Eskew, 2013-11-15 John Herndon Johnny Mercer 1909-76 remained in the forefront of American popular music from the 1930s through the 1960s writing over a thousand songs collaborating with all the great popular composers and jazz musicians of his day working in Hollywood and on Broadway and as cofounder of Capitol Records helping to promote the careers of Nat King Cole Margaret Whiting Peggy Lee and many other singers Mercer's songs sung by Bing Crosby Billie Holiday Judy Garland Frank Sinatra Ella Fitzgerald Tony Bennett Lena Horne and scores of other

African American Life in the Georgia Lowcountry Philip Morgan, 2011-11-01 The lush landscape and subtropical climate of the Georgia coast only enhance the air of mystery enveloping some of its inhabitants people who owe in some ways as much to Africa as to America As the ten previously unpublished essays in this volume examine various aspects of Georgia lowcountry life they often engage a central dilemma the region's physical and cultural remoteness helps to preserve the venerable ways of its black inhabitants but it can also marginalize the vital place of lowcountry blacks in the Atlantic World The essays which range in coverage from the founding of the Georgia colony in the early 1700s through the present era explore a range of topics all within the larger context of the Atlantic world Included are essays on the double edged freedom that the American Revolution made possible to black women the lowcountry as site of the largest gathering of African Muslims in early North America and the coexisting worlds of Christianity and conjuring in coastal Georgia and the links with variations to African practices A number of fascinating memorable characters emerge among them the defiant Mustapha Shaw who felt entitled to land on Ossabaw Island and resisted its seizure by whites only to become embroiled in struggles with other blacks Betty the slave woman who in the spirit of the American Revolution presented a list of grievances to her master and S Quash the Arabic speaking Muslim who arrived on one of the last legal transatlantic slavers and became a head man on a North Carolina plantation Published in association with the Georgia Humanities Council

Cultivating Race Watson W. Jennison, 2012-02-10 From the eighteenth century to the eve of the Civil War Georgia's racial order shifted from the somewhat fluid conception of race prevalent in the colonial era to the harsher understanding of racial difference prevalent in the antebellum era In Cultivating Race The

Expansion of Slavery in Georgia 1750 1860 Watson W Jennison explores the centrality of race in the development of Georgia arguing that long term structural and demographic changes account for this transformation Jennison traces the rise of rice cultivation and the plantation complex in low country Georgia in the mid eighteenth century and charts the spread of slavery into the up country in the decades that followed Cultivating Race examines the cultivation of race on two levels race as a concept and reality that was created and race as a distinct social order that emerged because of the specifics of crop cultivation Using a variety of primary documents including newspapers diaries correspondence and plantation records Jennison offers an in depth examination of the evolution of racism and racial ideology in the lower South *Savannah's Midnight Hour* Lisa L. Denmark, 2019 Savannah's Midnight Hour argues that Savannah's development is best understood within the larger history of municipal finance public policy and judicial readjustment in an urbanizing nation In providing such context Lisa Denmark adds constructive complexity to the conventional Old South New South dichotomous narrative in which the politics of slavery secession Civil War and Reconstruction dominate the analysis of economic development Denmark shows us that Savannah's fiscal experience in the antebellum and postbellum years while exhibiting some distinctively southern characteristics also echoes a larger national experience Her broad account of municipal decision making about improvement investment throughout the nineteenth century offers a more nuanced look at the continuity and change of policies in this pivotal urban setting Beginning in the 1820s and continuing into the 1870s Savannah's resourceful government leaders acted enthusiastically and aggressively to establish transportation links and to construct a modern infrastructure Taking the long view of financial risk the city municipal government invested in an ever widening array of projects canals railroads harbor improvement drainage because of their potential to stimulate the city's economy Denmark examines how this ideology of over optimistic risk taking rooted firmly in the antebellum period persisted after the Civil War and eventually brought the city to the brink of bankruptcy The struggle to strike the right balance between using public policy and public money to promote economic development while at the same time trying to maintain a sound fiscal footing is a question governments still struggle with today Savannah, 1733 to 2000: Georgia Historical Society, Mandi D. Johnson, 2001-06-01 Covering just less than two and a half square miles Savannah's Historic District is a steadfast remnant of the Old South even in times marked by fast paced technology and bustling growth The city air is still sweetened by the scent of tea olives and jasmine her streets are still lined with the rich palettes of azaleas and camellias and her people are generous and welcoming Savannah has enchanted residents and visitors alike for more than two and a half centuries with a rich architectural heritage and a remarkable natural beauty Founded on February 12 1733 by Gen James E Oglethorpe Savannah has played an active role on the American stage in times of war and hardship as well as in times of peace and prosperity The city's location at the mouth of the Savannah River created one of the largest seaports on the east coast and her history is as colorful and varied as the numerous industries that made their way to her banks Within these pages readers will visit

Savannah's signature squares and parks including Forsyth Park and Colonial Park Cemetery as well as buildings long since vanished from the city's landscape such as the old DeSoto Hotel and the City Market. Also showcased are some of Savannah's private homes and public buildings such as the Telfair Museum of Art, the Chatham County Courthouses, and Christ Church, and such memorable events as the fire of 1889. *Detecting the South in Fiction, Film, and Television* Deborah E.

