Sardinian Chronicles:

Sardinian Chronicles Bernard Lortat-Jacob, 1995-03-15 In *Sardinian Chronicles* Bernard Lortat Jacob poetically evokes Sardinian music through a series of encounters with individual musicians and their families Refusing to separate the music from the world in which it arises Lortat Jacob offers twelve vignettes focused on individuals such as Cocco a chicken farmer who deciphers the shapes of his fowl and the layout of his henhouses in the constellations of a summer sky and Pietro a sleep walking postman who divides his time between mail deliveries and impromptu serenades These vignettes bring to life an art still very much alive the music of villages with an oral tradition sung or played in the company of others Through his sensitive portraits of music makers and their families Lortat Jacob overcomes some of the epistemological and methodological dilemmas facing his field today while also giving the general reader a sense of the multiple and idiosyncratic ways that music is involved in everyday life With a foreword by Michel Leiris and a compact disc containing samples of the music being discussed this book constitutes a breakthrough in ethnomusicology that will also interest many in Mediterranean studies and European anthropology

The Island of Sardinia John Warre Tyndale, 1849 **The Island of Sardinia** John William Warre Tyndale, 1849 The Island of Sardinia, Including Pictures of the Manners and Customs of the Sardinians, and Notes on the Antiquities and Modern Objects of Interest in the Island Tyndale, 1849 **Revival and Reconciliation** Philip V. Bohlman, 2013-06-07 Sacred music has long contributed fundamentally to the making of Europe The passage from origin myths to history the sacred journeys that have mobilized pilgrims crusaders and colonizers the politics and power sounded by the vox populi all have joined in counterpoint to shape Europe's historical longue durée Drawing upon three decades of research in European sacred music Philip V Bohlman calls for a reexamination of European modernity in the twenty first century a modernity shaped no less by canonic religious and musical practices than by the proliferation of belief systems that today more than ever respond to the diverse belief systems that engender the New Europe In contrast to most

studies of sacred musical practice in European history with their emphasis on the musical repertoires and ecclesiastical practices at the center of society Bohlman turns our attention to individual and marginalized communities and to the collectives of believers to whose lives meaning accrues upon sounding the sacred together In the historical chapters that open *Revival and Reconciliation* Bohlman examines the genesis of modern history in the convergence and conflict that lie at the heart of the Abrahamic faiths Judaism Christianity and Islam Critical to the meaning of these religions to Europe Bohlman argues has been their capacity to mobilize both sacred journey and social action which enter the everyday lives of Europeans through folk religion pilgrimage and politics the subjects of the second half of his study The closing sections then cross the threshold from history into modernity above all that of the New Europe with its return to religion through revival and reconciliation Based on an extensive ethnographic engagement with the sacred landscapes and sites of conflict in twenty first century Europe Bohlman calls in his final chapters for new ways of hearing the silenced voices and the full chorus of sacred music in our contemporary world Ethnomusicologists from different traditions as well as scholars of religious studies and the history of modern Europe will find *Revival and Reconciliation* a fascinating exploration of the connections between sacred music and the role it plays in the formations of the modern self *Folk Music: A Very Short Introduction* Mark

Making It Up Together Leslie A. Tilley,2020-04-03 Most studies of musical improvisation focus on individual musicians But that is not the whole story From jazz to flamenco Shona mbira to Javanese gamelan improvised practices thrive on group creativity relying on the close interaction of multiple simultaneously improvising performers In *Making It Up Together* Leslie A. Tilley explores the practice of collective musical improvisation cross culturally making a case for placing collectivity at the center of improvisation discourse and advocating ethnographically informed music analysis as a powerful tool for investigating improvisational processes Through two contrasting Balinese case studies of the reyong gong chime s melodic norot practice and the interlocking drumming tradition kendang arja Tilley proposes and tests analytical frameworks for

examining collectively improvised performance At the micro level Tilley's analyses offer insight into the note by note decisions of improvising performers at the macro level they illuminate larger musical discursive structural and cultural factors shaping those decisions This multi tiered inquiry reveals that unpacking how performers play and imagine as a collective is crucial to understanding improvisation and demonstrates how music analysis can elucidate these complex musical and interactional relationships Highlighting connections with diverse genres from various music cultures Tilley's examinations of collective improvisation also suggest rich potential for cross genre exploration The surrounding discussions point to larger theories of communication and interaction creativity and cognition that will be of interest to a range of readers from ethnomusicologists and music theorists to cognitive psychologists jazz studies scholars and improvising performers Setting new parameters for the study of improvisation **Making It Up Together** opens up fresh possibilities for understanding the creative process in music and beyond

The Music of the Other Laurent Aubert, 2017-10-03 We are surrounded by new musical encounters today as never before and the experience of musics from elsewhere is progressively affecting all arenas of the human conscience Yet why is it that Western listeners expect a certain cultural and ethnic authenticity or otherness from visiting artists in world music while contemporary musicians in Western music are no longer bound by such restraints Should we feel uncomfortable when sacred rites from Asia or Africa are remade for Westerners as musical entertainment As these thorny questions suggest the great flood of world musics and of their agents into our most immediate cultural environment is not a simple matter of expanding global musical exchange Instead complex processes are at work involving the growth of intercontinental tourism the development of new technologies of communication and our perceptions both of ourselves and of the new musical others now around us Elegantly tracing the dimensions of these new musical encounters Laurent Aubert considers the impact of world musics on our values our habits and our cultural practices His discussions of key questions about our contemporary music culture widen conventional ethnomusicological perspectives to consider not only the nature of

Western society as a global village but also the impact of current Western demands on the future of world musics and their practitioners
