archival research and attention to the nuances of relationships among eighteenth century women and men and in so doing shed new light on a number of familiar and not so familiar eighteenth century texts

The Cambridge Companion to the Eighteenth-Century Novel John Richetti, 1996-09-05 In the past twenty years our understanding of the novel s emergence in eighteenth century Britain has drastically changed Drawing on new research in social and political history the twelve contributors to this Companion challenge and refine the traditional view of the novel s origins and purposes In various ways each seeks to show that the novel is not defined primarily by its realism of representation but by the new ideological and cultural functions it serves in the emerging modern world of print culture Sentimental and Gothic fiction and fiction by women are discussed alongside detailed readings of work by Defoe Swift Richardson Henry Fielding Sterne Smollett and Burney This multifaceted picture of the novel in its formative decades provides a comprehensive and indispensable guide for students of the eighteenth century British novel and its place within the culture of its time

Sensibility and Economics in the Novel G. Skinner, 1998-12-13 Sensibility and Economics in the Novel argues that the sentimental novel usually seen as a feminine genre concentrating exclusively on emotional response is in fact actively involved in contemporary economic and political debates Spanning the period encompassing the rise heyday and decline of sentimentalism the book considers how the trajectory of the movement affected the sentimental novel s use of discourses of economics sensibility and femininity and assesses the impact of the pressures of the post Revolutionary 1790s on these areas

From Ælfric to the New York Times, 2023-12-21 The twenty papers of this volume published to honour Gunnel Tottie are of interest to everyone concerned with the study of the English language The collection is a convincing argument for an approach to language studies based on the analysis of computerized corpora Though this is not an introduction to the field but a series of highly specialized studies readers get a good overview of the work being done at

present in English computer corpus studies English corpus linguistics though basically concerned with the study of varieties of English goes far beyond the simple ordering and counting of large numbers of examples but is deeply concerned with linguistic theory based on real language data The volume includes sections on corpora of written and spoken present day English historical corpora contrastive corpora and on the application of corpus studies to teaching purposes **Women's Utopias of the Eighteenth Century** Alessa Johns, 2003 No human society has ever been perfect a fact that has led thinkers as far back as Plato and St Augustine to conceive of utopias both as a fanciful means of escape from an imperfect reality and as a useful tool with which to design improvements upon it The most studied utopias have been proposed by men but during the eighteenth century a group of reform oriented female novelists put forth a series of work that expressed their views of and their reservations about ideal societies In *Women's Utopias of the Eighteenth Century* Alessa Johns examines the utopian communities envisaged by Mary Astell Sarah Fielding Mary Hamilton Sarah Scott and other writers from Britain and continental Europe uncovering the ways in which they resembled and departed from traditional utopias Johns demonstrates that while traditional visions tended to look back to absolutist models women's utopias quickly incorporated emerging liberal ideas that allowed far more room for personal initiative and gave agency to groups that were not culturally dominant such as the female writers themselves Women's utopias Johns argues were reproductive in nature They had the potential to reimagine and perpetuate themselves *Women Critics 1660-1820* Folger Collective on Early Women Critics (Scholarly group), 1995 the anthology is engaging and informative and should stimulate further research into this fascinating yet neglected area English most interest are newly recovered materials with several works appearing in English translation for the first time The excellent introductions and reference notes along with the samplings of writings will pique the interest of students of both literature and history A good readings text for college students and anyone interested in the development of literature and culture Library Journal This anthology demonstrates women's participation in the construction of criticism as a literary genre The selected writings by forty one of the women who produced criticism between 1660 and 1820 include writers from England France Germany and the United States *Graphic Design, Print Culture, and the Eighteenth-Century Novel* Janine Barchas, 2003-06-05 The uniformity of the eighteenth century novel in today's paperbacks and critical editions no longer conveys the early novel's visual exuberance Janine Barchas explains how during the genre's formation in the first half of the eighteenth century the novel's material embodiment as printed book rivalled its narrative content in diversity and creativity Innovations in layout ornamentation and even punctuation found in for example the novels of Richardson an author who printed his own books help shape a tradition of early visual ingenuity From the beginning of the novel's emergence in Britain prose writers including Daniel Defoe Jonathan Swift and Henry and Sarah Fielding experimented with the novel's appearance Lavishly illustrated with more than 100 graphic features found in eighteenth century editions this important study aims to recover the visual context in which the eighteenth century novel was produced and read **Families of the**

