Saturday Night At The Beastro:

Saturday Night at the Beastro Jane Breskin Zalben, Steven Zalben, 2004-07-27 Dinner is served at the Beastro and it's like no meal seen before. Fang smacking delicacies grace the tables with sloths, slugs and crunchy bugs wiggling on platters. And for dessert there's nothing like batwing pudding to delight the palate, all washed down with a glass of skunk juice. For this rowdy gathering of hungry monsters the Beastro is well prepared to satisfy the strangest of appetites. Jane Breskin Zalben and Steven Zalben's unique verse and eclectic artwork created with original photography, digital manipulation, hand painting and detailed collage combine to make this one of the most stunningly stylish and unusually elegant affairs ever. **A to Zoo**

Rebecca L. Thomas, 2018-06-21 Whether used for thematic story times, program and curriculum planning, readers advisory or collection development, this updated edition of the well-known companion makes finding the right picture books for your library a breeze. Generations of savvy librarians and educators have relied on this detailed subject guide to children's picture books for all aspects of children's services, and this new edition does not disappoint. Covering more than 18,000 books published through 2017, it empowers users to identify current and classic titles on topics ranging from apples to zebras. Organized simply with a subject guide that categorizes subjects by theme and topic and subject headings arranged alphabetically, this reference applies more than 1,200 intuitive, as opposed to formal catalog subject terms, to children's picture books, making it both a comprehensive and user-friendly resource that is accessible to parents and teachers as well as librarians. It can be used to identify titles to fill in gaps in library collections, to find books on particular topics for young readers, to help teachers locate titles to support lessons or to design thematic programs and story times. Title and illustrator indexes, in addition to a bibliographic guide arranged alphabetically by author name, further extend access to titles. **DIY**

Programming and Book Displays Amanda Catherine Struckmeyer, Svetha Hetzler, 2010-09-13 This manual guides librarians in creating simple, affordable, ready-to-use activities for children, tweens, teens and families, with enough material for a full year of programs. Do it yourself programming is an emerging model in which the librarian does the preparation, then lets patrons take over. **DIY Programming and Book Displays: How to Stretch Your Programming without Stretching Your Budget and Staff** makes it easy for librarians to institute such programs in their own facilities. Organized around 12 thematic chapters, the book explains how to set up and maintain a do it yourself station and offers instructions for a variety of year activities. Reproducible materials and booklists are included as well. Librarians may use the activities as starting points for generating their own ideas or they may simply photocopy materials in the book for ready-to-use monthly DIY programming. Once set up, the DIY station is available to patrons anytime they are in the library. Best of all, because DIY programs do not rely on staff space or special materials, they allow libraries to make the most of their resources without sacrificing patron service. **Using Poetry Across the Curriculum** Barbara Chatton, 2010-01-13 This comprehensive listing and discussion of poetic works supports the standards of all areas of the curriculum, helping librarians and teachers working with kindergarten

through middle school students This second edition of *Using Poetry Across the Curriculum Learning to Love Language* offers a comprehensive list of poetry anthologies poetic picture books and poetic prose works in a wide variety of subject areas While it maintains the original edition's focus on ideas and resource lists for integration of poetry into all areas of the curriculum it is thoroughly revised to cover current issues in education and the wealth of new poetry books available The book is organized by subject areas commonly taught in elementary and middle schools and within these by the national standards in each area Numerous examples of poetry and poetic prose that can be used to help students understand and appreciate aspects of the standard are listed A sampling of units that arise from groups of works writing and performance ideas and links across the curriculum is also included While many teaching ideas and topics provide references to the standards they meet this title is unique in starting with those standards and making links across them **A to Zoo** Carolyn W.
