Patrick Edward Charvet, 1967 *The Apparelling of Truth* Kevin J. McGinley, Nicola Royan, 2010-01-08 Prepared to honour
the work of R J Lyall this collection of essays offers new perspectives on the literature and culture of the reign of James VI
from his accession as an infant to the throne of Scotland through the Union of the Crowns to his final years as king of Great
Britain Its emphasis is on James's reign as a whole stressing the continuities in literary culture throughout the time of his
rule rather than the more familiar narrative of disjunction caused by his accession to the English throne in the 1603 Union of
Crowns In addition the collection extends its focus beyond a concentration on the environment of James's court to situate the

literature of his reign in terms of both regional and international contexts The essays range widely in their approaches and cover topics as diverse as book history and printing textual scholarship and editing language rhetoric and prosody gender attitudes in James's reign travel writing and colonial contexts Latin literary culture and courtly culture and the politics of literary representation Such variety is also evident in the languages discussed which include Scots English Latin and French in the generic range of the subject texts from epic poetry to travel writing and in the writers discussed from the very familiar such as John Knox and Robert Aytoun to the currently less well known such as William Lithgow and Thomas Hudson All the contributors are respected scholars in the discipline including some of the most senior figures in the field Taken as a whole this collection is the most extensive and varied treatment of Scottish literary culture of this period to date and will be a key collection for all students and specialists in the field

Writing the Nation in Reformation England, 1530-1580 Cathy Shrank, 2006-09-28 Writing the Nation in Reformation England offers a major re-evaluation of English writing between 1530 and 1580 Studying authors such as Andrew Borde John Leland William Thomas Thomas Smith and Thomas Wilson Cathy Shrank highlights the significance of these decades to the formation of English nationhood and examines the impact of the break with Rome on the development of a national language literary style and canon As well as demonstrating the close relationship between literary culture and English identities it reinvests Tudor writers with a sense of agency As authors counsellors and thinkers they were active citizens participating within and helping to shape a national community In the process their works were also used to project an image of themselves as authors playing and fitted to play their part in the public domain In showing how these writers engaged with and promoted concepts of national identity the book makes a significant contribution to our broader understanding of the early modern period demonstrating that nationhood was not a later Elizabethan phenomenon and that the Reformation had an immediate impact on English culture before England emerged as a Protestant nation

British Travellers and the Encounter with Britain, 1450-1700 John Cramsie, 2015 Encounters with a multicultural Britain in the Tudor and Stuart periods written with an eye to debates about immigration and ethnicity in today's Britain This book recovers the encounter with a multicultural Britain by British travellers in the Tudor and Stuart periods When William Camden writing in the sixteenth century set out to write the history of Britannia he deliberately took to the roads to discover it first hand and those diverse cultures guided and informed his journeys Here John Cramsie offers original perspectives on Camden's multicultural Britain through the study of British travellers and their

narratives We meet characters such as the Tudor traveller John Leland who intended to tell the peoples of England and Wales about themselves chronicle how they came to settle the towns villages valleys and mountaintops they called home record the marks they left in the landscape and celebrate the noble histories and cultures they created Dozens eventually hundreds of Britons shared the same passion to meet their island neighbours and relate their experiences The individuals studied in this book include actual as well as armchair travellers and those who blurred the boundaries between them Their letters diaries journals and histories range from the epic poignant and matter of fact to the exotic preposterous and hateful the sources include actual and imaginative narratives and those which combined both elements Travellers painted Britain with in Leland s words native colours that were rich vibrant and above all complex Their remarkable journeys are the story of how Britons over two centuries met interacted and attempted or not to understand one another Written with an eye to debates about immigration and ethnicity in today s Britain the book emphasizes the long history of making and remaking the island s cultural mosaic The encounter with Britain s native colours has been a burden of history and opportunity for millennia not simply for our own times JOHN CRAMSIE is Associate Professor Department of History Union College NY [English Metrical Psalms](#) Rivkah Zim, 2011-02-17 This 1987 book was the first full scale study of English metrical Psalms to be published in the twentieth century
