Living on the Edge in Leonardo's Florence Gene Brucker,2005-03-14 In *Living on the Edge in Leonardo's Florence* an internationally renowned master of the historian's craft provides a splendid overview of Italian history from the Black Death to the rise of the Medici in 1434 and beyond into the early modern period Gene Brucker explores those pivotal years in Florence and ranges over northern Italy with forays into the histories of Genoa Milan and Venice The ten essays three of which have never before been published exhibit Brucker's graceful intelligence his command of the archival sources and his ability to make history accessible to anyone interested in this place and period Whether he is writing about a case in the criminal archives about a citation from Machiavelli or the concept of modernity the result is the same Brucker brings the pulse of the period alive Five of these essays explore themes in the premodern period and delve into Italy's political social economic religious and cultural development Among these pieces is a lucid synoptic view of the Italian Renaissance The last five essays focus more narrowly on Florentine topics including a fascinating look at the dangers and anxieties that threatened Florence in the fifteenth century during Leonardo's time and a mini biography of Alessandra Strozzi whose letters to her exiled sons contain the evidence for her eventful life *From Near and Far* Tyler Stovall,2022-12 From

Near and Far relates the history of modern France from the French Revolution to the present. Noted historian Tyler Stovall considers how the history of France interacts with both the broader history of the world and the local histories of French communities, examining the impacts of Karl Marx, Ho Chi Minh, Paul Gauguin, and Josephine Baker alongside the rise of haute couture and the contemporary role of hip hop. From Near and Far focuses on the interactions between France and three other parts of the world: Europe, the United States, and the French colonial empire. Taking this transnational approach to the history of modern France, Stovall shows how the theme of universalism so central to modern French culture has manifested itself in different ways over the last few centuries. Moreover, it emphasizes the importance of narrative to French history that historians tell the story of a nation and a people by bringing together a multitude of stories and tales that often go well beyond its boundaries. In telling these stories, From Near and Far gives the reader a vision of France both global and local at the same time.

Florence in the Early Modern World Nicholas Scott Baker, Brian J. Maxson, 2019-06-20 Florence in the Early Modern World offers new perspectives on this important city by exploring the broader global context of the fifteenth and sixteenth centuries within which the experience of Florence remains unique. By exploring the city's relationship to its close and distant neighbours, this collection of interdisciplinary essays reveals the transnational history of Florence. The chapters orient the lenses of the most recent historiographical turns perfected in studies on Venice, Rome, Bologna, Naples, and elsewhere towards Florence. New techniques such as digital mapping alongside new comparisons of architectural theory and merchants in Eurasia provide the latest perspectives about Florence's cultural and political importance before, during, and after the Renaissance. From Florentine merchants in Egypt and India through actual and idealized military ambitions in the sixteenth-century Mediterranean to Tuscan humanists in late medieval England, the contributors to this interdisciplinary volume reveal the connections Florence held to early modern cities across the globe. This book steers away from the historical narrative of an insular Renaissance Europe and instead identifies the significance of other global influences. By using Florence as a case study to trace these connections, this volume of essays provides essential reading for students and scholars of early modern cities and the Renaissance.

involvement in Atlantic slave holding *The Politics of Water in the Art and Festivals of Medici Florence* Felicia M. Else, 2018-07-27 This book tells the story of one dynasty's struggle with water to control its flow and manage its representation. The role of water in the art and festivals of Cosimo I and his heirs Francesco I and Ferdinando I de Medici informs this richly illustrated interdisciplinary study. Else draws on a wealth of visual and documentary material to trace how the Medici sought to harness the power of Neptune whether in the application of his imagery or in the control over waterways and maritime frontiers as they negotiated a place in the unstable political arena of Europe and competed with foreign powers more versed in maritime traditions and aquatic imagery.

Itineraries and Languages of Madness in the Early Modern World Mariana Labarca, 2021-07-05 Drawing on a wide range of sources including interdiction procedures, records of criminal justice, documentation from mental hospitals and medical literature, this book provides a comprehensive study of the spaces in which madness was recorded in Tuscany during the eighteenth century. It proposes the notion of itineraries of madness which, intended as an heuristic device, enables us to examine records of madness across the different spaces where it was disclosed, casting light on the connections between how madness was understood and experienced, the language employed to describe it, and public and private responses devised to cope with it. Placing the emotional experience of the Tuscan families at the core of its analysis, this book stresses the central role of families in the shaping of new understandings of madness and how lay notions interacted with legal and medical knowledge. It argues that perceptions of madness in the eighteenth century were closely connected to new cultural concerns regarding family relationships and family roles which resulted in a shift in the meanings of and attitudes to mental disturbances.

The Routledge History of the Domestic Sphere in Europe Joachim Eibach, Margareth Lanzinger, 2020-12-29 This book addresses the multifaceted history of the domestic sphere in Europe from the Age of Reformation to the emergence of modern society. By focusing on daily practice, interaction and social relations, it shows continuities and social change in European history from an interior perspective. The Routledge History of the Domestic Sphere in Europe contains a variety of approaches from different regions that each pose a challenge to commonplace views such as the emergence of confessional cultures of private life and of separate spheres of men and women. By analyzing a plethora of manifold sources including diaries, court records, paintings and domestic advice literature, this volume provides an overview of the domestic sphere as a location of work and consumption, conflict and cooperation, emotions and intimacy, and devotion and education. The book sheds light on changing relations between spouses, parents and children, masters and servants, or apprentices and humans and animals or plants, thereby exceeding the notion of the modern nuclear family. This volume will be of great use to upper level graduates, postgraduates and experienced scholars interested in the history of family, household, social space, gender, emotions, material culture, work and private life in early modern and nineteenth century Europe.
