Radical Religion and Violence Jeffrey Kaplan, 2015-11-19 Jeffrey Kaplan has been one of the most influential scholars of new religious movements extremism and terrorism His pioneering use of interpretive fieldwork among radical and violent subcultures opened up new fields of scholarship and vastly increased our understanding of the beliefs and activities of extremists This collection features many of his seminal contributions to the field alongside several new pieces which place his work within the context of the latest research developments Combining discussion of the methodological issues alongside a broad array of case studies this will be essential reading for all students and scholars of extremism religion and politics and terrorism

The Lyre of Orpheus Christopher Partridge, 2013-11-18 The myth of Orpheus articulates what social theorists have known since Plato music matters It is uniquely able to move us to guide the imagination to evoke memories and to create spaces within which meaning is made Popular music occupies a place of particular social and cultural significance Christopher Partridge explores this significance analyzing its complex relationships with the values and norms texts and discourses rituals and symbols and codes and narratives of modern Western cultures He shows how popular music's power to move to agitate to control listeners to shape their identities and to structure their everyday lives is central to constructions of the sacred and the profane In particular he argues that popular music can be important edgework challenging dominant constructions of the sacred in modern societies Drawing on a wide range of musicians and musical

genres as well as a number of theoretical approaches from critical musicology cultural theory sociology theology and the study of religion The Lyre of Orpheus reveals the significance and the progressive potential of popular music *Psychology and the Paranormal* David F. Marks,2020-06-08 The field of research on the paranormal has changed enormously in the last 20 years Examining experiences of ESP psychokinesis precognition ganzfeld dissociative states out of the body experiences alien abductions and near death experiences David Marks appraises the best available evidence to date on scientific claims of the paranormal Each chapter also provides a description of the psychological processes that are likely to contribute to these experiences and to the high prevalence of paranormal beliefs Importantly this book does not take a fixed sceptical or disbelieving view of the phenomena but as far as possible offers a neutral gaze which will equip readers to make up their own minds as well as providing them with the critical skills to defend their conclusions *Econophysics of Agent-Based Models* Frédéric Abergel,Hideaki Aoyama,Bikas K. Chakrabarti,Anirban Chakraborti,Asim Ghosh,2013-09-07 The primary goal of this book is to present the research findings and conclusions of physicists economists mathematicians and financial engineers working in the field of Econophysics who have undertaken agent based modelling comparison with empirical studies and related investigations Most standard economic models assume the existence of the representative agent who is perfectly rational and applies the utility maximization principle when taking action One reason for this is the desire to keep models mathematically tractable no tools are available to economists for solving non linear models of heterogeneous adaptive agents without explicit optimization In contrast multi agent models which originated from statistical physics considerations allow us to go beyond the prototype theories of traditional economics involving the representative agent This book is based on the Econophys Kolkata VII Workshop at which many such modelling efforts were presented In the book leading researchers in their fields report on their latest work consider recent developments and review the contemporary literature Occult Crime California. Office of Criminal Justice Planning,1989 Religion Meredith B. McGuire,2008-04-10 In this insightful examination of religions in their local and global context the author shows how analyzing religions social context helps us understand individuals lives social movements national and ethnic politics and widespread social changes Well researched and theory based the text is filled with intriguing anecdotes empirical data thought provoking discussions of both mainstream and nonofficial religions and historical and contemporary examples that illustrate the interplay between religion and society across cultures This volume takes an integrated approach to examining religion and includes cross cultural historical and methodological viewpoints Readers will learn to identify the complex interactions between religion and societal contexts as well as the ways in which these interactions shape individuals communities national politics and the world **Religious Conversion** Christopher Lamb,M. Darroll Bryant,1999-10-01 Conversion has been an important issue for most of the universal religions those usually associated with a founder such as Christianity Buddhism Islam and Judaism which have a mission to spread their message Other religions have been less concerned with conversion except in so far as it has been a

negative force for them to confront This study explores how conversion has been understood by different religions during different eras and includes a survey of the textual legal ritual historic and experiential dimensions of the phenomenon of conversion **Digital Methodologies in the Sociology of Religion** Sariya Cheruvallil-Contractor, Suha

Shakkour, 2015-12-17 This volume considers the implementation difficulties of researching religion online and reflects on the ethical dilemmas faced by sociologists of religion when using digital research methods Bringing together established and emerging scholars global case studies draw on the use of social media as a method for researching religious oppression religion and identity in virtual worlds digital communication within religious organisations and young people s diverse expressions of faith online Additionally boxed tips are provided throughout the text to serve as reminders of tools that readers may use in their own research projects Cults and Personality Frank J. MacHovec, 1989 **Cultural Science**

William Sims Bainbridge, 2020-04-21 This innovative book explores the new relationships connecting computer science social science and the humanities In our time of great and uncertain change business government and education must partner in many forms of technical and cultural convergence for the benefit of both human welfare and economic recovery This innovative book explores the new relationships connecting computer science social science and the humanities One popular form of artificial social intelligence recommender systems can become a far more valuable tool for research on the arts beginning with movies and computer games then extending to all the other art forms While artificial intelligence can be a powerful tool for description of physical reality it must become both social and cultural if it is to be a valued tool of human expression Many new developments offer opportunities and challenges for both industry and government policy This book shows how artificial intelligence and related information technologies can converge successfully with the social sciences and humanities so together they can achieve maximum benefits for people *The Skeptical Inquirer* , 1979 **Satanism**

Tamara L. Roleff, 2002 Authors examine whether Satanism is a dangerous new cult to be feared or whether a few publicized event have been exaggerated out of proportion to their seriousness and extent *Religious Books and Serials in Print*
