Maritime Security in the Indian Ocean and Western Pacific Howard M. Hensel,Amit Gupta,2017-11-28 Scholars and policy makers have traditionally viewed portions of the Indian Ocean and the Western Pacific as separate and discrete political economic and military regions In recent years however a variety of economic political and military forces have made many within the academic community as well as a growing number of national governmental leaders change their perceptions and recognize that these maritime expanses are one zone of global interaction Consequently political military and economic developments in one maritime region increasingly have an impact elsewhere Analyzing and assessing the contemporary maritime challenges in the Indian Ocean and the Western Pacific this valuable study highlights the current prospects for peace and security in what is rapidly becoming recognized as an integrated and interactive political military strategic and economic environment This work will be of interest to researchers and policy makers involved in regional studies as well as security studies conflict resolution military and peace studies **The Changing Security Dynamics of the Persian Gulf** Kristian Coates Ulrichsen,2018-02-01 The contradictory trends of the post Arab Spring landscape form both the backdrop to and the focus of this volume on the changing security dynamics of the Persian Gulf defined as the six GCC states plus Iraq and Iran The political and economic upheaval triggered by the uprisings of 2011 and the rapid emergence of the Islamic State of Iraq and Syria in 2014 have underscored the vulnerability of regional states to an

intersection of domestic pressures and external shocks The initial phase of the uprisings has given way to a series of messy and uncertain transitions that have left societies deeply fractured and ignited violence both within and across states The bulk of the protests with the notable exception of Bahrain occurred outside the Gulf region but Persian Gulf states were at the forefront of the political economic and security response across the Middle East This volume provides a timely and comparative study of how security in the Persian Gulf has evolved and adapted to the growing uncertainty of the post 2011 regional landscape

International Relations **Deconstructing and Reconstructing the Cold War** Shahin P. Malik, 2018-12-17 Published in 1999 These essays are not deconstructive in the postmodern sense None of the authors have that depth of scepticism about knowledge claims but they are all concerned that the terms of reference of Cold War enquiry have been inappropriately bounded The chapters by Murray and Reynolds specifically address the broad theoretical issues involved with paradigms and explanation The chapters by Dobson Marsh Malik Evans and Dix stretch out Cold War paradigms with successive case studies of Anglo American relations the USA Britain Iran and the oil majors the Gulf States and the Cold War South Africa and the Cold War and Indian neutralism All five authors challenge the efficacy of neo realist analysis and explanation and critique the way that assumptions derived from that position have been used in historical explanation The chapters by Ryall Rogers and Bideleux deal with Roman Catholicism in East Central Europe with nuclear matters and with the Soviet perspective Each work goes beyond the limits of Cold War paradigms Finally Ponting places the Cold War in the broad context of world history These essays provide thought provoking scholarship which helps us both to nuance our understanding of the Cold War and to realise that it should not be taken as an all embracing paradigm for the explanation of postwar international relations Security In The Middle East Mark Bruzonsky, Shaun Murphy, Samuel F. Wells, 2020-01-16 This book examines the deep seated problems in the Middle East and their impact on the United States and its allies Exploring the disruptive effects of the double edged sword of nationalism and modernization the contributors discuss the full range of Western security interests in the region Case studies of key countries emphasize the prospect for peaceful political economic and cultural change The authors analyze the ramifications of the Arab Israeli conflict and the threats posed by Soviet penetration Arguing that confusion and contradiction mark U S policy in the Middle East the book concludes that U S strategists should focus not on curing the region s internal problems but on coping with them without sacrificing long term goals for quick fixes The Restoration of Legitimacy in Yemen and Its Role in Strengthening Arab National Security Prof. Jamal Sanad Al-Suwaidi, The Arab military intervention in Yemen restored trust in the Arab national security system with its Gulf leadership and also revealed the level of Arab world awareness in terms of addressing regional and international shifts independently Therefore the effect of this step regaining lost balance and taking the initiative after years of passivity and defensiveness goes beyond Yemen to affect the entire region The lecture concluded that the Saudi led Arab military intervention to restore legitimacy in Yemen is indeed a historic opportunity an opportunity that must be harnessed in a way that builds an Arab military force capable of defending Arab security in the face of imminent threats This is especially important considering the increasing conflicts and competition between several regional and international powers in the Arab world as well as the shifts in Middle East foreign policies of certain major powers such as the United States of America These changes highlight the fact that the region needs to rely on itself to defend its interests The Iran nuclear deal signed by Iran and major powers in July 2015 has created a new reality in the region This is especially the case with regard to Tehran s

relations with international powers particularly the United States of America Iran's position within the policies toward the region and its interests is something that the Arabs must deal with from a position of both strength and initiative