Heart Ann Campbell, 2022-11-11 In this innovative analysis of canonical British novels Campbell identifies a new literary device the surrogate family as a signal of cultural anxieties about young women's changing relationship to matrimony across the long eighteenth century By assembling chosen families rather than families of origin Campbell convincingly argues female protagonists in these works compensate for weak family ties explore the world and themselves prepare for idealized marriages or sidestep marriage altogether Tracing the evolution of this rich convention from the female characters in Defoe's and Richardson's fiction who are allowed some autonomy in choosing spouses to the more explicitly feminist work of Haywood and Burney in which connections between protagonists and their surrogate sisters and mothers can substitute for marriage itself this book makes an ambitious intervention by upending a traditional trope the model of the patriarchal family ultimately offering a new lens through which to regard these familiar works Literary Relations Jane Spencer, 2005-10-27 The English literary tradition has been constituted as a patriarchal family Great fathers are supposed to pass on a place to worthy sons and the status of women's writing within the canon is contested This book shows how kinship and mentoring relationships between writers helped to form the national tradition Writers featured include Dryden Congreve Johnson Burney the Fieldings the Wordsworths and Austen Utopian and Dystopian Writing for Children and Young Adults Carrie Hintz, Elaine Ostry, 2013-10-11 This volume examines a variety of utopian writing for children from the 18th century to the present day defining and exploring this new genre in the field of children's literature The original essays discuss thematic conventions and present detailed case studies of individual works All address the pedagogical implications of work that challenges children to grapple with questions of perfect or wildly imperfect social organizations and their own autonomy The book includes interviews with creative writers and the first bibliography of utopian fiction for children *The Professionalization of Women Writers in Eighteenth-Century Britain* Betty A. Schellenberg, 2005-06-16 The Professionalisation of Women Writers in Eighteenth Century Britain is a full study of a group of women who were actively and ambitiously engaged in a range of innovative publications at the height of the eighteenth century Using personal correspondence records of contemporary reception research into contemporary print culture and sociological models of professionalisation Betty A Schellenberg challenges oversimplified assumptions of women's cultural role in the period focusing on those women who have been most obscured by literary history including Frances Sheridan Frances Brooke Sarah Fielding and Charlotte Lennox 1730-1784 Charles Wells Moulton, 1902 The Library of Literary Criticism of English and American Authors: 1730-1784 Charles Wells Moulton, 1902 *Novel Cleopatras* Nicole Horejsi, 2019-03-20 Advocating a revised history of the eighteenth century novel *Novel Cleopatras* showcases the novel's origins in ancient mythology its relation to epic narrative and its connection to neoclassical print culture *Novel Cleopatras* also rewrites the essential role of women writers in history who were typically underestimated as active participants of neoclassical culture often excluded from the same schools that taught their brothers Greek and Latin However as author Nicole Horejsi reveals a number of

exceptional middle class women were actually serious students of the classics In order to dismiss the idea that women were completely marginalized as neoclassical writers Horejsi takes up the character of Dido from ancient Greek mythology and her real life counterpart Cleopatra the queen of Egypt Together the legendary Dido and historical Cleopatra serve as figures for the conflation of myth and history Horejsi contends that turning to the doomed queens who haunted the Roman imagination enabled eighteenth century novelists to seize the productive overlap among the categories of history romance the novel and even the epic

Charlotte Lennox Norbert Schürer, 2012-02-09 This volume compiles and annotates for the first time the complete correspondence of the eighteenth century British author Charlotte Lennox best known for her novel *The Female Quixote* Lennox corresponded with famous contemporaries from different walks of life such as James Boswell David Garrick Samuel Johnson and Sir Joshua Reynolds and she interacted with many other influential figures including her patroness the Countess of Bute publisher Andrew Millar and the Reverend Thomas Winstanley In addition to Lennox's and her correspondents letters this book presents related documents such as the author's proposals for subscription editions of her works her file with the Royal Literary Fund and a series of poems and stories supposedly composed by her son but perhaps written by herself In these carefully and extensively annotated documents Charlotte Lennox traces the vagaries in the career of a female writer in the male dominated eighteenth century literary marketplace The introduction situates Lennox in the context of contemporaneous print culture and specifically examines the contentious question of the authorship of *The Female Quixote* Lennox's experimentation with various forms of publication and her appeals for charity to the Royal Literary Fund when she was impoverished towards the end of her life The author who emerges from Charlotte Lennox was an active assertive innovative and independent woman trying to find her place and make a literary career in eighteenth century Britain Thus this volume makes an important contribution to the history of female authorship literary history and eighteenth century studies
