## **Sati Historical And Phenomenological Ebays:**

Sati Arvind Sharma,1988-01-01 The phenomenon of Sati on account of its dramatic and tragic element has always commanded considerable attention This has not always been complemented by adequate analysis Even when the treatment of the subject has transcended sensationalism it has not always been sufficiently nuanced This book hopes to remedy this situation by bringing to bear on the topic whose relevance the recent recurrences of the phenomena have highlighted a measure of methodological sophistication which was not possible prior to the emergence of the History of Religions as a discipline

**Sati, the Blessing and the Curse** John Stratton Hawley,1994 Sati symbolizes ultimate loyalty and self sacrifice It often figures near the core of a Hindu identity that feels embattled in a modern world Yet to those who deplore it sati is a curse a violation of every woman s womanhood

Humanism and the Death of God Ronald E. Osborn,2017-01-19 Humanism and the Death of God is a critical exploration of secular humanism and its discontents Through close readings of three exemplary nineteenth century philosophical naturalists or materialists who perhaps more than anyone set the stage for our contemporary quandaries when it comes to questions of human nature and moral obligation Ronald E Osborn argues that the death of God ultimately tends toward the death of liberal understandings of the human as well Any fully persuasive defense of humanistic values including the core humanistic concepts of inviolable dignity rights and equality attaching to each individual requires an essentially religious vision of personhood Osborn shows such a vision is found in an especially dramatic and historically consequential way in the scandalous particularity of the Christian narrative of God becoming a human He does not attempt to provide logical proofs for the central claims of Christian humanism along the lines some philosophers might demand Instead this study demonstrates how philosophical naturalism or materialism and secular humanisms and anti humanisms might be persuasively read from the perspective of a classically orthodox Christian faith

*Hinduism and Modernity* David Smith,2008-04-15 This examination of Hinduism in the context of modernity will be of interest to all students of Hinduism as well as to those interested in the sociology and history of religion Shows Hinduism to be a highly dynamic world view which challenges western notions of modernity Considers a broad range of topics including women the caste system the self divinities and gurus Contains up to date discussions of modern Hindu culture and beliefs

Feminism and Empire Clare Midgley,2007-09-28 Feminism and Empire establishes the foundational impact that Britain s position as leading imperial power had on the origins of modern western feminism Based on extensive new research this study exposes the intimate links between debates on the woman question and the constitution of colonial discourse in order to highlight the centrality of empire to white middle class women s activism in Britain The book begins by exploring the relationship between the construction of new knowledge about colonised others and the framing of debates on the woman question among advocates of women s rights and their evangelical opponents Moving on to examine white middle class women s activism on imperial issues in Britain topics include the anti slavery boycott of Caribbean sugar the campaign

against widow burning in colonial India and women's role in the foreign missionary movement prior to direct employment by the major missionary societies Finally Clare Midgley highlights how the organised feminist movement which emerged in the late 1850s linked promotion of female emigration to Britain's white settler colonies to a new ideal of independent English womanhood This original work throws fascinating new light on the roots of later imperial feminism and contemporary debates concerning women's rights in an era of globalisation and neo imperialism

**Colonialism as Civilizing Mission** Harald Fischer-Tiné, Michael Mann, 2004 Inherent in colonialism was the idea of self legitimization the most powerful tool of which was the colonizer's claim to bring the fruits of progress and modernity to the subject people In colonial logic people who were different because they were inferior had to be made similar and hence equal by civilizing them However once this equality had been attained the very basis for colonial rule would vanish Colonialism as Civilizing Mission explores British colonial ideology at work in South Asia Ranging from studies on sport and national education and pulp fiction to infanticide psychiatric therapy and religion these essays on the various forms expressions and consequences of the British civilizing mission in South Asia shed light on a topic that even today continues to be an important factor in South Asian politics

*Landscape, Seascape, and the Eco-Spatial Imagination* Simon Estok, Jonathan White, I-Chun Wang, 2016-05-12 Written from within the best traditions of ecocritical thought this book provides a wide ranging account of the spatial imagination of landscape and seascape in literary and cultural contexts from many regions of the world It brings together essays by authors writing from within diverse cultural traditions across historical periods from ancient Egypt to the postcolonial and postmodern present and touches on an array of divergent theoretical interventions The volume investigates how our spatial imaginations become wired looking at questions about mediation and exploring how various traditions compete for prominence in our spatial imagination In what ways is personal experience inflected by prevailing cultural traditions of representation and interpretation Can an individual maintain a unique and distinctive spatial imagination in the face of dominant trends in perception and interpretation What are the environmental implications of how we see landscape The book reviews how landscape is at once conceptual and perceptual illuminating several important themes including the temporality of space the mediations of place that form the response of an observer of a landscape and the development of response in any single life from early partial thoughts to more considered ideas in maturity Chapters provide suggestive and culturally nuanced propositions from varying points of view on ancient and modern landscapes and seascapes and on how

individuals or societies have arranged conceptualized or imagined circumambient space Opening up issues of landscape seascape and spatiality this volume commences a wide ranging critical discussion that includes various approaches to literature history and cultural studies Bringing together research from diverse areas such as ecocriticism landscape theory colonial and postcolonial theory hybridization theory and East Asian Studies to provide a historicized and global account of our ecospatial imaginations this book will be useful for scholars of landscape ecology ecocriticism physical and social geography postcolonialism and postcolonial ecologies comparative literary studies and East Asian Studies Empireworld Sathnam Sanghera,2024-05-07 Bestselling author and journalist Sathnam Sanghera explores the global legacy of the British Empire and the ways it continues to influence economics politics and culture around the world 2.6 billion people are inhabitants of former British colonies The empire's influence upon the quarter of the planet it occupied and its gravitational influence upon the world outside it has been profound from the spread of Christianity by missionaries to the shaping international law Even today 1 in 3 people drive on the left hand side of the road an artifact of the British empire Yet Britain's idea of its imperial history and the world's experience of it are two very different things Following in the footsteps of his bestselling book *Empireland* How Imperialism Has Shaped Modern Britain *Empireworld* explores the ways in which British Empire has come to shape the modern world Sanghera visits Barbados where he uncovers how Caribbean nations are still struggling to emerge from the disadvantages sown by transatlantic slavery He examines how large charities like Save the Children and the World Bank still see the world through the imperial eyes of their colonial founders and how the political instability of nations such as Nigeria for instance can be traced back to tensions seeded in their colonial foundations And from the British Empire's role in the transportation of 12.5 million Africans during the Atlantic slave trade to the 35 million Indians who died due to famine caused by British policy the British Empire as Sanghera reveals was responsible for some of the largest demographic changes in human history Economic legal and political systems across the world continue to function along the lines originally drawn by the British Empire and cultural sexual psychological linguistic demographic and educational norms originally established by imperial Britons continue to shape our lives British Empire may have peaked a century ago and it may have been mostly dismantled by 1997 but in this major new work Sathnam Sanghera ultimately shows how the largest empire in world history still exerts influence over planet Earth in all sorts of silent and unsilent ways

**Roles and Rituals for Hindu Women** Julia Leslie, 1992 The considerable interest currently being expressed in women and religion has thrown down an important challenge the need to see women not merely as the passive victims of an oppressive ideology but also perhaps primarily as the active agents of their own positive constructs This book therefore aims to fill a notable gap in the literature Twelve contributors study the role of women in Hindu religion by examining textual studies of the part played by women in a variety of religion rituals both past and present by exploring the socio religious context of their various communities and by using specialist material to draw on cross cultural conclusions