Barker, Theresa Starkey, 2019-10-23 *Detecting the South in Fiction* Film the role of land as a source of income, an ecologically threatened space, or a place of seclusion, and the continued presence of the southern gothic in recurring elements such as dilapidated plantation houses, swamps, family secrets, and the occult. Twenty-two critical essays probe how southern detective narratives intersect with popular genre forms such as neo noir, hard-boiled fiction, the dark thriller, suburban noir, amateur sleuths, journalist detectives, and television police procedurals. Alongside essays by scholars, *Detecting the South in Fiction* Film and Television presents pieces by authors of detective and crime fiction, including Megan Abbott and Ace Atkins, who address the extent to which the South and its artistic traditions influenced their own works. By considering the diversity of authors and characters associated with the genre, this accessible collection provides an overdue examination of the historical, political, and aesthetic contexts out of which the southern detective narrative emerged and continues to evolve. *The Wanderer* Erik Calonius, 2008-02-05 On Nov 28, 1858, a ship called the *Wanderer* slipped silently into a coastal channel and unloaded a cargo of over 400 African slaves onto Jekyll Island, Georgia, fifty years after the African slave trade had been made illegal. It was the last ship ever to bring a cargo of African slaves to American soil. The *Wanderer* began life as a luxury racing yacht, but within a year was secretly converted into a slave ship and, using the pennant of the New York Yacht Club as a diversion, sailed off to Africa. More than a slaving venture, her journey defied the federal government and hurried the nation's descent into civil war. The *New York Times* first reported the story as a hoax, as groups of Africans began to appear in the small towns surrounding Savannah; however, the story of the *Wanderer* began to leak out, igniting a fire of protest and debate that made headlines throughout the nation and across the Atlantic. As the story shifts from New York City to Charleston to the Congo River, Jekyll Island, and finally Savannah, the *Wanderer's* tale is played out in the slave markets of Africa, the offices of the *New York Times*, heated Southern courtrooms, The White House, and some of the most charming homes. Southern royalty had to offer. In a gripping account of the high seas and the high life in New York and Savannah, Erik Calonius brings to light one of the most important and little-remembered stories of the Civil War period. [Sir John Soane? Influence on Architecture from 1791](#) Oliver Bradbury, 2017-07-05 *Sir John Soane's Influence on Architecture from 1791: A Continuing Legacy* is the first in-depth study of this eighteenth-century British architect's impact on the work of others, extending globally and still, indeed, the case over 200 years later. Author Oliver Bradbury presents a compelling argument that the influence of Soane, 1753-1837, has persevered through the centuries rather than waning around the time of his death. Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson, as well as a number of

not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane's late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane's influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane's is a continuing not negated legacy in architecture

Slavery and Freedom in Savannah Leslie M. Harris, Daina Ramey Berry, 2014-02 *Slavery and Freedom in Savannah* is a richly illustrated accessibly written book modeled on the very successful *Slavery in New York* a volume Leslie M Harris coedited with Ira Berlin Here Harris and Daina Ramey Berry have collected a variety of perspectives on slavery emancipation and black life in Savannah from the city's founding to the early twentieth century Written by leading historians of Savannah Georgia and the South the volume includes a mix of longer thematic essays and shorter sidebars focusing on individual people events and places The story of slavery in Savannah may seem to be an outlier given how strongly most people associate slavery with rural plantations But as Harris Berry and the other contributors point out urban slavery was instrumental to the slave based economy of North America Ports like Savannah served as both an entry point for slaves and as a point of departure for goods produced by slave labor in the hinterlands Moreover Savannah's connection to slavery was not simply abstract The system of slavery as experienced by African Americans and enforced by whites influenced the very shape of the city including the building of its infrastructure the legal system created to support it and the economic life of the city and its rural surroundings *Slavery and Freedom in Savannah* restores the urban African American population and the urban context of slavery Civil War and emancipation to its rightful place and it deepens our understanding of the economic social and political fabric of the U S South This project is made possible by a grant from the U S Institute of Museum and Library Services This volume is published in cooperation with Savannah's Telfair Museum and draws upon its expertise and collections including Telfair's Owens Thomas House As part of their ongoing efforts to document the lives and labors of the African Americans enslaved and free who built and worked at the house this volume also explores the Owens Thomas and Telfair families and the ways in which their ownership of slaves was foundational to their wealth and worldview

The Rise of the Urban South Lawrence H. Larsen,2021-12-14 Operating under an outmoded system of urban development and faced by the vicissitudes of the Civil War and Reconstruction southerners in the nineteenth century built a network of cities that met the needs of their society In this pioneering exploration of that intricate story Lawrence H Larsen shows that in the antebellum period southern entrepreneurs built cities in layers to facilitate the movement of cotton First came the colonial cities followed by those of the piedmont the New West the Gulf Coast and the interior By the Civil War cotton could move by a combination of road rail and river through a network of cities for example from Jackson to Memphis to New Orleans to Europe In the Gilded Age building on past practices the South continued to make urban gains Men like Henry Grady of Atlanta and Henry Watterson of Louisville used broader regional objectives to promote their own cities Grady successfully sold Atlanta one of the most southern of cities demographically as a city with a northern outlook Watterson tied Louisville to national goals in railroad building The New South movement did not succeed in bringing the region to parity with the rest of the nation yet the South continued to rise along older lines By 1900 far from being a failure in terms of the general course of American development the South had created an urban system suited to its needs while avoiding the promotional frenzy that characterized the building of cities in the North Based upon federal and local sources this book will become the standard work on nineteenth century southern urbanization a subject too long unexplored
