**African American Religious Cultures** Anthony B. Pinn, 2009-09-10 This encyclopedia offers the most comprehensive presentation available on the diversity and richness of religious practices among African Americans from traditions predating the era of the transatlantic slave trade to contemporary religious movements Like no previous reference African American Religious Cultures captures the full scope of African American religious identity tracing the long history of African American engagement with spiritual practice while exploring the origins and complexities of current religious traditions This breakthrough encyclopedia offers alphabetically organized entries on every major spiritual belief system as it has evolved among African American communities covering its beginnings development major doctrinal points rituals important figures and defining moments In addition the work illustrates how the social and economic realities of life for African Americans have shaped beliefs across the spectrum of religious cultures

**The Afro-Latino Memoir** Trent Masiki, 2023-08-29 Despite their literary and cultural significance Afro Latino memoirs have been marginalized in both Latino and African American studies Trent Masiki remedies this problem by bringing critical attention to the understudied African American influences in Afro Latino memoirs published after the advent of the Black Arts movement Masiki argues that these memoirs expand on the meaning of racial identity for both Latinos and African Americans Using interpretive strategies and historical methods from literary and cultural studies Masiki shows how Afro Latino memoir writers often turn to the African American experience as a model for articulating their Afro Latinidad African American literary production expressive culture political ideology and religiosity shaped Afro Latino subjectivity more profoundly than typically imagined between the post war and post soul eras Masiki recovers this neglected history by exploring how and why Black nationalism shaped Afro Latinidad in the United States This book opens the border between the canons of Latino and African American literature encouraging greater intercultural solidarities between Latinos and African Americans in the era of Black Lives Matter

**Encyclopedia of African and African-American Religions** Stephen D. Glazier, 2001      **Journal of Religion in Africa** ,2007      *African Migration, Human Rights and Literature* Fareda Banda, 2020-12-24 This innovative book looks at the topic of migration through the prism of law and literature The author uses a rich mix of novels short stories literary realism human rights and comparative literature to explore the experiences of African migrants and asylum seekers The book is divided into two Part one is conceptual and focuses on art activism and the myriad ways in which people have sought to write justice Using Mazrui's diasporas of slavery and colonialism it then considers histories of migration across the centuries before honing in on the recent anti migration policies of western states Achiume is used to show how these histories of imposition and exploitation create a bond which bestows on Africans a status as co sovereigns of the First World through citizenship The many fictional examples of the schemes used to gain entry are set

against the formal legal processes Attention is paid to life post arrival which for asylum seekers may include periods in detention The impact of the increased hostility of receiving states is examined in light of their human rights obligations Consideration is paid to how Africans navigate their post migration lives which includes reconciling themselves to status fracture taking on jobs for which they are over qualified while simultaneously dealing with the resentment borne of status threat on the part of the citizenry Part two moves from the general to consider the intersections of gender and status focusing on women LGBTI individuals and children Focusing on their human rights and the fictional literature chapter four looks at women who have been trafficked as well as domestic workers and hotel maids while chapter five is on LGBTI people whose legal and literary stories are only now being told The final substantive chapter considers the experiences of children who may arrive as unaccompanied minors Using a mixture of poetry and first person accounts the chapter examines the post arrival lives of children some of whom may be citizens but who are continually made to feel like outsiders The conclusion follows starting with two stories about walls by Hadero and Lanchester which are used to illustrate the themes discussed in the book Few African lawyers write about literature and few books and articles in Western law and literature look at books by or about Africans so a book that engages with both is long overdue This book provides fascinating reading for academics students of law literature gender and migration studies and indeed the general public

Murphy,Larry George Murphy,2000-11 An introductory overview of the development of African American religion and theology Down by the Riverside provides an expansive introduction to the development of African American religion and theology Spanning the time of slavery up to the present the volume moves beyond Protestant Christianity to address a broad diversity of African American religion from Conjure Orisa and Black Judaism to Islam African American Catholicism and humanism This accessible historical overview begins with African religious heritages and traces the transition to various forms of Christianity as well as the maintenance of African and Islamic traditions in antebellum America Preeminent contributors include Charles Long Gayraud Wilmore Albert Raboteau Manning Marable M Shawn Copeland Vincent Harding Mary Sawyer Toinette Eugene Anthony Pinn and C Eric Lincoln and Lawrence Mamiya They consider the varieties of religious expression emerging from migration from the rural South to urban areas African American women s participation in Christian missions Black religious nationalism and the development of Black Theology from its nineteenth century precursors to its formulation by James Cone and later articulations by black feminist and womanist theologians They also draw on case studies to provide a profile of the Black Christian church today This thematic history of the unfolding of religious life in African America provides a window onto a rich array of African American people practices and theological positions

**African-American Religion** David Musa,2015-07-06 Literature on North American slavery is almost inexhaustible but

negligent of the religious culture of the slaves most especially African American Christianity As noted in Robert Handys insightful article for several decades African American Christianity appeared only as incidentals in the general historiography of American Church history Considering the immeasurably positive role of the Church in the lives of African Americans this oversight is almost inexcusable Even where studies in slave Christianity have been attempted one would search in vain for any substantial discussion of the mutual effects of the slaves original African religion and Christianity Thus this study is a contribution to recent explorations into that vital aspect of the history of African slaves in North America their Christianization The study focuses on the question of why the African slaves were apparently more responsive to Christianity in the Great Awakenings than during the previous evangelization efforts by the Anglican missionaries I propose that the continuities as well as discontinuities between Christianity and African Traditional Religion were key among determinant factors in the slaves response to Christianity Basically the slaves responded to the type of Christianity in which these factors were more prominent the Great Awakenings vis vis the Anglican version The first chapter of this study highlights the problem of past inattention to slave Christianity especially as it relates to African Traditional Religion In Chapter two I argue for both West Africa as the original home of the slaves and African Traditional Religion as the predominant religious culture of that region The third chapter describes the process personnel and problems encountered in slave Christianization Chapters four and five analyze and evaluate the impact of Christianizing efforts by the Anglican missionaries and revival evangelists respectively Chapter six summarizes and discusses the value of my findings for the African American Church and Christianity in general The study contains suggestions for further research      Pentecostals After a Century Allan H. Anderson, Walter J. Hollenweger, 1999-11 This book emerges from a consultation in June 1996 with Walter J Hollenweger acknowledged doyen of Pentecostal studies held at Selby Oak Colleges Birmingham Different perspectives are offered from scholars from five continents emphasizing the increasingly non Western nature of this rapidly growing Christian movement and the significance of its roots Central challenges facing Pentecostalism after a century of existence include the central doctrine of Spirit baptism and its relationship to the supernatural the political relevance of the movement in different parts of the world the indigenization and contextualization of the movement and case studies from four continents      *Religion Index One* ,2000

**Existential Theology** Hue Woodson, 2020-09-29 Existential Theology An Introduction offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism Christian humanism and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard To do this Existential Theology attends to the field through the exploration of genres the European traditions in French Russian and German schools of thought counter traditions in liberation feminist and womanist approaches and postmodern traditions located in anthropological political and ethical approaches While the cultural contexts inform how each of the selected

philosopher theologians present genres of existential theology other unique genres are examined in theoretical and philosophical contexts particularly through a selected set of theologians philosophers thinkers and theorists that are not generally categorized theologically By assessing existential theology through how it manifests itself in genres this book brings together lesser known figures well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms      **Complementary, Alternative, and Integrative Health** Helda Pinzon-Perez, Miguel A.
