentin created such masterworks as a major altarpiece in Saint Peter's Basilica and superb renderings of biblical and secular subjects until his tragic death at the age of forty-one cut short his ascendant career. With discussions of nearly fifty works representing practically all of his painted oeuvre, Valentin de Boulogne: Beyond Caravaggio explores both the artist's superlative depictions of daily life and the tumultuous context in which they were produced. Essays by a team of international scholars consider his key attributions to European painting, his devotion to everyday objects and models from life, his technique of staging pictures with the immediacy of unfolding drama, and his place in the pantheon of French artists. An extensive chronology surveys the rare extant documents that chronicle his biography, while individual entries help situate his works in the contexts of his times. Rich with incident and insight and beautifully illustrated in Valentin's complex, suggestive paintings, Valentin de Boulogne: Beyond Caravaggio reveals a seminal artist, a practitioner of realism in the seventeenth century who prefigured the naturalistic modernism of Gustave Courbet and Edouard Manet two centuries later.

Olszewski, 2004 The Inventory of Paintings of Cardinal Pietro Ottoboni 1667-1740 is the study of the inventory of more than 500 art works assembled on the death of Cardinal Pietro Ottoboni, who had been vice-chancellor of the Church for fifty years. The cardinal's commissions are distinguished from the 387 paintings inherited from his great uncle Pope Alexander VIII in 1691. The cardinal's taste and patronage are characterized from approximately 100 works identified in modern collections. Other archival information, diary accounts, artists' biographies, testaments, and guidebooks are consulted for insights into the cardinal's collecting habits.
