The Power of Paradox W. Brewster Willcox, 2012-04-30 One thing this book is not is a tightly reasoned argument that leads the reader inevitably to the book's main thesis It is rather like its cover a collage It is a hundred more or less observations into what is deep and meaningful in life the reality around us that gives the impression that reality is in fact a paradox a friendly paradox The book looks at theology baseball mathematics and the Bible And it talks a lot about particle physics and quantum mechanics You'll notice that it fails to mention rock stars and reality TV Wisconsin Library Bulletin

, 1967 What Anglicans Believe Sam Wells, 2013-01-26 At a time when disagreement is rife this guide introduces the historic beliefs that unite all Anglicans Suitable for new and seasoned believers alike it offers a timely reminder Anglicanism's historic breadth and generosity **The Beauty and the Horror** Richard Harries, 2016-10-20 For anyone who is fascinated by the phenomenon of religion this is a deeply interesting book Mary Warnock Although we can all give meaning to our lives by trying to live well is there some given meaning to be discovered Science cannot answer this question and philosophical arguments leave the issue open The monotheistic religions claim that the meaning has been revealed to us and Christians see this is above all in the life death and resurrection of Jesus Described by Rowan Williams as that rarity a Christian public intellectual Richard Harries considers the Christian claim in the context of an in depth discussion of the nature of evil and how this is to be reconciled with a just and loving God Drawing on a wide range of modern literature he argues that belief in the resurrection and hope in the face of death is fundamental to faith and suggests that while there is no final intellectual answer to the problem of evil we must all believer and nonbeliever alike protest against the world and seek to change it rather than accept it as it is The Truth-Seeking Heart Ann Loades, Robert MacSwain, 2006-08-29 Austin Farrer was part of the extraordinary mid 20th century group of Oxford Christians which also included C S Lewis J R R Tolkien Charles Williams and Dorothy Sayers Described as the one genius that the Church of England produced in the last century and author of

incomparably the most interesting theological books ever to come out of Oxford his great legacy is that his considerable learning expressed itself as practical spiritual direction He believed that after all the argument analysis and sifting of evidence the purpose of theology was to show how to live and how to love He died in 1968 and his many books are now out of print Here is a thematically arranged anthology of his most influential writings with an extended introduction that assesses his contribution to Anglican life and through today *Son of God by Divine Hereditary Methodology* George Natar,2022-10-01 This book proposes a methodology for the conception of Jesus by a human mother and a divine father The method makes use of scientific genetic processes which operate in the conception of any human being but with a divine contribution Various currently held theories of methods by which Jesus appeared on earth are shown to lack evidence Arising from this method Jesus sonship from God is proposed to have been literal and not metaphorical as is suggested by current theology Therefore Jesus is presented in this writing as the literal son of God being both human and divine As such he was the unique and suitable offering to God to make atonement for the obvious wrong doing of human beings If this methodology is correct the way a trinity of divine persons may be perceived is suggested *The Anglican Imagination* Robert Boak Slocum,2016-03-03 The variety and depth of Anglican theology is best engaged through personal encounter with its many sources the theologians and theological witnesses themselves Anglican theology is often worked out in personal terms that provide a synthesis between reflection on the truths of faith and the particular contexts of culture and life This book presents modern Anglican theology through a unique gallery This theological gallery includes a portrait or sketch of ten Anglican writers DuBose Farrer Stringfellow Brooks Kemper DeKoven McCord Adams Polkinghorne Gore and Macquarrie Theological description interpretation and application are included for each with the presentations differing as widely as the theologians and theological witnesses themselves Drawing together understandings and experiences of faith this will be an invaluable resource for students of Anglican theology and anyone who seeks to understand the distinctive perspectives and contributions of Anglicanism relative to living faith and daily life *Reframing Providence* Simon Maria Kopf,2023 The doctrine of providence which states that God guides his creation has been widely conceived in action terms in recent theological scholarship Instead of recalibrating the much discussed non interventionist objective divine action NIODA approaches Simon Maria Kopf advocates a reframing of providence in terms of the virtue of prudence Christianity and the Nation-State Gary Chartier,2023-07-27 A theological affirmation of liberalism that critiques state authority proposes an alternative and offers suggestions for life under state rule The Providence of God David Fergusson,2018-08-30 The concept of providence is embedded in the life and theology of the church Its uses are frequent and varied in understandings of politics nature and individual life stories Parallels can be discerned in other faiths In this volume David Fergusson traces the development of providential ideas at successive periods in church history These include the early appropriation of Stoic and Platonic ideas the codification of providence in the Middle Ages its foregrounding in Reformed theology and its secular

applications in the modern era Responses to the Lisbon earthquake 1755 provide an instructive case study Although confidence in divine providence was shaken after 1914 several models were advanced during the twentieth century Drawing upon this diversity of approaches Fergusson offers a chastened but constructive account for the contemporary church Arguing for a polyphonic approach he aims to distribute providence across all three articles of the faith Scripture, Metaphysics, and Poetry Robert MacSwain,2016-04-01 This book offers a critical edition of arguably the greatest work of English theology in the 20th century Austin Farrer's Bampton Lectures published as The Glass of Vision in 1948 Farrer was an interdisciplinary genius who made original contributions to philosophy theology and biblical studies as well as to our understanding of the role of imagination in human thought and Christian doctrine According to Farrer the three primary themes of these lectures are scripture metaphysics and poetry individually and in relation to each other The lectures defend his famous theory of divine revelation through images rather than propositions or events a provocative account of the place of metaphysical reasoning in theology and a literary approach to the Biblical text that was decades ahead of its time and is still controversial The Glass of Vision has generated a rich and interesting interdisciplinary conversation that has lasted for decades starting with commentators such as Helen Gardner and Frank Kermode In addition to Farrer's full text this critical edition also contains an introduction to the significance and context of Farrer's thought and a selection of thirty years worth of commentary by leading British and European theologians and literary scholars David Brown Ingolf Dalferth Hans Haug Douglas Hedley David Jasper and Gerard Loughlin Of interest to literary and biblical scholars theologians and philosophers this book holds particular value for those exploring the nature of imagination in contemporary thought and scholarship
